Dear Mr. President:-

I am sending you by prepaid express today, my annual
gift of one of the famous Parker County water melons. This
melon weighs 103 pounds and was raised especially for you on my
order.

If you and your dear ones experience as much joy out
of eating it as I have in having it raised and sending it to you,
you will have a wonderful water melon feast.

God bless you, guide and uphold you and may He grant
to you and your dear ones your every hearts desire today, tomorrow

Sir:

Please accept with our compliments the cloth and paper editions of Doctor Illick's new book, AN OUTLINE OF GENERAL FORESTRY, which is being forwarded to you under separate cover. The material in the two books is identical.

It is hardly necessary for us to describe the merits of Doctor Illick's book to you. Anyone who has interested himself in even the most elementary aspects of the subject, knows the tremendous impetus given forestry by you in the present administration. And a fact not so well known, perhaps, is your great Forest at Hyde Park mentioned in the book by Doctor Illick as an outstanding example of private estate forestry.

Several members of the U. S. Forest Service read and criticised those portions of the manuscript which fell within their special fields. Several Corps Area Educational Directors for the C. C. C., also contributed generously of their time in checking advance proofs. (See acknowledgments)

In order that there may be available at all times an authentic, up-to-date and inexpensive summary of general forestry, we plan to revise this book at least once a year. We would be exceedingly grateful for any suggestions from you which will help us.

Respectfully yours,

San Diego, Calif.

San Diego, Calif. Sept. 22nd 1935

White House, Washington D.C.

President Roosevelt,

My Dear Sir:

I'm enclosing herewith 3 small type on which the Lord's Prayer has been cast from the original die - each letter is $56/10,000$ th of an inch high - there are 412 letters & 62 words.

The nick on the type towards you on smooth end you will find the full Lord's Prayer quite plain and perfect, you can see with the aid of a magnifying glass.

My father Charles H. Beeler made the original die at the age of 70 years old, he also made it to go on the $1/2$ of a head of a Pin but that being too small to cast & be readable. He died Jan 14th 1934 at the age of 79.

I thought you would like to have some of these type of which I have enclosed, & if you care for more just say the word.

The Beeler family was raised in Phila, but I the oldest son is at present staying in San Diego, Calif. for a year or more, also seeing the Beautiful Exposition here.

Hoping to see you here when you come, I remain,

Yours very respectfully
Harry Beeler Jr

Thank & thank

My dear Sir,

I am sending you for the New Year a small gift, the Ten Commandments. I am sure that if you will keep this small but great treasure in your desk, it will bring you luck for the future. I read in today's paper about the plans for an exposition to be held in New York. Quite a few names such as Liberty, American etc. were suggested for this World's Fair. My suggestion would be "Roosevelt Exposition". If this name is acceptable to you, will you please write to General Johnson giving him my suggestion. If it will be accepted by General Johnson, the reward that I would like to have is just a good position, as I am in need of one.

Hoping you will live to see this exposition and wishing you a happy and sincere New Year, I am!

Sincerely yours

Please accept these Zinnias developed and grown on our ranches at El Monte, California, the site of the Rurban Homes Project Resettlement Administration. We wish to compliment you on fostering this project which means so much to the citizens of our community.

x 10/4/35
Knowing that you are vitally interested in the development of various businesses in these United States, we are handing you, herewith, a little booklet dealing with the development of our business of growing flower seeds. As a part of this business we brought into the country through the Los Angeles exchange \$200,000.00 worth of foreign money and in shipping seeds we use over \$5,000.00 worth of stamps annually.

Please accept our best wishes for a pleasant visit to the West Coast.

The Congress said that in
the rush of business he had failed
to write to Mr. McIntyre to ask if the cake
will be acceptable, and to make arrangements
to come with it himself, to make the present-
ation, and to have pictures taken, the same
as last year. Said that the donor of the
cake and other constituents in California
expect him to do that. Said the maker of
the cake values it at \$1,000, that it takes
him several months to prepare the ingredi-

My dear Mr. President:

It is with genuine pleasure that the Chamber of Commerce of Charleston, South Carolina, welcomes you to "America's Most Historic City". As a memento of your visit here we present you with this etching of St. Michael's Church, one of Charleston's oldest landmarks. It was here that George Washington worshipped on the occasion of his memorial visit to Charleston in May, 1791.

This etching is the work of a native Charlestonian, Elizabeth O'Neill Verner, through whose courtesy this memento is presented to you.

We hope you will accept this as a token of our highest esteem and affection.

To Your Excellency:
President Roosevelt.

Enclosed is a photograph
of your portrait in oils which
I am sending you with my
compliments and best wishes.

It is purely my own
composition or idea of a
painting. Although I am proud
to say, it is my best efforts in
rendering of the subject in
composition and color theory.
I am ~~not~~ satisfied on the
public comment I have received
from their point of view, but I
know that it could be improved
upon. I can sense the feeling
inside of me.

I have always been a

lover of art or drawing. I graduated
grade ~~school~~ school class artist.

My many friends have
always told me to keep it up
and I would make something
of myself. I ~~left~~ left high school
in the sophomore year to go to
work. I had to. After a while
I felt I wasn't cut out for factory
work so I took a correspondence
course in commercial art and
have learned most of what I
know about art through the mail.

I've never had anyone
to actually show me where I was
wrong and the reason why. The
more criticism you have the
sooner and more you learn.
I have reached the point where
I should have some one over
me or some kind of training from
an art school which I unfortunately
can not afford as I have to work
for a living in the one and only
~~two~~ town factory at present working

(3)

only three (3) days a week.

My spare time is always taken up studying different painting for color, composition and technique in representing the subject in general. I've learned a lot this way but I can't seem to pull it out unless I have the proper training.

Perhaps if I had the opportunity to study a while I would realize my life's ambition or prove to my self I'm not an artist. Frankly I have enough confidence in myself as far as I have been able to go to compete with the next fellow.

I believe that confidence in oneself is more than half the battle won when one has the ~~perseverance~~ perseverance.

I am Italian born came to America two and one half (2 1/2) years old and am an American citizen twenty three (23) years old. In all we are eight in

(4)

the family, three boys and three girls. My oldest brother is married the next is engaged to be then there's myself and three sisters after me American born. My oldest sister has a job but a present is has been laid off in definately due to slack at the carpet works. She has been out for four months thus far. My father has been unable to work due to an indefinite sickness over a period of years.

We own a small home which is under the Home Loan Plan — which we were barely able to hold on to during the depression thanks to the Home Loan Plan. If we could sell the property it would be to my advantage but you can't give it away.

I am sincerely hoping that

65
you can foresee something in the
portrait I am sending you and
appreciate my humble efforts as
an artist in the making. It
means so much to me. My life's
work.

Could I be fortunate
enough to receive a personal
reply from your excellency the

My dear Mr. Bohanan:-

Now that I am back in Washington, I want to send you this personal note to tell you how delighted I was with that rod and reel. They stood me in good stead, for I got my largest sailfish -- 134 pounds -- with them. I took two hours and twenty minutes getting the fish into the boat but this was because I was firmly convinced that it was a swordfish and not a sailfish and was afraid of applying too much pressure.

I am very grateful to you for your thought of me.

B. & M. FISHING TACKLE

HIGH CLASS RODS MADE TO ORDER

3624 West Washington Boulevard

LOS ANGELES, CALIF.

November 9, 1935

Mr. Franklin D. Roosevelt
President of the United States
Washington, D. C.

My dear President:

Your personal letter received for which both myself and firm sincerely offer our thanks. We were very glad to know of you catching the 134 pound Sailfish and hope that you will catch many more on your next trip.

I wish to take this opportunity to state that I am sorry to have not had a chance of thoroughly testing out your reel. If for any reason the drag is too severe or too loose which would cause slipping, we will be very glad to make any necessary adjustments. These reels are made to slip at a certain point to prevent breaking of line. It is possible that it might slip before you desired it or too late. This can be easily corrected. These reels need greasing about once every three years, and if you will send it to us, we will be very glad to take care of this matter for you, and make any adjustments that you see fit.

Yours respectfully

I have to do I hope that a note of felicitation
of many years (since the San Francisco
1920, to be explicit, where I first heard and
not be an imposition on your time. I wish
you upon your safe return and the improvement
as indicated by press photos.

Regarding the work very much at this time in order to stay off
relief, being enthusiastic about the Writers Project and
feeling myself qualified for an administrative place in it,
I have made personal applications in Washington, Jefferson
City and my home here but without avail. It was my impression
that you wanted the work to be a notable one as well as
one that would provide employment for those who need it;
consequently I did not arm myself with political endorsements
(although I could have done so), but confined my credentials
to those of a professional nature. I could work anywhere.

I have heard, but do not believe, that the Writers Project is
a political set-up. At the same time I must be frank enough
to say that if given an administrative or even a supervisory
place in it it would be difficult for me to refrain from
furthering the interests of the Administration during all
the time I had outside the work to which I were assigned.
To be still more frank I would give leave to be hanged as high
as Haman if any territory to which I might be assigned as
an administrator were not carried by the Administration in
the notable fight ahead of us....I have written Mr. Howe
more in detail and also have sent to you through him an
autographed copy of my book, Comanche which I hope you will
accept of. May God keep you, my President.

Faithfully yours

BAKER, Ray Stannard
Amherst, Massachusetts,
November 1, 1935.

Writes President sending him a copy, in advance of publication, of "The Life and Letters of Woodrow Wilson", which deals with Wilson's struggle with the problems of American neutrality at the beginning of the World War. Says the problems of Wilson are the President's today. Asks for few words of approval from President re book if President thinks the book warrants such.-- Attached is Presidential memo to Mr. Early, of Nov. 4, re matter.--President, on Nov. 13, wrote Mr. Baker saying it most thoughtful of him to send him (the President) the book in advance of publication. Said he should read every line of it with interest because, as Mr. Baker observed, the problems of American neutrality which confronted Woodrow Wilson at the beginning of the World War were very much like the problems which face the Administration today and are likely to assume increasing gravity in the period just ahead. President stated the publication of the volume at this time was indeed timely and all friends of the Late Leader would be grateful that the task of preparing it was committed to the capable hands of Mr. Baker. Stated further that this work, supplementing Mr. Baker's previous labors in the same field, would be invaluable, not only to contemporary readers but in preserving in permanent form the record of a great figure in momentous period of world affairs.

BLAIR, Gist
Washington, D. C.
Nov. 9, 1935

Writes President, sending him book, a history and biography by Prof. William E. Smith, because of his interest in the Blair family. Says President has written Fine Arts Commission suggesting beautification of "Montgomery Blair Portal". -- President wrote Mr. Blair Nov. 13, stating he is enchanted by the two volumes and has begun to read them. States they very adequately supplement history in many vital parts - and incidentally a vital period of our country's history. Says he will see Mr. Moore soon and will speak to him about the portal plan. -- On Nov. 13 the President wrote memo to Hon. Charles Moore, asking status of proposed Montgomery Blair Portal, about which Mr. Gist Blair has spoken.

My Dear Mr. President :-

I am mailing you today one FIZRITE with my compliments.
I sincerely hope that you will find this "little gadget" both econ-
omical and useful.

The Fizrite is the only combination bottle cap and
fizzer manufactured that has proven succesful. It keeps the bev-
erage fresh indefinitely of until consumed. The Fizrite will fit
all bottles now being used for bottling ginger ale, sparkling
waters, etc. The Fizrite keeps the gas in the liquid. The beverage
cannot go FLAT.

Quite a few business men are placing orders with me
for Christmas delivery. Some are furnishing me with list and I
mail direct to their friends, while some prefer to present them
personally.

I mail them out individually packed in attractive
Christmas carton a .30¢ each, which includes packing and postage,
or \$3.00 per dozen when shipped in dozen lots via parcel post.

If you should wish any Fizrites for this purpose will
be glad to furnish you with your requirements.

My sincere wishes for a happy holiday season, and
succesful 1936,

I am,

Sincerely yours,

W. L. Black

November 23, 1935.

Dear Mr. President:

The Girl Scout Federation of Greater New York has embarked upon its first annual Cookie Sale, in order to raise the budgets required in the five boroughs, Manhattan, Queens, Staten Island, Bronx, and Brooklyn.

There have been 18,000 Girl Scouts selling cookies!

It was the happy idea of the Bronx Girl Scouts to send you cookies for Thanksgiving. We are sorry that we can't send enough for you to share with all the children in Warm Springs.

However, we wish you a happy Thanksgiving.

Most sincerely yours,

Bruce Bromley

May I present, with our compliments and high esteem,
the accompanying volume - "AMERICAN CONSERVATION. In Picture

Association. Unlike any other publication, it is the pictured
story of the origin of our natural resources, their treatment
and the development of conservation in our country.

I hope you may find opportunity to peruse the book and
that it may merit a place in your personal library.
