I am sorry not to have seen you before your departure for the Coast, and if you come this way again, be sure to come in.

Dear J. D. :

Here is a beautiful I. E. S. Floor lamps that one of our citizens got from City Light and asked us to give to the President, in his behalf.

This is the first lamp to be equipped with the new shaft switch. Merely turning the shaft lights it with 100-200-300 watts.

Mr. W. E. Belcher, 3215 Western Avenue, Seattle, Washington is the gentleman who recently invented the switch. He gives City Light a great deal of credit for the help we contributed toward the making of this piece of equipments. He says the switch has been accepted by the Illuminating Engineers' Society, and that the Society has honored him by placing it in the Hall of Science a few months ago. To my knowledge, this is the first lamp, other than those made for experimental purposes, to be equipped with this switch.

Mr. Belcher and ourselves hope the President gets a great deal of comfort from its use.

Sincerely yours,

Pete.

Writes President that Bill Anderson or any other industrialist can't bury what "Roosevelt Says". Encloses a book of the President's first efforts as a columnist. ---President wrote Mr. Palmer that he was delighted to have the book of his first effort as a columnist and was proud that these little articles came out in Georgia. Said he was happy that the effort many years ago did help good old Tom Loyless. President stated since then, Bill Anderson had gone high-hat but he was glad that he and Mr. Palmer and most of the people in the country had not changed their old head-gear.

Miss M. A. LeHand
Private Secretary
President of the United States
Washington, D. C.

My dear Miss LeHand:

On November 16, 1936, one Cornelia Bresland, residing at the Lone Pine Hotel in Ironton, Missouri, forwarded to President Roosevelt a handmade table cloth, nine by twelve feet, of American Beauty Rose design. It took approximately seven years for Mrs. Bresland to complete this cloth.

Mrs. Bresland is a widow about seventy-five years of age, and this banquet cloth is her masterpiece, which she wished the President to receive.

You wrote to Mrs. Bresland for the President, acknowledging receipt of this gift, and thanked her for it personally. However, one of the most pleasing things that could happen to this old lady in the declining years of her life would be a personal letter from President Roosevelt himself, signed by him, extending to her his personal thanks.

Without being presumptuous, may I solicit your good offices in having the President dictate and personally sign a letter of this character to Mrs. Bresland?

Thanking you for your cooperation, I am

Dear Mr. President:

I am sending you by express tonight a box of Old Ironsides Brand Emperor grapes. These were picked some little time ago and put in storage with the idea of your having them for your Thanksgiving holiday. I am addressing you at the White House but am not sure that you will be there at this time. If not, and it is too much trouble to have your secretary instruct the Express Company where you will be, they will keep in perfect condition for some time if they are put in a cold place. I hope you and your family will enjoy them.

With kindest regards, I remain

Very truly yours,

My dear Mr. Roosevelt:

President Roosevelt has
always expressed himself vigorously
against war as a means of
settling International disputes.
Therefore I believe he would be
interested in seeing a medallion
which I have just designed -
dedicated to peace. I am sending
a copy of this plaque to him in
your care, by express, with my
compliments.

May I also take the liberty of

2-
telling you an actual story that
I feel sure would amuse the
President. While making
a portrait bust of an interesting
twelve year old boy I was asked
"Mr. Borst, do you ever make
portraits of famous men?" Upon
asking whom he had in mind he
replied, thoughtfully "well, President
Roosevelt, or ... Pop-eye-the-Sailor!"
Such is fame!

Writes to Col. McIntyre asking if he would arrange an interview with the President for him, so that he might discuss the growing propaganda of non-American countries in Latin America and suggest to him a plan which the writer has for the development of our own cultural relations with our neighboring countries. Encloses an announcement of his last book, in which is described the President's visit to Buenos Aires, and in which he endorses the Good Neighbor Policy, etc. Says he discussed this matter with the President at the Buenos Aires Conference, etc. Says that as a Christian greeting he has sent the President a copy of his little book "Building an Inter-American Neighborhood", and he would like to have the privilege of presenting it to the President.--Under date of Dec. 27, 1937, Col. McIntyre wrote to Mr. Inman re the above, that due to the pressure on the President's time, he would be unable to make an appointment for him, and suggesting that Mr. Inman have a talk with Undersecretary of State, Welles, instead. Attached is a letter from Miss LeHand to Dr. Inman, dated Dec. 20th, thanking the latter for the inscribed copy of his book, above-mentioned, which he sent to the President.

December 20, 1937

Writes the President regarding the "over life size bust" which he has made of him, and for which the President posed. Writes that he has been very ill for the past few weeks, but in a week or two later he will be stronger, and asks if someone close to the President is in New York at that time, that the President have them drop in to the studio and look at the bust. Says there are to be many copies made and placed throughout the country and that there has been a proposal to erect a gigantic 15 foot head in Hyde Park, and asks if the President would be agreeable to this. Also says that he will have ready in a month or two another small model, as the one for which the President expressed a desire to have was so badly cast. Says if the President would like to see the large head, he could go to Washington with it in January.-- Attached is a letter of same date from Mr. Martineau to Col. McIntyre stating that because of the latter's great devotion to the President, he would like to present to him a miniature bronze of the President.--On Dec. 27th, Col. McIntyre replied to Mr. Martineau re the above saying he would be delighted to have the small model, and also saying that he thinks the small replica will enable the President to see just how the work turned out, etc.

My Dear Mr. President:

We are mailing you, along with this letter, a little Christmas gift for you.

Having visited Grand Coulee Dam several times, we thought you would enjoy receiving a box of these sage candles, our own original creation for a souvenir from that interesting area.

While traveling in California last summer we awoke to the fact that our own great State of Washington has no authentic souvenirs.

We are now developing a line of authentic souvenirs--our own original ideas. These candles are the first numbers we have ready for the market.

Our plan is to weave every souvenir into the early history or Indian legends of Washington State, the very history of which is romantic! Our greatest difficulty is to find authentic information; when that obstacle is over come we will have an amazingly immense field to draw from for unique souvenir ideas.

The souvenir field, in Washington State, has heretofore been utterly untouched. Our established occupation is our retail dairy and we would greatly appreciate your opinion of the possibilities of this new field we are entering.

We have the honor to remain most sincerely yours,

My Dear Mr. President.
I am sending you a miniature "Torah"

I could not think of a

Christmas, than the "Torah" of which
Jesus was a great student.

I hope this talisman

Dear Sir:

It is with the greatest of pleasure, to be sending you, a copy of a miniature little volume that I printed in 1934, but just recently bound up, this copy being the second one bound, and done especially for yourself. The story it is one that I found in an old scrap book made by an older sister, that was left to me, and was one that impressed me very much, so much so, that I printed it in miniature book form for the purpose of making many of my friends a copy; therefore I am sending you a copy with my compliments, also one of my annual original Christmas cards, and would be very much pleased to know if you received them.

Very truly yours
