VMB - BLAND, Harry MacNeill
New York, N.Y.,
July 6, 1940

Writes to the President that he is sending a book on "The Case of the Private Armed Brig of War, Gen. Armstrong at The Island of Fayal". Says the President owns the original painting of this celebrated incident thought he might like to have the book for his collection. Says it once belonged to Stephen A. Douglas. Says he has slipped into the book an original water color of Fayal made at time of the action. This painting came from collection of Capt. Francis Marryatt, the eminent writer of sea tales. -- Aug. 12, (12) the President thanked Mr. Bland for letter, book and water color saying he is delighted to have them. -- Aug. 12, the President asked Capt. Knox to please have the water color of the Entrance of Fayal on 26th day of June, 1800, cleaned up as he wants to have it framed.

My dear Mr. Brockmeyer:

The President thanks you very much indeed for your letter, with the enclosed pictures and old bank draft. It is with a full heart that he has read the many messages that are being received and he wants you to know how deeply he appreciates your pledge of support as well as the confidence in his leadership which your generous words imply.

The President is glad to have the souvenir book which you were good enough to send him.

Very sincerely yours,

M. A. Leland

Citizens Bank,

CAPITAL \$12,000.00

Eldon, Missouri.

Dear Mr. President:

It is with much pleasure that I write you on this, the twelfth day of July, 1940, urging you to be our President for a third term.

There are a lot of us here in Eldon and these Great United States that need you and urgently so at this time, to battle for our rights and keep our Good Ship on an even keel.

You wrote me during Al Smith's effort and asked me to support him, which I did. I assure you I used plenty of sole leather and pep. I have been, as you must know, an ardent admirer of yours for many years. I listen to your radio speeches and feel that every one you make—regardless of nature—make the voting population for you greater and greater. You have proven yourself an out-and-out Champion of our Great Home.

I am sending you a book—a Souvenir of the "Gay Nineties" and hope its pages and illustrations will prove of interest. On page 241 is President Wilson's Speech of Acceptance. "Teddy" was a great boy and really did things—it is a habit with the Roosevelts.

Wishing you success in all your undertakings and that you will not fail your people at this time. Millions believe in you and millions wait to vote for you again, and still again.

With sincere regards to yourself and wife and with a prayer you won't fail us, I remain, Most truly

John Brokmeyer

July 11, 1940

Miss Roberta Barrows,
Secretary to Hon. Marvin McIntyre
White House
Washington, D.C.

My dear Miss Barrows:

I wish to thank you for your kind letter of July 9. I regret very much that Mr. McIntyre is not at Washington and will not be there for some weeks. However, the matter at hand is very urgent, especially since I received word today from Carter Barron, Secretary to Lawrence Wood Robert of the Democratic National Committee, Stevens Hotel, Chicago, requesting orchestrations of our musical number "HAIL TO OUR PRESIDENT". Evidently this means that our composition is receiving favorable consideration. We have just had a special recording made by the U.S. Navy Band and today we arranged a vocal chorus sung by one of the outstanding Fine Arts students of Syracuse University to sing along with the Band, which turned out very satisfactorily.

I hope I am not too presumptuous in requesting you to see that President Roosevelt hears this record immediately, before he leaves for the Chicago convention. I would not make this request, but the Committee who, as I stated heretofore are giving the composition favorable consideration, are making their decision this weekend. This song, dedicated to our President, can live on forever. In other words there is nothing political in its nature. The words are simple and understandable and will be sung by school children. In fact I wired our engraver for finished manuscripts so that President Roosevelt can see this in its completed form. You can appreciate how important this matter is to us, and Professor Nelson Brown of Syracuse University, who is a friend of Mr. McIntyre, assured me that this would reach the President's attention. Therefore, I hope Mr. McIntyre's absence from the city will not cause any interruption, and I beg your personal attention to this matter. You can appreciate the work done

Dear President Roosevelt:

May I have the pleasure of presenting to you as a gift, an autographed copy of my book, *Help Them Live*, which relates the helping of unfortunates and contains many stories of life, conditions, and facts in the past ten years.

As an admirer of yours, I have been interested in the good constructive work you have been doing for our Country through your wisdom and efforts, throughout your administrations, making this Country of ours a better and finer place to live in.

I would deeply appreciate, if you could spare a few moments to glance through my book. Although I realize you are a very very busy person. Would it be possible for you to please write to me in reference to the contents of the book, and how interesting you have found it?

My sincere appreciation to you,

With best wishes,

I remain,

BATCHELOR, Joseph E.
Designer and craftsman in
Stained and Leaded Glass
Haddonfield, New Jersey

Wrote to the President asking if they may have the honor and privilege to donate an antique glass window or medallion in one of the windows in the new Hyde Park library. Says his Spanish son-in-law, Jose Llera, has in mind incidents in the life of Matthew Fontaine Maury which would make the background for a figure or bust study. It would be necessary for him to have the particular window size to determine the proportions, and a sketch would be submitted for possible suggestions and approval. Discussed the Marine Corps Emblem with his son-in-law, but has decided that he prefers the wider scope of possibilities and fitness of a Maury study. His daughter is studying Spanish in Puerto Rico in the hope that she and Jose may be of service to the Government some day in Latin American relations. -- Miss LeHand replied on behalf of the President on July 25, 1940, saying that she brought Mr. Batchelor's letter to the attention of the Architect of the new library, and he advises her that the type of building which has been constructed is not such as to suggest the use of an antique glass window or medallion. Architect feels that the special treatment of any of the windows would be inappropriate in a building for which the design is based on the early architecture of Dutchess County. President is nonetheless grateful and send his sincere thanks. -- (Miss LeHand's reply is as per information received from Mr. L. A. Simon, Supervising Architect's Office, Public Buildings Administration, July 22, 1940, in response to Miss LeHand's memo of July 18, 1940.)

President Franklin D. Roosevelt
The White House
Washington, D. C.

Dear Mr. President:

I have sent to you, under the inevitable "separate cover," a complimentary copy of a book of mine, Lincoln's Rise to Power, published in 1937. I hope you will accept it. There hangs a bit of a tale. Last week my publishers informed me that they were sending a copy to Mr. Willkie. Doubtless they were moved to do so by the striking similarity between the surprise nominations of Lincoln in 1860 and Willkie in 1940. When I related this occurrence, with considerable amusement, for I am of third-term proclivities, to the wife of a noted Lincoln authority of similar tendencies, she suggested that I even up matters by sending a copy to the other candidate, who also possesses Lincolnian qualities (Don't change horses in the middle of the stream)! This I was delighted to do.

Yours sincerely,

William E. Baringer.

Dear Mr Early,

Don't you, vice recall the writer - I am the gentleman that sent the beautiful Statuette of the late beloved "Pope Pius XI" to you - for the President and yourself.

- I have now the Records of His Holiness "Pope Pius XII" depicting the coronation ceremonies and the pontiff speaking -

I am desirous of one of these albums - containing 3-12 in Record, 2 sides represented to the President and one to yourself.

If this can be done - let me know, immediately and I'll send them to you as soon as possible. Best wishes and thanks.

Yours truly
W. J. Benedict

Dear Mr. Early:

Your letter of recent date at hand on my return and note contents with keen interest.

In this connection please be advised that I have requested the Key Recordings, Corp. manufacturers of the records of the ceremonies and coronation of His Holiness Pope Pius, XII to ship to your address two of the beautiful albums.

This album will contain three twelve inch records, six sides, enclosed in a beautiful container and one of them is for the President and the other for yourself - a sacred heritage to keep and to hold for all time, that is praised by all who see it and prized by all those who possess it.

I note that our mutual Marvin McIntyre has returned after his long exile and siege of illness to the White House and I sincerely trust he has fully recovered. Please give him my kindest regards and a little later I will be pleased to send him also a duplicate copy of the records.

Please inform me if Mrs. Edith Helm is as yet the Secretary to Mrs. Roosevelt.

May I ask that you acknowledge this as soon as possible and with kindest regards and best wishes

Yours very truly,

W. J. Benedict

My dear Miss Le Hand,

Under separate cover I am mailing you a box of cigars, which I should like to ask you to be kind enough to present to the President with my best wishes. The writer is the manufacturer of the Nutura Cedarap Cigar, which is manufactured at Kingston, N. Y.

I am well aware that our good President is a cigarette smoker. The tobacco in this cigar has been very carefully selected and I feel sure that he would enjoy them after a good meal, at least prevail on him to try one anyway.

My reason for writing you and sending same to you is that I feel I know you through, the Sommerville's of the New Willard, Bill Bray and Brian Mc Mahon, who are personal friends of mine.

Permit me to say that I have a vast acquaintance in the Eastern States and if I may be of service in any small way to the worthy cause please call on me. I haven't any political motives whatsoever when I make this offer, just that I could find time to be of service.

Cordially yours;

Joseph B. Back

September 21, 1940.

Edwin M Watson,
Secretary to the President,
White House,
Washington, D. C.

My dear Mr. Watson:-

As you suggested in your letter of Sept. 19th, I have sent my gifts for the President and Mrs. Roosevelt by mail today.

I am very sorry that I will not have the honor and pleasure of meeting the President personally, but I do realize that he is severely pressed for time during these critical times, through which the world is passing.

When you present the picture to him will you be kind enough to explain it to him. There are 48,419 beads in the entire picture, and it took me seven months to complete it in the spare time I have after work. The pillow top for Mrs. Roosevelt was made on a wooden frame, with a handmade wooden needle. I do hope it is made in her favorite color.

Give the President my best wishes for an election in his favor. He can feel sure that I am doing all in my power to help, for I think that he has been a wonderful president in the past seven years.

Sincerely yours,

Alexander Blades.

signed by Mr. Early, to Sam D. Bradford,

MEMORANDUM FOR CHARLES MICHELSON
September 19, 1940

On the above date Miss LeHand referred to Charles Michelson, Dem. Nat'l. Comm., a letter to Miss LeHand from Hendrik Willem van Loon, dated 9/7/40 "From Holland comes the unpleasant report that the Germans contemplate bringing old Dr. Hendrik Colijn before a so-called "War guilt tribunal" because as Prime Minister he was unwilling to cooperate with the Nazis." Has written a book, "Invasion" to show how and in what manner it can happen here -- hopes to send the President one copy in about 2 weeks. Supposes Michelson will let him know if he wants any campaign literature written but thinks campaign seems pretty well decided. Copy of MAL's reply 9/19/40 sent and copy retained.

See - PPF 2259

VW

Sept. 24, 1940

Mr. van Loon sends President copy of "Invasion". Tells President plans for possibilities of a "Primer of Freedom".

Sept. 26, 1940

Writes President he has arranged with Editor of American Magazine to try and write a short Primer of Ex Democracy - some forty questions and answers. It would take too long to bring out in book form. Would be glad to help President in any way but thinks he can do best by writing and so will try to finish "History of the Average Man" which he hopes to have ready by Fall 1941.

Receipt of book acknowledged to Mr. van Loon 10/4/40.

Brigadier General Edwin M. Watson
 Secretary to the President
 The White House
 Washington, D. C.

Dear General:

X This morning the President admired a
Roosevelt button that I had, so I am sending five
 envelopes containing five different kinds of
 Roosevelt buttons for the ladies to wear.

I would like to know how many of these
 buttons the President wants for distribution, so
 kindly advise me.

Sincerely yours,

Sol

My friend
Philadelphia, Pa.

November 6th, 1940.

His Excellency.
Franklin D. Roosevelt.
White House.
Washington. D. C.

Dear Noble.

First permit me to more than thank you for the letter which I received from you through your Secretary Mr. M. A. LaHand, dated October 24th, 1940 regarding my book "America for Americans" and the acknowledgement of my wire to you of that date of your visit to Philadelphia.

I wish to more than congratulate you on the out-standing victory you so well earned yesterday which to all real Americans, was a certainty as, although we may be infested with certain un-American, and Anti-American elements, the voice of the millions of True Americans who in unison called upon you yesterday to once again lead them should more than assure all of us of the security and future of our Great Nation.

I can well appreciate that, at this writing you and your entire staff are and will be deluged with correspondence of all kinds from all parts of the world, however, as I am making every effort to complete, publish, and release my second edition, revised up to 1941 of my book-"America for Americans"-with which you are acquainted so that it may be avail to both our citizens and aliens, by or before the first of the year, it is necessary that I call your attention to a letter which I received from you in 1933.

If I may presume upon your secretary to refer to your files regarding a letter sent to me, from you through your secretary Mr. Stephen Early, dated May 29th, 1933, in which you state that you have no objections to my using your photograph on the front cover of my original edition of my book "America for Americans", of that date.

It would be my privilege and great honor if you would have no objection, at this time in my placing your picture on the cover on my second revised edition "America for Americans", and my dedicating this edition to you.

I may advise you that the only change in this my second edition "America for Americans" will be the addition of all requisite new Legislation, and constitutional amendments up to 1941, for the Library and reference of both citizens and aliens.

Sincerely hoping that this request will meet with your approval may I ask you where I may best secure a photograph of you, which in your opinion, will be suitable for the front cover of my book

Should there be any suggestions or criticisms that you feel may be of benefit in this book I will deeply appreciate and carry out your suggestions.

My one hope and desire is that this book, not because it is mine, but because it answers many many questions in which our people are from time to time confused concerning the Laws and Principles of our American system of Government, that this book may be placed in the hands of every citizen and most particularly every alien, enjoying the Freedom of our shores.

Wishing you, from my heart the greatest of success in the guidance of our people and our Nation, and assuring you, that, I, for one will devote every thought and effort in doing my share in furthering your programme.

I beg to remain,

Most Sincerely

Herbert Mains Beck

PROTECT YOUR EARS —
PRESERVE YOUR HEARING

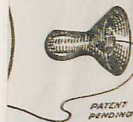

IT IS CONCEDED and generally accepted that Catarrh is the one great cause for Deafness, but it must be acknowledged and equally understood, believed and accepted that Catarrhal condition of the Nose is the symptom or indication that some primary, underlying or remote cause is responsible for this manifestation "Catarrh," then this must be the effect.

CAUSES — SAFEGUARDS —
PREVENTIVES

The cause can arise from numerous sources: environment, climate, exposure, vocation, inhalation of gases, smoke, dust, grit, noises, gunfire, explosions and others hereafter stated.

Many safety appliances have been originated and installed in industrial plants and shops to eradicate some of the mentioned causes and improve sanitary conditions—in many places safeguards required by law have been placed to prevent accidents of limb. The compulsory wearing of goggles to protect the eyes from flying particles of steel chippings and emery-wheel grindings to prevent injury to this important member, "the Eye." In all of these, due

telephone communication while in use. The voice is only slightly muffled.

Having observed in last nights Oct. 1st. Evening Ledger, a photo-cut (inclosed) showing fingers inserted in the ears to protect ear drums from gun roar while in company with Major General C.M. Wesson, suggested this communication.

Several pairs of this protector were worn by inlisted men and officers during a recent firing at Fort Monroe Virginia. The reaction was excellent in all cases and reports indicated their great superiority over cotton or any other device. Several men wore cotton in one ear and my protective device in the other. The results were intirely satisfactory and indicated that my device was highly favored.

My device has only recently Patented and approval received. Hence I am extending to you with my sincere compliments the protecting device, for your comfort and protection and may its efficiency and usfulness permeate through proper channells to the entire personnels.

With the kindest regards for your health, success and happiness. I am

Sincere yours,

Edward Baum, M.D.

caution is observed and fulfilled. Accidents do occur and the necessary compensation is allotted.

But what about your Ears? Wherein does compensation apply should one become Deaf or Hearing become impaired while in line of duty as the result of injury to the ear drum occurs from the one or numerous causes already mentioned?

Deafness or Impaired Hearing Handicaps one in securing other positions because it lessens efficiency, lowers standard in line of promotion, and increases cost for protection against other accidents.

THREE GREAT
QUESTIONS OF
EMPLOYER
COMPENSATION INSURANCE
EMPLOYEE

LEAKAGE — ENERGY
LOSS AND DAMAGE

It would appear that Mr. Employer has not considered the immense amount of leakage and loss of energy among his employees. Determined with honest intentions, good, earnest workers who strive to give dollar service for dollar

in money, but are harassed and hindered from doing so by the bombardment of injurious, damaging, distressing, missile-like penetrating, vibrating sounds battering at their ear (drums) all during work hours. Stunning and benumbing their finer efforts to a degree of uncontrollable lassitude, indolence and seeming laziness.

PERMANENT INJURY

The result of these causes (above-mentioned) disturb the mechanism of the ears. Brings about a gradual thickening of the drums at the expense of hearing. These irritating and destroying noises created during work hours continue during rest hours at home with such nerve excitement, that long after retiring they cause hours of restlessness, unrefreshing sleep, then to be aroused only too soon to return to this same atmosphere, partially recuperated from their previous day's labor and again and so on until Progressive Deafness manifests itself and Permanent Injury exists.

DEAFNESS

Injury to the ear, especially the drum, from continuous noises, vibration, concussion and convection, vary in their intensity and depend upon their character or amount of volume, force, suddenness, monotony and missile-like

R

DRUM
OR

g

ly

muffled.

Having observed in last nights Oct. 1st. Evening Ledger, a photo-cut (inclosed) showing fingers inserted in the ears to protect ear drums from gun roar while in company with Major General C.M. Wesson, suggested this communication.

Several pairs of this protector were worn by inlisted men and officers during a recent firing at Fort Monroe Virginia. The reaction was excellent in all cases and reports indicated their great superiority over cotton or any other device. Several men wore cotton in one ear and my protective device in the other. The results were intirely satisfactory and indicated that my device was highly favored.

My device has only recently patented and approval received. Hence I am extending to you with my sincere compliments the protecting device, for your comfort and protection and may its efficiency and usefulness permeate through proper channells to the entire personnels.

With the kindest regards for your health, success and happiness. I am

Sincere yours,

Edward Baum, M.D.

which limits the extent of the irritation, injury or destruction and modifies the slow or rapid approach of impaired hearing or deafness.

SAFETY FIRST

The Damage done to the ear, unless the concussion, convective, vibrating, missile-like projecting, penetrating force, perforates, punctures or ruptures the drum, may not be apparent at once, but the constant vibration creates friction, resulting in irritation, congestion, sensitiveness, later thickening of the drum at the expense of hearing—likened unto an ill-fitting shoe, which rubs any part of the foot or toes, creates friction, irritation and blistering, causing thickening of the skin (callous) at the expense of feeling.

It is common practice to insert cotton, packed tightly, intermingled with vaseline or glycerine to make it compact, into the ears during this time to protect their ears, which practice is unsanitary, producing irritation, inflammation, abscesses of the ear or other disturbances to the ear.

MEGA — Meaning Great, combining forms signifying Great, Extended, Powerful.

The Mega-Ear-Drum-Protector is the highest attainment of a scientifically

constructed and efficient device for the protection of the human ears (canal and drums).

It is light, pneumatic, pliable and durable, permanent, staple and efficient. It is adapted for repeated insertions in the ear canal, and can be readily and easily inserted and readily withdrawn whenever desired or necessary for the purpose of excluding and preventing entrances of Air, Irritating and Injurious Substances, Noises, Gases, Water, and Concussional Sound Waves, thereby protecting the Inner Ear from excessive or injurious vibration and indirectly protecting the nervous system from Shock.

The problem heretofore has been to protect and prevent injury to the Ear Canal and Drum of the many people who in their work and vocation were subjected to the loud and damaging noises and their ill effects. The writer who has had vast experience in treating cases arising from these causes and after exhausting research work and painstaking experiment finally perfected and invented the "Mega-Ear-Drum-Protector," which was recently tested by enlisted men and officers during a recent cannon-firing, where cotton was worn in one ear and Mega-Ear-Drum protector in the other. The result was excellent in all cases and results indicate

telephone communication while in use. The voice is only slightly muffled.

Having observed in last nights Oct. 1st. Evening Ledger, a photo-cut (inclosed) showing fingers inserted in the ears to protect ear drums from gun roar while in company with Major General C.M. Wesson, suggested this communication.

Several pairs of this protector were worn by inlisted men and officers during a recent firing at Fort Monroe Virginia. The reaction was excellent in all cases and reports indicated their great superiority over cotton or any other device. Several men wore cotton in one ear and my protective device in the other. The results were intirely satisfactory and indicated that my device was highly favored.

My device has only recently patented and approval received. Hence I am extending to you with my sincere compliments the protecting device, for your comfort and protection and may its efficiency and usfulness perm eate through proper channells to the entire personnels.

With the kindest regards for your health, success and happiness. I am

Sincere yours,

Edward Baum, M.D.

their great superiority over cotton or any other device.

Will not Irritate from prolonged wear.

The Mega-Ear-Drum-Protector consists of a hollow, hermetically sealed pneumatic body and is inserted into the opening of the ear channel, so shaped to conform with the normal concavity of the human ear.

The outer portion of the Ear-Drum-Protector being closed by diaphragm or closure having an exterior projecting knob or finger piece adapted to be grasped by the thumb and forefinger of the user for facilitating the insertion and withdrawal of the Ear-Drum-Protector from the ear.

The sanitary requirements are met in the novel provision of a series of longitudinally extending grooves or channels for the purpose of preventing compression of air against the Ear Drum during the insertion, ready egress through channels during the insertion and ingress of air during withdrawal of the device.

The thinness of the walls adjust themselves to any size Ear Canal and retains its position in the Ear without accidental displacement or the slightest irritation.

The Mega-Ear-Drum-Protector softens sound waves without interfering with the hearing of Conversations, Commands, Orders or Signals which are slightly muffled.

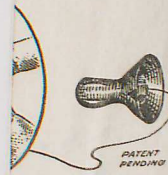

It is made of pure non-sulphurized gum, can be readily inserted and removed. The pneumatic construction enables it to fit perfectly any size ear.

Note the string or cord extending from the Ear-Protector fitting through the

Preserving Container which, when the loop of string is placed around the neck, the protector is removed from the container and placed into the ears, the container is drawn upward under the chin and out of the way. When the protectors are removed from the ears, it is without fear of losing them, and the container further serves as a case, and preserving them for future usage.

The reaction was excellent in all cases and reports indicated their great superiority over cotton or any other device. Several men wore cotton in one ear and my protective device in the other. The results were intirely satisfactory and indicated that my device was highly favored.

My device has only recently patented and approval received. Hence I am extending to you with my sincere compliments the protecting device, for your comfort and protection and may its efficiency and usfulness perm eate through proper channells to the entire personnels.

With the kindest regards for your health, success and happiness. I am

Sincere yours,

Edward Baum, M.D.

Riveters appreciate the safety and comfort that the Mega-Ear-Drum-Protector furnishes them. The continuous penetrating and irritating clatter is prevented from entering their ears and doing damage that so exhausts them at the end of the day. They will not be so irritable or dissatisfied, and can do better work and not get so tired.

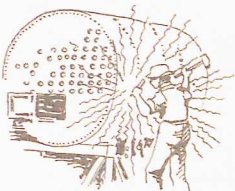

The Mega-Ear-Drum-Protector will

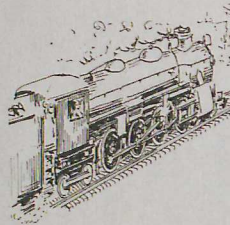

protect your ears from the injurious noise and pounding that the other fellow makes.

Men who are engaged in boiler making will appreciate the value of the Mega-Ear-Drum-Protector in preventing Boiler Makers Deafness, and where the deafness has already de-

veloped, it will prevent the entrance of injurious vibration and further damage to the Ear Drum and arrest its progress. You won't have to take the shop noises home with you. You can recuperate faster.

The Locomotive Engineer will find the Mega-Ear-Drum-Protector will preserve

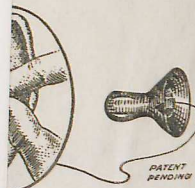

his hearing by preventing the rush and roar of air and other irritating and injurious sounds and foreign matter entering into his ears while speeding along his run when necessity requires exposures from his cabin window.

Turret enclosure during firing of big guns proves disastrous to ear drums, when the Mega-Ear-Drum-Protector is not worn. Protects the nervous system from shock.

and understand ordinary conversation, commands, and telephone communication while in use. The voice is only slightly muffled.

Having observed in last nights Oct. 1st. Evening Ledger, a photo-cut (inclosed) showing fingers inserted in the ears to protect ear drums from gun roar while in company with Major General C.M. Wesson, suggested this communication.

Several pairs of this protector were worn by inlisted men and officers during a recent firing at Fort Monroe Virginia. The reaction was excellent in all cases and reports indicated their great superiority over cotton or any other device. Several men wore cotton in one ear and my protective device in the other. The results were intirely satisfactory and indicated that my device was highly favored.

My device has only recently patented and approval received. Hence I am extending to you with my sincere compliments the protecting device, for your comfort and protection and may its efficiency and usfulness perm eate through proper channells to the entire personnels.

Sincere yours,

Edward Baum, M.D.

Great must be the roar of cannon and shell explosion that the Mega-Ear-Drum-Protector cannot prevent its damaging effects and preserve the hearing.

The monotonous and continuous rifle fire and the irritating clatter of machine guns is muffled into a comfortable tolerance.

The Mega-Ear-Drum-Protector proves itself to aviators, and motor testers,

muffles those irritating, cracking exhausts. Pneumatic cushioned and ventilated makes them comfortable for any length of time of wearing equally so to their passengers. They will prevent the distressing noises and temporary deafness and dizziness following a

cruise, from which famous aviators complained and suffered.

The Mega-Ear-Drum-Protector has been recommended to the Wireless Operator and proves its worth in preventing the irritating sparking from injuring their drums, and will lengthen his standard of efficiency and prevent headache and nerve exhaustion.

Trap Shooters and Game Hunters have been made deaf by the concussion of the shot gun from his neighbor as much as from his own gun. The Mega-Ear-Drum-Protector prevents any and all subsequent disagreeable rumbling, ringing or muffled, stuffy feeling in the ears.

The Mega-Ear-Drum-Protector is a real comfort, protector and preventative.

Pool swimmers, surf bathers and divers will feel secure that no water can enter and so damage the ear drum. Pre-

Having observed in last nights Oct. 1st. Evening Ledger, a photo-cut (inclosed) showing fingers inserted in the ears to protect ear drums from gun roar while in company with Major General C.M. Wesson, suggested this communication.

vents Ear Aches, Abscesses, Ruptured
Drums and Running Ears.

Ladies who go in for distance swimming
contests, high and fancy diving, are
safeguarded against water forcibly
entering the Ear or damaging their ear
drums. A necessary part of their head
dress.

You can battle
with waves
while in surf-
bathing, feel-
ing secure that
no water can
force its way
into the ear
canal or damage to your ear drum.
Float, swim or dive without water get-
ting into your ears, a great comfort and
safeguard.

Life guards have endorsed and praised
them and wear them during their daily
training. Sustains and prolongs their
endurance.

You do not experience the ringing in

the ears or feeling of muffled hearing
after engaging in target, rifle, pistol or
shot gun practice.

Automobilists in testing out their mo-
tors, Motor Testers, Racing Drivers and
Machinists, Taxi Drivers, all will enjoy
the protection and comfort of the
Mega-Ear-Drum-Protector. Keeps out
dust, grit, dirt, draughts of wind and
irritating noises and adds comfort to
their rides.

MEGA-EAR-DRUM
PROTECTOR

PHILADELPHIA, PA. Oct. 2nd/40

Honorable Franklin D. Roosevelt
White House
Washington, D.C.

My Dear Mr. President;

I am taking the liberty of presenting
you with several sets of ear drum protectors.

They are of my own invention after having
devoted considerable time experimenting and testing in perfecting
such a protective device that affords ones comfort with assured
protection for the ear drums from constant irritating, damaging
and destructive missile-like convective forces.

The inclosed booklet will exemplify their
practical uses, being constructed so that the wearer can hear
and understand ordinary conversation, commands, signals and
telephone communication while in use. The voice is only slightly
muffled.

Having observed in last nights Oct. 1st.
Evening Ledger, a photo-cut (inclosed) showing fingers inserted
in the ears, to protect ear drums from gun roar while in company
with Major General C.M. Wesson, suggested this communication.

Several pairs of this protector were worn

Mr. Marvin McIntyre,
Secretary to President Roosevelt
White House
Washington, D. C.

Dear Mr. McIntyre:

At the suggestion of Congressman William T. Schulte of Indiana, I am writing this letter to you, and am sending under separate cover a composition on Lincoln, dedicated to President Roosevelt, which composition is linked with President Roosevelt's activities. I have incorporated a picture of Lincoln's statue in the Washington Memorial in this composition, and have framed it.

If it will not conflict too much with the President's burdensome duties, I would appreciate your presenting it to the President, with my compliments. I have a twofold purpose in this; one, the expression of appreciation, as a voter, of the activities of President Roosevelt for the general welfare. The second is the possibility of its use in the campaign to assist in his election, which I deem vital in this crisis.

It may be of interest to know that I was a life-long Republican until 1936, when I voted for the New Deal. On the President's record I see no reason to change my position, and shall vote for him in the coming election, as well as influencing and keeping in line about twenty more former Republican relatives and friends.

As you will note from this letterhead, I am in the auditing business. I also own an apartment building. I am interested in the general welfare of the country, and that the economic order may be so remodeled and regulated, that my children will have at least as good a chance in the future as I have had in the past.

This composition was begun last March, when I attended the convention of the Committee for the Protection of Foreign Born, as a delegate from the Lake County, Indiana, Civil Liberties Committee. At this time I visited the Lincoln Memorial, and was informed by the taxi driver, who drove me to it, that Washington's Monument completely obliterated the dome of the Capital when viewed from the center of the Lincoln statue. I have incorporated this fact in the composition. I finished the composition and wrote the dedication on draft registration day.

May I express my appreciation of your attention, and my best wishes to you, the President, and Mrs. Roosevelt.

Sincerely yours,

H. E. Biedinger

Mr. President:

We believe that the flag of our great Nation is regarded by the oppressed peoples of the world today as a glorious symbol of liberty, hope and freedom. That is why we have been glad to participate, with other patriotic citizens of our community, in encouraging the respectful display of our National Emblem and in furthering the things that it stands for.

With understandable pride, we are, therefore, happy to send you, with this letter an example of one of the methods that we are using as a reminder of the loyalty that we all owe to our great country.

We hope that you will be pleased with our way of saying "God Bless America."

THE WHITE HOUSE

VMS -

KNOX, Capt. Dudley W. Navy Dept. and Office of Naval Records & Library,
Miss Lo Hand -
Oct. 9, 1940

The President sent a joint memo asking for draft of a reply, letter of Oct. 3 from Chas. Eddy Fay, Woodbury, Conn., to Miss Lo Hand asking if the President has in his collection of marine pictures one of the "Mary Celeste", perhaps the most celebrated "mystery ship" in the annals of the sea. Says he is a retired business man, and for forty years was connected with the Atlantic Mutual Insurance Co., NYC. Says he is now writing a book about this boat. Says he recently obtained a picture of this ship when she was named "the Amason", but should like to have a picture taken later when she was named "Mary Celeste". Capt. Knox supplied tentative draft Oct. 10. -- Oct. 14, the President wrote Mr. Fay that he thinks it would be a public service to publish facts in this case. If he has a picture will be pleased to have Mr. Fay photograph it. Does not recall such a picture but might be at Hyde Park Library and suggests Mr. Fay communicate with them after things have been catalogued. Says he will be delighted to have a copy of his forthcoming book to add to his museum library.

Oct. 12, 1940.

Writes Mrs. Roosevelt saying he is sending for the President an edition of Alexander Pope's "Ilead" printed in 1736. Thinks this would be a good edition for the President's library in Hyde Park.---The President, on Oct. 16th, wrote Colonel Held saying he was delighted to have this copy and that it was a distinct addition to his library collection.

My dear Mrs. Buckingham:

Thank you, in the President's behalf,
for the copy of the book which you sent to him.
I want to assure you that he much appreciates
your friendly thoughtfulness.

Very sincerely yours,

M. A. LeHand
PRIVATE SECRETARY

Mrs. Vera Buckingham,
409 N. Fourth,
Mt. Vernon,
Washington.
