My Dear Mr President Roosevelt,

Knowing that I have no means of seeing you in Person. So that I may express my feeling for all the wonderful things you have done. Please accept this gift as a token of Affection, and for your coming Birthday.

And may you have another hundred years, of Happy and Healthful Birthdays.

If you will turn this sheet over you will find a little Poem; Taken from my own mind, that will give you a good idea of my true feeling.

First of all the Gift I bought.
Because first man of the land its for.
With this gift there is a thought.
That it will wear and wither away.
But the thought of you,
Will Never Decay.

Truly yours
Vincent Costanzo

P.S. I hope that some day I will able to come there to see you in Person.
I have also purchased a ticket for our local Birthday Ball.

ay things smoked

During the past year [illegible] out and, usually, where there is smoke you will find fire. As a rule, smoke has seldom produced anything of value; however, there are exceptions. One exception is the smoked turkey - not aged in the wood, but actually cured in the old time smoke house - delightfully prepared as a rare delicacy. The Hired Hand at Shady Oak Farm, like you, has done a good job this year (even without the aid of Farm Relief).

It is a little rich for a regular meal; however, it makes good "nibbling".

I am sure you had a dandy time on your trip to South America. It was a marvelous, constructive work for world peace as well as American business. I consider you America's greatest salesman and I am glad you are not my competitor in the newspaper business.

The Star-Telegram operated a special train, carrying 200 football fans, our Texas Christian University team and a forty-five piece band, to San Francisco where we played the undefeated and untied team - Santa Clara - last Saturday, before a crowd of 45,000, and came home "with the bacon". T.C.U 9 - Santa Clara 0. So, we are still keeping Fort Worth on top.

Don't forget you promised to pay us another visit and see the longhorn steers at Shady Oak Farm.

May the New Year bring you, Mrs. Roosevelt and all of your family continued good health and happiness, including all the good things you so richly deserve. May you live long and continue your great work in behalf of humanity.

Most sincerely,

My dear Mr. Roosevelt:

This is to acknowledge receipt of your favor of the 24th instant in regard to the pictures sent me, and by me sent to you, from Mr. Criger, of Livingston, Montana.

Indeed I would be most happy, more than I can tell you, if you should write Mr. Criger, of Livingston, as he spent a lot of time and more money than he could afford to upon producing the elephant of which you have pictures. He would prize such a letter very, very highly. If you could have it signed by the President, it would, of course, be something that he would always treasure very deeply, but if not, and should it be signed by you, it will likewise be considered as more than worth the effort.

Thanking you again, I am

Thankyou much - glad we asked 3/3 elt

Honorable Franklin D. Roosevelt
President of the United States
The White House, Washington, D.C.

Thank you, Mr. President.

A sincere "thank you" from four hundred women who stand for things worthwhile.

In June 1933 we wrote you pointing out that the Romance of California was disintegrating and asking Federal help. Many fine old historical structures were crumbling to the ground because neither State nor Federal help could be sought as long as these structures were the property of any church. We suggested that the Purisima structures at Lompoc, Santa Barbara County, where the land had reverted to private ownership, would be a fit example for Federal reconstruction. You acknowledged our request considerately and immediately helped to put into effect the working plans through which a C. C. Camp was established at Lompoc.

Now there is a splendid story to tell. We wish the whole country could visualize what these young men, under capable direction, have accomplished. The finest example of historical reconstruction in the entire state with the main building almost completed! We understand that the Church is now willing to release other structures to be historically perpetuated, through Federal aid, under direction of the State Park Commission.

Will Mrs. Roosevelt and yourself be pleased to accept the volume dealing with the California Mission structures also showing the work in progress at Purisima? We thank you for that which has already been so intelligently accomplished. May we earnestly request your good offices to the effect that similar work be started at other sites as soon as possible.

Dear Mr. President:

During the time I served as Assistant Counsel of The Farm Credit Administration, 1934-36, I was frequently called upon to prepare answers to letters which had been sent to you by other parties. Unless this letter may have the honor of your personal consideration I ask that it be returned to me unanswered.

127-misc
x #1-Jud.
Reorg-x43

I was forced to resign from the Farm Credit Administration in order to publish a book I had written, "The New Deal on Cartwheels". This book was published by Banks Upshaw and Company of Dallas, Texas and a copy is available in the Library of Congress. Although it is a defense of the American form of Constitutional Democracy, I found, after signing the publication contract, that such publication was a violation of certain bureaucratic regulations of the Farm Credit Administration. For that reason, I resigned rather than cause a "scandal".

This letter is to suggest that if you will take one of your valuable evenings to read this book (I think a complimentary copy was furnished you) you will find that all your New Deal aims may be accomplished without tampering with either the Supreme Court or the Constitution. However, it will be necessary that you read the book with an unbiased mind and that you read it ALL.

You have listened to law professors and economists who had little practical training, on many occassions. Won't you give one evening to the ideas of a fairly well educated and moderately experienced "country lawyer" ? One who thought enough of his country to give up a comfortable salary for those ideas, and who now is forced to do his own typing in a country law office ?

I was an "original" Roosevelt Democrat. I stayed with you in the last election. But, my dear Mr. President, I hate to contemplate what history may do to you if you are not very careful in this crisis. I speak as a friend, but not a hypocritical one,- please read "The New Deal on Cartwheels".

Respectfully,

James O. Cade

My dear Mr.McIntyre:-

That was mighty nice of you to write me in response to my letter to your worthy chief.I did not expect it,and may I assure you it is appreciated.You know,believing as I do in the President's sincerity,and his evident determination to do the square thing by 'the man on the street,'I get pretty well stirred up over the blind opposition and prejudiced utterances of those who have done nothing in the past,and would NOW save the constitution as if it were in danger!How about the people?Why not save them?

If it is not too much trouble,won't you be good enough to see if Mr.Roosevelt has a copy of my latest book,"Our Friends the Trees?"Not because I'm the author,but because of its vital message,I believe he should have a copy.and if he hasn't one,I'm going to see that he gets one.

Again expressing my appreciation for your courteous office in this correspondence,and with every good wish for your continued success,I am,

Sincerely yours,

## A rare book — a great book — the perfect gift — a personal necessity

● In a book that is both literary and scientific, the author of OUR FRIENDS THE TREES has written a permanent and enduring work on trees that comes at a peculiarly opportune time. Here is a book that is an inescapable challenge to all Americans!

● **OUR FRIENDS THE TREES** is a most alluring and satisfying book, written for the lay reader, fascinating in its style and subject matter, which might well be used as a popular reader for all who own trees, all to whom trees are of concern—a vital book for homeowners, nurserymen, landscape artists, libraries and schools.

● Not only the romance and beauty and fascination in the story of trees are outlined, but also a multitude of practical details and important information about planting, transplanting, the care and culture of trees, their conservation, their needs as to soil, air and water, their friends the birds, their various enemies, erosion control, reforestation, caring for hedges and shrubbery, how to make terraces.

● **OUR FRIENDS THE TREES** by Dr. P. G. Cross is the product of six years work, but the knowledge it imparts has been collected through a lifetime of absorption in the subject and of practical experience in this field.

## Praised by Experts and Critics Throughout the Nation

"'Our Friends the Trees' is a book that will make you talk about trees and make you want to plant them. Not only does it treat of trees in relation to human life, but their relation to business, to roads, to drought, to erosion, to the water supply, to the wild life of the forest. Filled with interesting pictures instead of tiresome graphs."—*Russell T. Edwards, Editor of Forestry News Digest.*

"A grand book. It combines scientific accuracy, literary charm and persuasive delight. Alluring pictures and enticing text captivate the attention."—*Florida Sunday Times-Union.*

"You cannot help being instructed and highly entertained by Dr. Cross's volume . . . a wealth of information. We know of no book quite so complete."—*Los Angeles Times.*

"Takes up exactly the practical points one desires to know. Rarely has a subject been treated in a more comprehensive and interesting manner, scientific data combined with factual information for the gardener's daily round."—*Bulletin, Garden Club of America.*

"Well illustrated, written by one who loves trees, understands trees, likes to plant trees—it is calculated to make a disciple of every reader. It will appeal most, perhaps, to the home-builder in suburban or semi-rural areas, but the information it contains will also be found useful by many others."—*Science News Letter.*

"Perhaps the best informed and most enjoyable tree volume that we have. Certainly it is the most human . . . deals with every phase of the science and art of tree culture."—*Louisville Courier-Journal.*

"A book for gardeners and the makers of lawns and parks, hedges and road shadings. The style is informal, but the facts are there and a great deal of agreeable comment."—*Saturday Review of Literature.*

"Interesting to both the casual reader and those seeking specific information on planting and care of trees. Contains many photographs and charts and gives exact data on transplanting, pruning, and other technical matters besides considering trees in relation to the home and land."—*St. Paul Daily News.*

"A great satisfaction to those who already know trees as man's best friend. For those who have remained strangers to trees, Doctor Cross has provided the ideal introduction."—*"Ding" (Jay N. Darling, famous cartoonist).*

"He has brought to his work a scholarly fund of botanical and historical knowledge combined with a wealth of practical suggestions. A blend of charm and scientific accuracy is rare, and the result is a really superb 'tree book.'"—*Cincinnati-Times-Star.*

Dear Mr. Caldwell:

The President has asked me to be sure and drop you a line of thanks for your cordial note of March fifth. He sincerely appreciates your thoughtfulness in wishing to present him with the wood carving which you made.

I am sorry that we cannot arrange for you to present this to the President in person while he is at Warm Springs. It has been the custom since the beginning of the President's first administration for me to receive on his behalf all gifts. Therefore, if you wish to arrange to come over to Warm Springs and leave the wood carving with me while we are there, I will be delighted to receive it and will pass it along to the President. Our office quarters will be in Kress Hall, and I expect we will be there from the thirteenth to the twentieth.

With all good wishes,

Sincerely yours,

Dear Mr. President:

I have a wood carving of you which I carved with a small knife, now I would like to ask the favor of presenting this to you in person while you are at Warm Springs, it would require only about five minutes of your time.

I am an old resident of Meriweather, having lived there for a number of years, at present I am living at Covington and have a little business at Porterdale.

I would like to say I had the pleasure of hearing your speech which you delivered at the Victory Dinner, it was great and we are with you in your fight, we see that something must be done and you are the man to do it and we are with you.

I hope that the favor which I ask will meet with your approval and I may have the pleasure of seeing you at Warm Springs.

Croft Hotel, Tacoma, Washington. March 9th, 1937.

Hon. Franklin D. Roosevelt,
President of the United States of America,
Washington, D.C.

Dear President Roosevelt:-

The ultra strenuous duties connected with the high office of President, requires that you at all times must have a keen and active mind. Fish meat has long been considered by the critics ideal for brain food, so to-day have taken the liberty of sending you by American Express one hen TSCHAWYTSCHA, this fish is of the genus ONCORHYNCHUS, and was caught in Puget Sound early this morning. These salmon are know as King, Tyee, Chinook, Spring, Quinnat and Columbia River Salmon, and in the parlance of the Siwash Indians are Delate Kloos Muckamuck, especially the Belly part, the back can be served to those below the salt, or to some members of the Supreme Court. The true nipple pink shade of the flesh seems to be just what the old gray cells of the human mind crave in order to put the brain in the proverbial "PINK OF CONDITION". Have also sent the Hon. JOHN M. Coffee Representative from this District a salmon, he has never been accused of following the line of least resistance, his duties in Washington City, coupled with the hounding of job hunters at home, feel that a good feed of salmon belly will tend to sooth his tired nerves.

A story is told relative to these fish that has historic interest, when we were in a jangle with England over the Oregon Boundary, Queen Victoria sent Donald MacTavish her trusted diplomat to see Oregon with his own eyes and judge of its value. While at Fort Vancouver the salmon were jumping by the millions, so Donald jointed his rods and with Flys whipped the old Columbia systematically for several hours, and as these fish do not raise to a fly, quit in disgust folded his tent and hied himself back to #10 DOWNING STREET, and reported that Oregon Territory was fit only for Indians.

Your radio address last Thursday eve was most fitting and was well received at the banqute and elsewhere, and we are looking forward with pleasure to your fireside talk tonight. Hardly a month passes by what I am a witness for some petitioner for citizenship, and to me this cog in the fundemental wheel of our National Goverment has the true ring of Americanism. The diaologue between the witness petitioner and the examiner is in part as follows:-to wit,

Examiner. "Who rules in this country"
Petitioner. "The people"
Examiner. "How do they rule"
Petitioner. "By their representatives in Congress".

But by some of the decisions recently handed down by the Supreme Court, and after the peoples representatives had made the laws and you had signed them in due and ancient form, these delux deciples of Blackstone have caused the peoples essential edicts to be dropped like dung from a tall steer, and it would seem that the petitioner in his answer should say that the Supreme Court ruled in this country. Years ago at the old court house here was a statue of the Goddess of Justice, with the balance scales inher left hand the double edged dagger in her right, and the latin inscription underneath, "Fiat Justiana Ruat Corelum", It is said that a briefless barrister came over from Seattle one day and he translated this four word sermon to read, "If justice is done the heavens will fall. And by the way The High Tribunal has raped the Goddess of Justice of late, it would seem that they must after the same idea as the solicitor from Elliott Bay. This puts the forgotten man and most of the rest of us about in the same boat as the old senator was from Arkansas years ago, when he arose in his seat and said, "Mr. Speaker I arise to know where we are at". You are our Political Moses and know that you will lead us out of this Judicial Jungle, in a way that their will be no doubts as to our whereabouts. RECEIVED

Honorable Franklin D. Roosevelt
President of the United States
White House
Washington, D. C.

My dear Mr. President:

One of the most colorful citizens of my state of Washington, Honorable Lee Croft, proprietor of the Croft Hotel, Tacoma, an Alaskan sourdough, and former heavyweight boxing champion of the Pacific Coast, known affectionately to thousands of the sporting world, is sending you a large salmon, a luscious fish indigenous to our section of the country. I trust you will write Lee a personal letter of appreciation and sign your personal signature thereto, as he was one of the strongest boosters you had in our state in the last and previous elections. Lee would treasure your letter, give it wide-spread publicity and would be even more enthusiastic in his espousal of your causes hereafter. Furthermore, I am confident that when you eat this fish you will be more than pleased. There is no sportier fish to catch from the troll line, no more beautiful fish to watch disporting playfully in the salt water, and no more luscious fish to devour in the entire piscatorial world.

Very cordially,

While at Warm Springs, the President asked me to be sure and drop you a little line of thanks for that shipment of splendid grapefruit from your trees at Deep Lake Grove. I am sorry I have been so long in writing you but things just sort of piled up during our last few days there and I got very much behind in all of my correspondence.
