Dear Mr President:

PJT

May I have the honor of
Presenting you this Hand made
Paper "R" Wright, which I made by
hand from a Fine Post, Baidar. wood
that seen 45 years service on the H.T.C.P.R.
Right of way near Reagan Texas (Falls Co) 9 miles
South of Martinsburg, the home of Senator
Tom Connally, who I have been waiting for
for the past 40 years.

I hope this "R" will serve you as long
as it served the R.R. Co.

Sincerely yours

W.H. Earl

P.S. Please note the Brown side is
the Detraction of 45 years service.

Mr. F. D. Roosevelt
White House, Wash. D.C.

Albany, Calif. 12-18-41
924 Carmel Ave.

Dear Mr President:

Am sending you two "Americans" who have lived on the Pacific Coast for more than 3000 years, and are still going strong.

May the thoughts, you have of these, and the time taken, to look them over, give you a little change and rest, from the unusual, abnormal conditions confronting all of us.

These two, giants of the forest, have withstood, ravages of time, lightning, forest fires and drought, and show many scars, many of which are mostly healed over, and absorbed, causing us to wonder how many may be hidden from view, but, standing before them, we find we can only gaze and wonder at their enormous size and strength, and always going forward.

They symbolize the many other "Americans" on the Pacific Coast, strong and determined to carry on, come what may, until clearing skies and sunshine are with us again.

Have no fears for the West Coast.

Dear Mr. Roosevelt,

I'm ten years old. My name is
Walter L. Elden. I'm in the forth grade.
I live in Greater Miami. A place
called Pinewood. I attend Pinewood
Park School. We have one day
each week set aside for the pupils
to buy Defense Stamps. I heard
over the radio that you was having
a Birthday this month. So I wanted
to do something more the to buy Stamps.
I'm such a good man as you. Tracing
pictures on wood is my hobby. I've
made some pictures of you and Churchill
~~I brought them to school. I've~~
some in my house. So I thought
you would like these pictures for
your Birthday present. I made one
of Governor L. Holland and sent
it to him. I received a letter
from him and brought it to
school, and Miss Bradley read it
to the class at lunch. I said I
was going to send one to you, they
laughed at me. I told them you
was just like any other man,
nice and kind to other little boys.
And you would like my pictures.

very very soon. Behind
my prayers and senti-

and have unison as
the flowers stand out on
the table cloth. I am
afflicted with arthritis
and I am constantly in
pain and it was an
effort, I admit but it
was worth it to show
my appreciation to such
a great man. Of course
being an invalid, there
really isn't very much I
can do for my country."

Hon. Stephen D. Earley,
Secretary to the President,
Washington, D. C.

Dear Mr. Earley:

I have a hobby of making letter openers from
the rare and beautiful hardwoods from the Florida Keys and I have
✓ one special one that I would like to present to the President
as a small token of my high esteem for him as our chief executive.

If this will be acceptable and if you will hand it to him
for me, please advise me and I will mail it at once, I will also send
one for you.

Yours very truly,

My dear Mr. Egar:

It was kind of you to send the President the eggs which arrived last Friday. The case in which they were received is being returned to you under separate cover.

Your thought of the President is, of course, very much appreciated. I do feel, however, that you will want to know that our customary source is now supplying an adequate quantity for the President's table and to receive more would only result in there being an over-supply of a very perishable product. I know you will understand.

Thank you, too, in the President's behalf for your kind message of Easter greetings. He is grateful for them.

Very sincerely yours,

GRACE G. TULLY

Thanks very much
for that very nice letter it
made me very happy
soon as I get my own egg box
I'll send you some real fresh
eggs I have some beauty hens
they are so tame they eat out
of my hand and I have to go
very slow amongst them or I
will step on them folks come
from all over to see me handle
them it's killing what you can
do even with chickens secret of
chickens early feeding day light
warm place plenty real fresh water
and feed to keep them and feed on
top of that for eggs then you can
go home they are poor stock for

Dear Mr. Exum:

I have been glad to present to the President the letter opener you made of Crabwood. The President is indeed delighted to have it and was most interested to learn that the letter opener was made from one of the few hardwood trees found in the Florida Keys. He has asked me to express to you his sincere appreciation.

I wish, also, to thank you for your kindness in sending me the letter opener made of Golden Ironwood. It is a lovely piece of wood — and a fine piece of workmanship.

Very sincerely yours,

Dear Mr. Early:

Under separate cover I am mailing today the two letter openers. I take pleasure in sending these as tokens of my high esteem for our President and yourself. The one I made for the President is of Crabwood and the one for yourself is of Golden Ironwood. These are made from trees that were blown down by hurricanes a great many years ago. There are about ten such beautiful hardwoods to be found in the Florida Keys.

Yours very truly,

F. E. Exum

Two letters to Secretary Early (other one dated 4/19/42) saying he was sending the President a gift which describes as follows: "a pyrographic etching of President Roosevelt * * * mounted upon it two of my patented 'Coin-A-Day Victory Chests'". The plaque is rather large. Also asks if the President would like an etched piece in the form of a large desk pad bearing upon it the map such as is in the Oval Room - a flattened globe, etc. He is an over sea navy man from the last war and hopes he will be able to do worthwhile service following release; says "for is not even 'junk' being utilized".

Referred by memo dated 5/19/42 to the Attorney General requesting him to make appropriate acknowledgment for the attached gift and return gift to this office.

Letter to Mr. Early, saying they have been in the picture publishing business for almost fifty years, selling their product to getter-grade stores. Most of their reproductions are made in the famous gravure process. They have had a persistent demand for a good picture of the President, so they are contemplating bringing out a picture in a size to match the two prints which they enclose, and also one in a larger size. Asks for a photo of the President that they could use as a negative, and says he leaves it to his judgement as to a pose that would appeal to the public.

Another letter to Mr. Early dated 5-8-42, thanking him for his letter of 4-10, and saying they procured a suitable photo of the President from the International News Service, together with another good likeness of Genl. McArthur. When finished they will be pleased to send copies of each. Under separate cover they are sending a picture of a soldier, which they thought President would like to see. This is a reproduction of a picture painted by the Artist, Mr. C. Bosseron/^{Chambers} Also sent a similar picture to Mr. Early. (Picture in print case.)

President
F. D. Roosevelt
Washington D. C.
Dear President:

I have been wanting to write to you for some time, but have hesitated doing so until now. I know you are a very busy President, knowing that you have the most difficult task on your hands of any President who has ever been in office. But you are handling the job in a most perfect manner and I take off my hat to you and all there at Washington. We all make mistakes and mistakes cannot be avoided. More power and good luck to you.

I am sending two pen and ink drawings and expressing my sentiments therein. It may that they can be used in some newspaper, if they are suitable. I am very poor in the cartoon line but I can do very good work in pen and ink designing and also light scale drawings for almost anything. I withhold from bragging, but one of the best artists and decorator here told me that I had all beat for pen and ink drawings. If these cartoons can be of any value to you go and use them.

I am working here at the Santa Fe as baggageman, but my ambition has always been woodwork. I have done cabinet work for the last twenty five or thirty years, I have done a great deal of model work too, the largest percent being accepted by such magazines as Popular Science and Popular Homecraft. I have also had about thirty years of orchestra work and some band work. So you see I have more than one hobby. I have built all my wood working power tools, shaper, saw, lathe and jig saw, all ball bearing type. These tools are not built in a clumsy or careless manner, but resemble the factory make in appearance and performance.

I registered the last time for occupational service and expect to be called as soon as I receive and fill out the card.

I think I have said enough and will close, wishing you and all Gods speed in VICTORY.

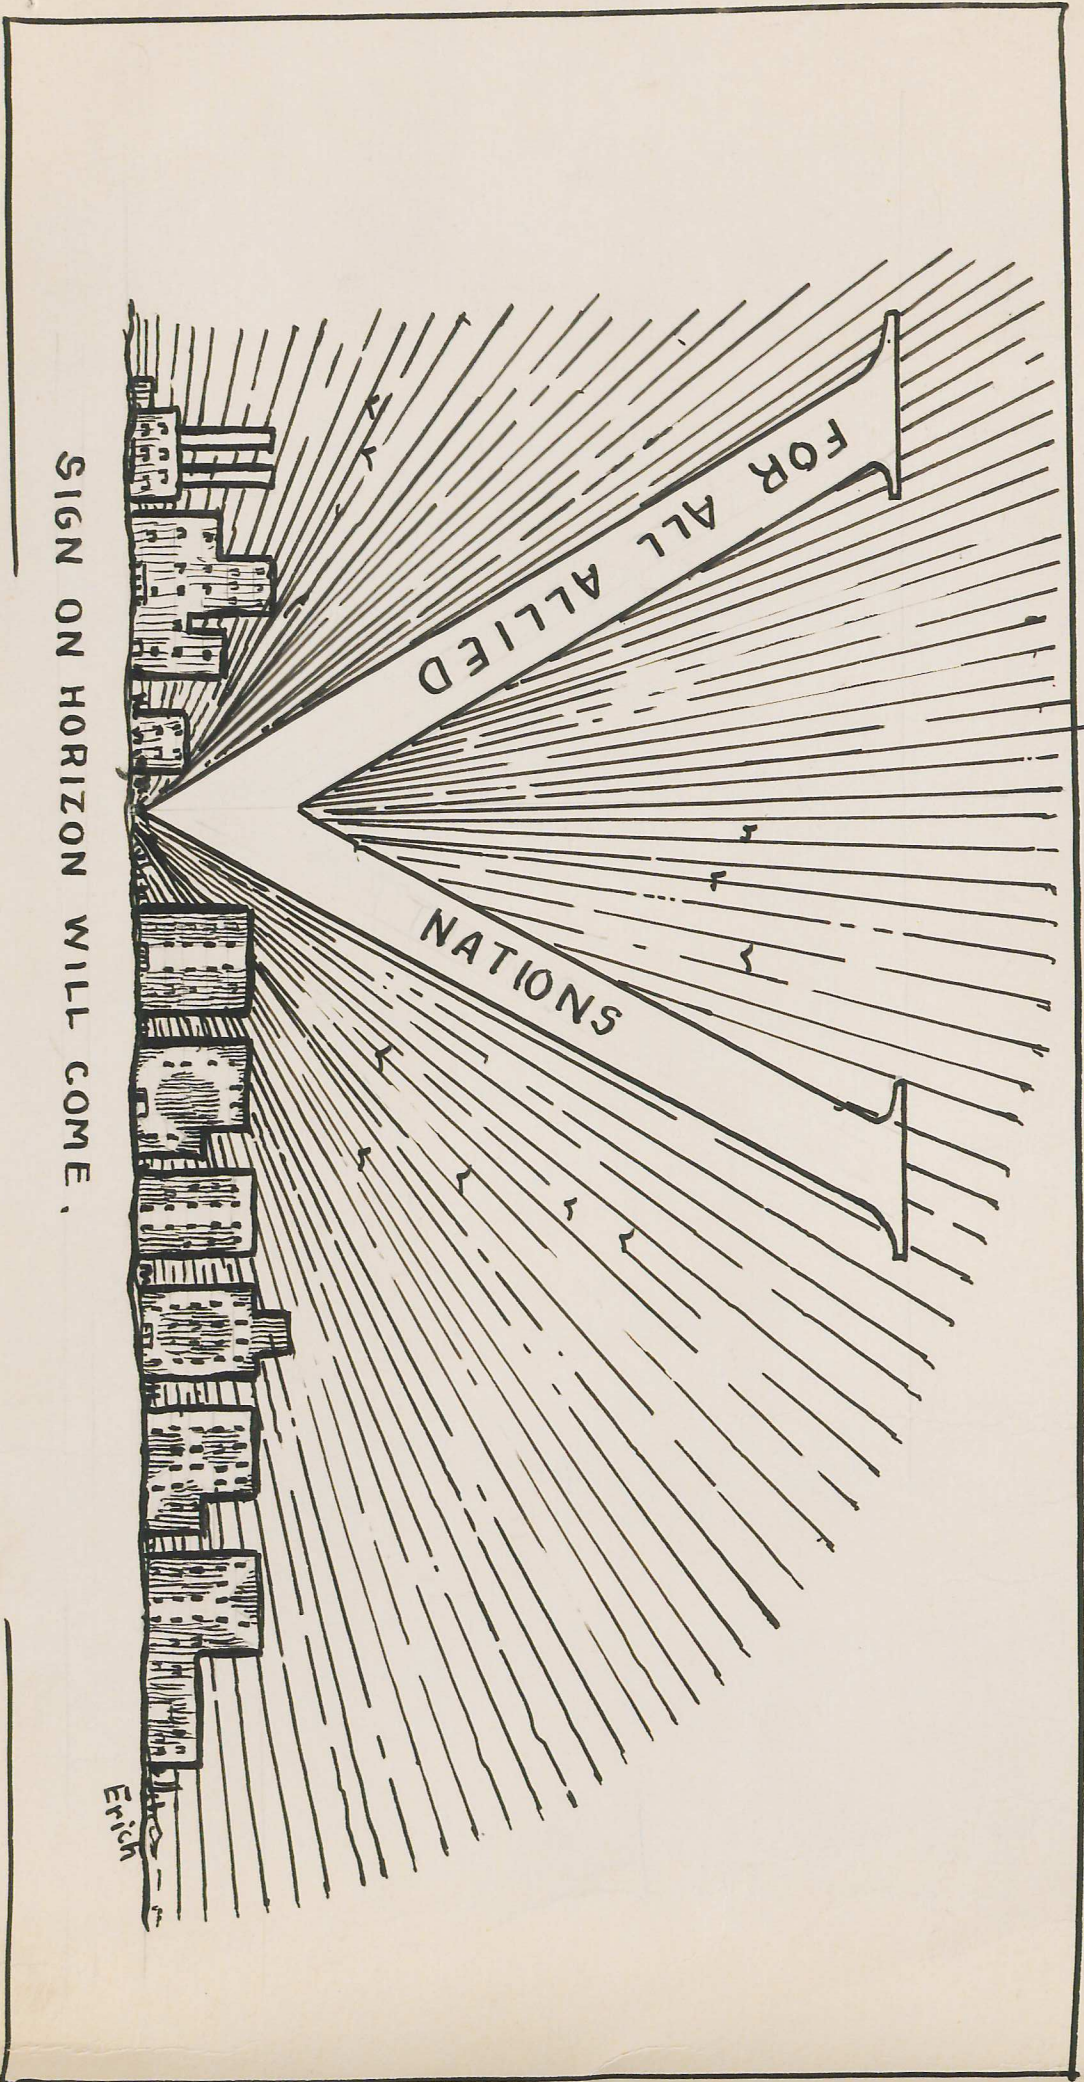

Sincerely Yours

Carl G Erich
