My dear Miss Treat:

Your letter of December twenty-eighth has been received by the President. He is much pleased to have that fine gift and asks me to convey to you and to your associates, his sincere appreciation of your kind thought of him. He sends his very best New Year's wishes to everyone concerned.

I need hardly say that this gift can only be accepted with the understanding that there be no publicity in connection with its presentation.

Very sincerely yours,

M. A. LeHand

December 28, 1935

President Franklin D. Roosevelt
The White House

Sir:

In behalf of my company -- Incandescent Lamp
Department of General Electric Company at Nela Park,
Cleveland, Ohio -- it is my very great pleasure to
leave with you, with our best wishes of the season,
this most recent contribution of science to the eyes
of our nation -- the new G. E. Light Meter.

May it help in the protection of your eyesight.

Yours respectfully,

Jeannette Treat

My dear Mr. Abbot:

While I was in the San Blas Indian country on the North Coast of Panama, East of the Canal, in October, I was given by the Indians these arrows and these two garments worn by the Indian women.

I do not know whether the Smithsonian has similar samples of arrows and dress of the present day period of these Indians and if the Institution would care to have them, I am very glad to present them, with my compliments.

Very sincerely yours,

Hon. Franklin D. Roosevelt,
President of the United States,
Washington, D. C.

Dear Mr. President:

Knowing of your keen interest in the sea, I am enclosing a reprint which I had made of the Royal Naval Biography of Peter Heywood, by Lieut. John Marshall. Peter Heywood was a midshipman on H. M. S. Bounty and witnessed the Mutiny and lived through the rather terrible aftermath.

This little book contains the actual facts surrounding the famous Mutiny, as witnessed by an actual survivor. I had a limited edition printed for the amusement of friends who either as yachtsmen, or in some other form, have a deep and abiding interest in the sea.

If you have an opportunity to glance through the book I am sure it will be of interest to you.

Very respectfully yours,

George R. Gorman

BEN WYLE

66 COURT STREET

BROOKLYN, N. Y.

January 22nd, 1936.

Hon. Franklin D. Roosevelt,
The President of the United States,
Washington, D. C.

Dear President Roosevelt:

The story carried in the press today concerning your interview on the subject of the reversal of the Supreme Court through the AAA cases of its previous rulings, leads me to hope that you will be interested in the book "Lawless Judges," recently issued, written by Eleanore Levenson and myself, with an introduction by Prof. Morris R. Cohen. I am taking the liberty of sending you a copy under separate cover.

The book develops the idea that the judiciary has taken to itself far greater power than was intended to be given to a co-ordinate department of the government.

The AAA tax order illustrates one of the abuses of power the courts have been guilty of - that of repealing laws and enacting new laws by changing decisions, a function which was given exclusively by the Constitution to the legislature and the president.

As an indication of public interest in the abuse of power by the judiciary, it is significant that practically without exception the metropolitan newspapers have extensively and favorably reviewed "Lawless Judges." Also, it has received much attention at the hands of reviewers in almost every important centre of the country. In our own city, favorable reviews were carried in The New York Times, The New York Post, World-Telegram, and the Brooklyn daily newspapers. Reviews of the book have been syndicated throughout the country through various news services.

As was pointed out by quite a number of reviewers, "Lawless Judges" is especially significant in view of the current decisions of the Federal courts dealing with so-called New Deal legislation.

MRS. WALTER BURLEY GRIFFIN.

#2. Hon. Franklin D. Roosevelt.

Permit me to say that it is my belief, knowing your public career as I do and appreciating the peculiar situation with respect to the courts in which the country now finds itself, that you will find "Lawless Judges" particularly interesting.

I do hope you may have the opportunity to read it.

With best wishes, believe me

Sincerely and respectfully yours,

For Bradley

MRS. WALTER BURLEY GRIFFIN.

January 27. 1936.

Thank
Honored Sir:

I consider it a great honor and high privilege to send you - herewith a water color done by me in celebration of your birthday.

it is an humble effort by a young artist citizen of India in appreciation of the nobility of your character and humanness of your administration, and generous understanding of world problems. may you live long. and may you give me the joy of your kind - acceptance of this little heartfelt gift.

Respectfully,

Amar K Ghose.

BILMANIS, Hon. Alfred,
Washington, D. C.
February 3, 1936

On above date the President wrote to Minister Bilmanis thanking him for the delicious wine, the decanter and the glass which he brought to him. The President states he was much interested in seeing the story of Latvia, and thinks it well done.

Attached is copy of letter written by Miss Leland to Minister Bilmanis, (which she states should have been sent soon, but for the fact that the young lady to whom she dictated it has been ill, and the letter just came back to her desk)- dated February 13, 1936 - in which Miss Leland thanks him for the unusual string of amber which he sent her.

Honorable Franklin Delano Roosevelt,
President of the United States,
Washington, D.C.

My dear Mr. President:-

By clever scheming and propaganda, many of our fine young people have been led to ally themselves with organizations which, in spite of their high-sounding names and uttering worthy principles, are nothing more than tools in the hands of agitators of Communism. There can never be an alliance, or even a compromise, between Christ and Lenin.

God bless you. The Declaration of Independence and the Constitution is safe in your hands. I'm wondering after the speech of the Hon. Alfred E. Smith - whether he ever read these cherished declarations. A man is as strong as his hidden strongest motives - and we know the motives of those who are trying to undermine you - at least we New Yorkers know the real Alfred E. Smith - now.

7-8

This letter is written for two reasons: One - I have just returned from a trip thru the manufacturing centers of New York, New Jersey, Pennsylvania and Ohio. I have distributed many thousands of Gospel Pencils to the workers in the mill and factories - to the unsaved, unemployed and people in every walk of life. I noted a strong trend towards communism and atheism among American born men and women. I also noted that the majority of humble men and women are looking to you for the honest representation of their ideals. My own humble opinion and I'm not an economist, a politician or in no way associated with social science - that YOU Mr. President have done more than anyone in the world to stave off communism here. Reason two:- I have distributed these simple Gospel Pencils FREE without obligation. There must be no mystery about this free distribution - the money for these Gospel Pencils came from the pencils I sell to churches and religious supply dealers. I accept no donations or contributions and have thus far distributed over 400,000 Gospel Pencils free.

Something most be done in a tactful, dignified and effective way to maintain the Declaration of Independence and the Constitution. I believe that much can be accomplished by tactfully delivering those vital "Ten Commandments" to the people - these are the fundamental laws for human conduct. I will gladly render my services to a group assigned for this purpose - in this election year and at the same time work for the principles you sponser and for you Our President.

Faithfully in Christian Service,

Louis Gould

After Completing High School two years ago I found it very difficult to secure any sort of steady or temporary employment so to occupy my many idle moments I began to construct from old wooden boxes, crates and cardboard, to the best of my ability a replica of the beautiful Capitol of our Country at Washington D.C.

Therefore my dear President I am taking the liberty of sending it to you by mail, as a token of starting your presidential Campaign this year with success and four more years as the president of our Country.

Hoping you will enjoy this piece of work of mine as much as I enjoyed making it for you.

3/4/36*
I am sending you an inlaid picture
of yourself.

It is inlaid from different kinds of wood that
I gathered from the woods near my home.
All the work on the picture was done by hand.
It took nearly 4 weeks actual time to complete it.
A full description of it will be found on the back
of the picture.

I intended to send it sooner but have had it on
exhibition in different places.

I know that you are a very busy man and
don't have much time to look at gifts. But I
would like you to see this picture. I hope you
like it.

I am a bricklayer by trade. I work in wood in
my spare time as a hobby. I can make all kinds
of pictures, scenes or portraits from life or copied
from others. I also make jewel boxes, chests
and novelties.

To clean the picture use oil and pumice stone.

I close wishing you success and happiness.

your friend,
Edgar Geesey.

PHILADELPHIA, PA.

March 14, 1936

Hon. Franklin D. Roosevelt, President U.S.A.
White House
Washington, D. C.

Dear Mr. President:

Under separate cover I am sending you a model of a device for use of children afflicted with infantile paralysis, to enable them to exercise. My daughter was afflicted with this disease 28 years ago and at that time I built a device of this kind for her to use. It improved her so much that I thought it might be of help to other sufferers. The device, however, is not limited to the use of children. It can be used by adults just as well.

Of course I have made improvements on this device that were not on the original one my daughter used. This one has a crank over the motor to adjust the distance between the person seated on the chair and the handle crank (this is to accommodate different arm lengths) The crank under the seat is to adjust the different leg lengths required. The lever above the crank handle is to throw the seat back so the patient can get on the chair with a minimum of effort. The handle cranks and the pedals are adjustable to the individual requirements of the afflicted parts. It is operated by an electric motor which is adjustable from any speed from 8 steps a minute to 32 steps a minute.

Where the foot is affected and could not be held on to the pedal you will find that I have provided a means of fastening it on. In case of the hand being unable to grasp the bar, you will find I have provided a means of strapping it on. In my daughter's case she could not use her hands or feet.

This is a device to enable patients to exercise painlessly and without the use of their own strength.

This is a crude model made by hand but it will give you an idea of what I am working on. I am very much interested in this work and anything that I can possibly do to help you in the great work you are doing for sufferers from infantile paralysis, I will gladly do. I have spent considerable time in building this device and would not want to have it thrown away but if it can be of use to you or if you want to keep it, you are welcome to it. Otherwise I would appreciate having it returned to me.

Respectfully yours,

H. F. Good

privilege of writing to you direct with the request that you very kindly, not as The PRESIDENT of the UNITED STATES of AMERICA but as one fisherman to another relieve my desire to know if you ever got this Reel at all or if you did get it, was it as from the maker CLARENCE GAYLE or from Governor RUBY LAFOON.

Yours faithfully,

Mrs. Walter Burley Griffin

MRS. WALTER BURLEY GRIFFIN.

FRANKFORT KENTUCKY MARCH SEVENTH 1936

CLARENCE GAYLE,
FISHERMAN

and maker of fine HAND MADE Fishing Reels
to

HON. FRANKLIN D. ROOSEVELT, FISHERMAN, STATESMAN, PATRIOT and OUR
PRESIDENT, greetings.

Dear Mr. ROOSEVELT : -

You have doubtless during your lifetime of service for the people done
some one thing that you regard as the best in it's line whether a speech,
made, an article written or a public service accomplished and this one
best thing that you have done you have wanted just the person or the
people who would best appreciate your work to be the ones to know and
enjoy it.

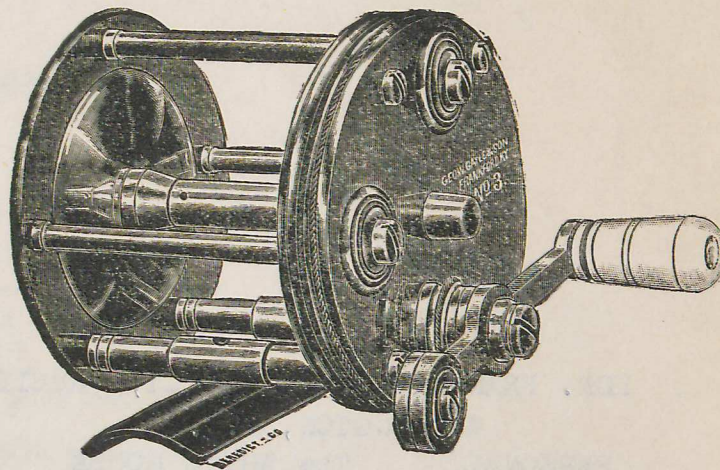

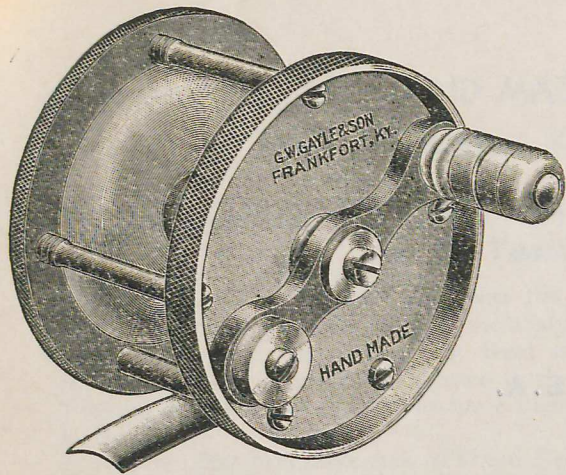

Some time before your visit to KENTUCKY to dedicate the Monument to our
Pioneers I finished the making of a Number 3 size HAND MADE Bass Reel
that was the best REEL that I had ever made. It was too good a Reel to
sell so I kept it in the safe at the shop and my friends and myself would
enjoy looking at and spinning it. You know how a fisherman does. While
a life long Republican, I am also one of your strong admirers and when I
read of your coming to our State I said to my Wife who is an unreconstruc-
ted Rebel Democrat " I am going to give my perfect Reel to our PRESIDENT
for I know that he will as a fisherman enjoy and appreciate the beauty of
it and then too I would like for him to feel that he can pass thru KENTUCKY
and meet some one who is not wanting or expecting anything at all from
him but who would like to contribute towards his pleasure and recreation
for he in his position surely needs all of the latter that he can get."

When you came to HARRODSBURG I was not feeling able to make the trip to
see and hear you so I went up to our State Capitol Building and requested
Govenor LAFOON to kindly deliver this Reel to you when he met you in
HARRODSBURG and convey it to you as a present from it's maker together
with his very best regards for you as a Fisherman and his strongest loyal-
ty for you as his PRESIDENT. I have never been able to meet Mr. LAFOON
since, nor have I had any report from him as to whether he delivered this
Reel to you as a present from the maker, or whether it was given to you as
from Govenor LAFOON or if it was given to you at all so I am assuming the
privilege of writing to you direct with the request that you very kindly,
not as The PRESIDENT of the UNITED STATES of AMERICA but as one fisherman
to another relieve my desire to know if you ever got this Reel at all or
if you did get it, was it as from the maker CLARENCE GAYLE or from Govenor
RUBY LAFOON.

Yours faithfully,

Mrs. Walter Burley Griffin

MRS. WALTER BURLEY GRIFFIN.

Assuring you that there was no thought then or now of in any way trying to or wanting to in any way commercialize this gift to you and of my kindest regards to you as a fellow fisherman and very staunchest Loyalty to you as my PRESIDENT, I remain,

Most Respectfully,

CLARENCE GAYLE

Clarence Gayle

Yours faithfully,

Mrs. Walter Burley Griffin

MRS. WALTER BURLEY GRIFFIN.

HON. FRANKLIN D. ROOSEVELT, PRESIDENT U.S.A.

Concerning "GAYLE" HAND MADE FISHING REELS

Made In Frankfort, Kentucky

by
GEORGE WILLIAM GAYLE & SON
for 53 Years

FRANKFORT, KENTUCKY, was the birthplace more than 100 years ago of the free casting, multiplying fishing Reel and since the time in 1830 when the first Reel was made in Frankfort all through the intervening years down to the present day, the FINEST Fishing Reels in all the world have been and are being made here in this City.

It may be that you have one of these Reels made here, made either by MEEK, the MILAMS or "GAYLE." If so, be content with its possession for you have the BEST there is.

We know how to make GOOD Reels here in the "GAYLE" shop where we have been working for more than half a century. Geo. W. Gayle, when a very young man, worked in the shop of J. F. & B. F. MEEK where another young man some few years older was also employed in making reels. This other young man, B. C. MILAM, was later taken into partnership with the MEEKS and to him is due largely the prestige built up by FRANKFORT Reels the middle and latter part of the last century. Geo. W. Gayle stayed with the MEEKS only a short while, going into the watch making and jewelry business until 1882 at

which time he started the making of all HAND MADE Reels, having with him his son CLARENCE GAYLE, then just 16 years old, whose present likeness is given herewith, not through any personal vanity, but that you may see and know the present appearance of one of the old time craftsmen who is also both a mechanical engineer and a good FISHERMAN, so is as a matter of course a GOOD Reel maker.

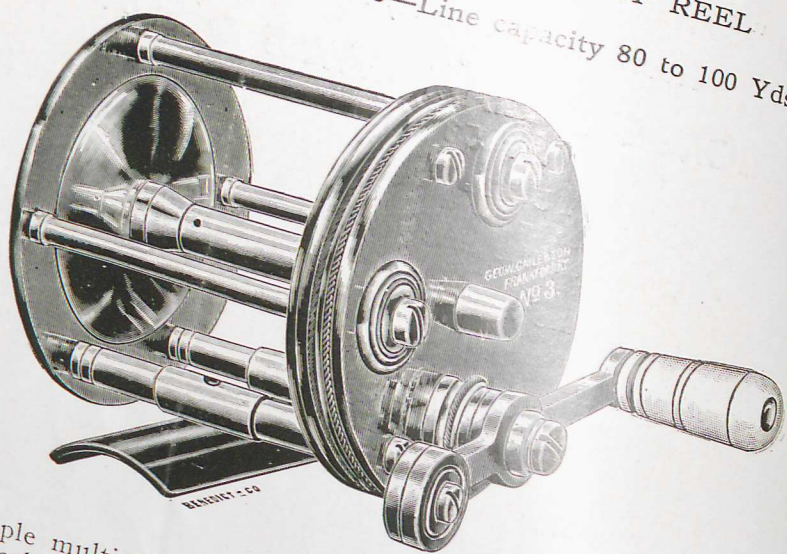

It has been his privilege and to his immense mechanical profit to have been trained by his father, Geo. W. Gayle, and also to have known intimately and to have had much valuable advice and passed many very pleasant hours with BEN F. MEEK, BEN C. MILAM and JOHN MILAM, his son, all of whom are now gone, who, with the present GAYLE completed more than a century of continuous FINE Reel making in FRANKFORT.

Yours faithfully,

Mrs. Walter Burley Griffin

MRS. WALTER BURLEY GRIFFIN.

THE "GAYLE" FRANKFORT REEL
Exact size of No. 3—Line capacity 80 to 100 Yds.

Quadruple multiplying. Perfect for Bait Casting and for Tournament work.

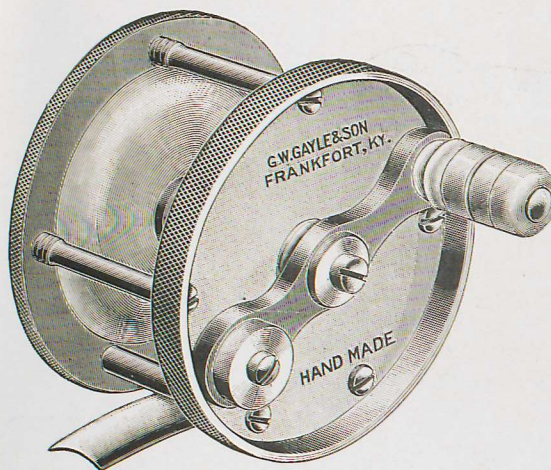

Made with either Balance Handle, as shown in cut, or with Twin Handle. Twin Handle is most generally wanted in late years. This is the Reel that we have been making continuously for 53 years and is a reel that can hardly be worn out. The first one that we made in 1883 is still in service and has been each season since it was made.

These Reels are made throughout of very best quality German or Nickel Silver and will keep their color and polish for years. The Pivots, Pinions and Wheel-Posts are all made of the finest TOOL steel hardened and tempered, and then finished to a mirror polish and fitted to anti-friction bearings, each part being separately fitted to its place. The result is a Reel that for smooth, easy casting, powerful winding and great durability, combined with nicety of finish and true artistic appearance, has never been surpassed.

Made in eight (8) different sizes and priced uniformly at \$100.00 each for the small and medium sizes and \$125.00 for the large sizes. Any of these Reels with jeweled bearings, \$6.00 extra. Pearl handles, \$1.00 extra for the small sizes and \$2.50 for the large sizes.

Sterling SILVER Reels \$15.00 to \$50.00 extra, according to size. You can find a Reel of this pattern suitable for any kind of FISHING from small pond to heavy lake.

This cut shows the "GAYLE" ALUMINUM TROUT REEL,
natural size

Light, Beautiful, Durable, STRONG. A Reel that you can not wear out and will not wear or tire you out when you cast all day. Weighing less than 3 ounces, it is hardly noticed at all as a weight when on the Rod. Made up to the standard of all of our HAND MADE Reels with an adjustable sliding Click on the back end that is of just the RIGHT tension for FLY FISHING.

$2\frac{1}{4}$ inches in diameter and holds 25 yards of large Trout or Bass Line. Price each \$30.00.

This Reel, same pattern and material but 4 inches in diameter for SALMON FISHING, \$75.00 each.

We classify our Reels as HAND MADE Reels and this is EXACTLY what they are. We make every part of every Reel that we send out in our own shop, make it by HAND work and make it RIGHT. We do not slight any part of our work in any way, but constantly strive to make each Reel that we produce just a little better than the one preceding it. When you have on your Rod a "GAYLE" Reel you can feel assured that no one anywhere has a better, if as good a, reel and when you are fishing with a "GAYLE" Reel you can be equally assured that it will not let down at the time you depend on it most.

We are ourselves FISHERMEN as well as Reel makers and use our own make Reels.

We very seldom have any stock of Reels of any kind whatsoever on hand but we do try to keep a few. We can not guarantee immediate delivery at any time but do guarantee delivery when promised.

We are always glad to have fishermen call on us even if with no idea of buying a Reel.

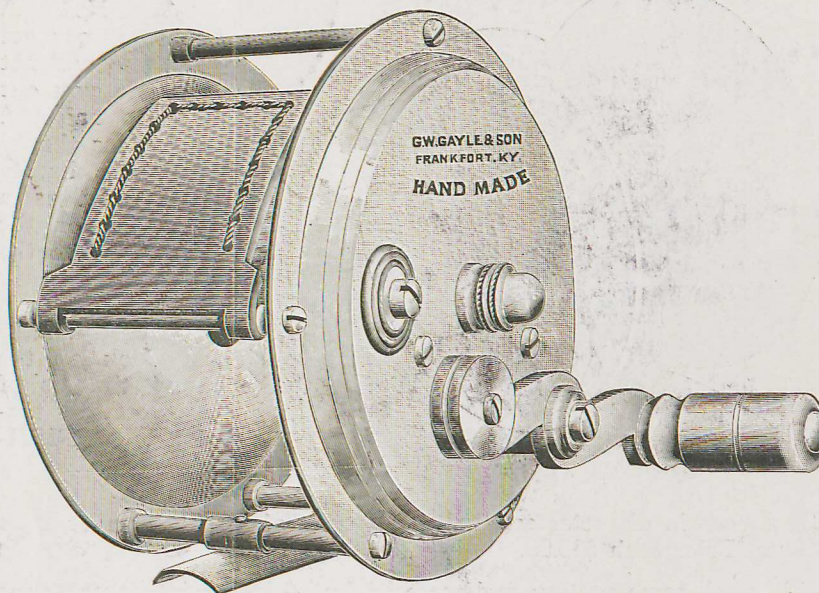

Yours faithfully,

Mrs. Walter Burley Griffin

MRS. WALTER BURLEY GRIFFIN.

HON. FRANKLIN D
WASHINGTON
PERSONAL,

This gives a good idea of the looks of the "GAYLE" heavy lake and light sea Reel. This Reel is $3\frac{1}{2}$ inches in diameter and will hold 150 to 200 yards of strong line suitable for this class of fishing.

This Reel is made of finest quality German or Nickel Silver with the same patient care and skill as are all "GAYLE" HAND MADE Reels and will stand up under the most severe use and misuse that can be given it by the fisherman. Made with either Balance or Twin handle as wanted, Double Multiplying, Screw off Oil Caps, Strong sliding Click and swinging Thumb Drag. A strong and powerful Reel for all kinds of medium to heavy fishing. Price \$100.00 each. Larger Reels of this same pattern for TARPON, \$150.00 each. For TUNA and SAIL FISH, \$200.00 each.

We also make Hard Rubber and Nickel Silver Reels for same fishing at same prices as above.

Gold Click Slides on any Reel \$1.00 to \$5.00 extra as to size. Initials only, engraved free on any Reel. Full name engraved for 3 cents per letter.

Every "GAYLE" Reel guaranteed unconditionally.

The President,
The White House,
Washington, D. C.

Dear Mr. President:

There has been transmitted to you a framed copy of a dedication or toast entitled "The True Aristocrat", by Mr. Edward Palmer George, the author, and his friend Mr. Louis N. Landfield, 803 Broadway Arcade Building, Los Angeles, California, which they hope you will be pleased to receive.

Mr. George, its author, is particularly devoted to you, and so is his friend, Mr. Landfield. They hope that this composition will be acceptable, not only to your distinguished self, but as well to your millions of admirers, and have requested me, on their behalf, to present the same to you.

With affectionate regards,

IBD/JK.

1936.

President Franklin D. Roosevelt,
WASHINGTON, D.C. U.S.A.

Dear Sir,

I am taking the liberty in connection with your invitation to the religious element of America to put before you what we consider a sound basis of social life from a point of view which looks at problems from the two angles, the material and the spiritual; the method put forward by Dr. Rudolph Steiner in his Threefold Commonwealth.

We are Jeffersonian democrats and feel that this is in accord with basic principles but in addition it calls our attention to the fact that our social entity, like our personal entity, is essentially threefold in its nature and must be so organised, the Political the Rights realm, the Cultural the Creative and productive realm and the Economic the Fraternal, the mercantile realm.

I am sending you by this mail Dr. Steiner's
Threefold Commonwealth.

Our own experience under European tryouts of practically all suggested social sinecures has shown us not only that they are complete failures, but why they must necessarily fail because they pervert human nature.

Yours faithfully,

Walter Burley Griffin

Dear Atlantic,

In William F. Russel's "So Conceived and So Dedicated" - in the May issue as well as in recent articles of Newton D. Baker, Albert J. Nock and others, the issue of Liberty and Equality is stressed as the crux of the present time. These writers cite diverse early authorities, but not the late Dr. Rudolf Steiner who succeeded, through extending the sources of data beyond obvious physical laws, in showing that, although these conditions are mutually exclusive, it does not follow that we must choose the one and do without the other, nor compromise by subtracting one from another to obtain the insignificant net resultant of opposing forces; for each has a clear field in which it is a paramount necessity.

There need be no greater conflict between Liberty, Equality and Fraternity in the genus humanity than there is between them as willing, feeling and thinking in the species individual man himself. The difficulty arises out of incapacity to recognise authority except as a unity whereas we should be able to conceive of it as a trinity. The human being is so constituted, and his threeness is a wholeness, made up of distinct elements, the assimilative system exemplified by the stomach, the regulatory system by the heart and the nervous system by the head. Should one of these interfere with the operation of another, disease ensues.

dj

But just so are our States trying to carry on. The intuitive cry of the French revolution recognised the threefold needs of human society but not how to meet them. We cannot enjoy health until we learn. A society whose institutions are based on its threefold nature will be able to

function in health:- an organisation, comparable to that of the human being, each one of the three systems traversing the whole body:- Liberty the function of an individualistic Cultural, creative and productive system; Equality the function of a democratic Political system; Fraternity the function of a co-operative Mercantile system.

We can enjoy each principle to the full in the realm where it belongs and has its value and each will supplement the other two just as do our free voluntary metabolic and limb activities, the moral impulses of our feeling, and the logical laws of our thinking.

Toleration toward the idea of a single world economy and Codes worked out by various industries under the National Recovery Act begin to illustrate the inevitable application of the principle of segregation of authorities according to functions and the relinquishment by the States, to competently constituted institutions, of all powers not strictly implicit in formulating and maintaining standards of rights according to the moral understandings of the Communities.

Yours faithfully,

Mrs. Walter Burley Griffin
