Dear Mr. President:

Please accept this, my
humble effort, with my sincerest wishes.
I know it hardly compares with the great
work of the artists who are only too
happy to paint your portrait. Yet, remember
that I am a man of seventy-four who
has only recently begun to draw.

I was a cabinet-maker by trade,
forced to retire by financial reverses
and ill-health. Art sustains me and it
is to my everlasting regret that I
was not afforded art-training in my
youth.

Sehr geehrter Herr Praesident !

Ich erlaube mir, Ihnen mein Buch "Von Moskau nach Jerusalem" zu ueberreichen. Es ist die Lebensgeschichte eines Juden, der an eigenem Leibe das Schicksal seines Volkes erlebt. Ich habe mit meiner schwachen Feder versucht, den Ausweg zu zeigen, jenseits von Hass und Rassenwahnsinn, nach den Gesetzen der Vernunft und Humanitaet.

Wenn mein bescheidenes Buch Ihren Beifall, Herr Praesident, finden wird, werde ich fuer das viele Missgeschick in meinem Leben reichlich entschaedigt sein.

My Dear Mr. Roosevelt;

An invitation has come to me from Mr. Edwin H. Morris, Editor of The Federal Architect, to attend the unveiling, which owing to the kindness and indefatigable enthusiasm of the architects of Washington-(with this gentleman at their head)-is shortly to occur in memory of the long obscure colonial architect, Robert Mills.

in an unmarked grave in the Congressional Cemetery
at Washington, yet our inheritance from him had in-
cluded such buildings as the United States
Treasury, the old Post Office, Patent Office, etc,
etc, in Washington, also the first monument to
George Washington on Mount Vernon Place, Baltimore;
and numerous other structures.

But to be breif, this many sided engineer and arch-
itect- an intimate of Thomas Jefferson, (this book
contains some of their correspondence) is at last to
be given public recongition; and I am trusting that
the greatest honor of all, namely your presence at
this ceremony, may also be confered upon him.

In closing, may I add that I am trusting you will
accept a copy of my book, and, also, if you will-
please turn to page 125 of this copy, and read what
the author has been pleased to say, of the 32nd

THE WHITE HOUSE
JAN 17 1936
RECEIVED

Fort Dodge, Iowa
January 13, 1936

The Honorable Franklin D. Roosevelt
President of the United States
Washington, D. C.

Dear Mr. President:

The purpose of this letter is to inform you that I am an ardent admirer of you, your magnetic qualities, your kind disposition and your sincere desire to help the poor people and this great country in the land of plenty.

Mr. Roosevelt, it would be a genuine pleasure and much easier for me to tell you, in person, the things I have in mind, rather than attempt to write them.

First, I am a young man thirty-five years of age, single, and selling is my profession. I am a Catholic and a firm believer of same. Every morning and night, I make the sign of the cross with the "holy water of Lourdes" and plead with Almighty God, the Supreme Being of mankind, to give you health and strength and courage to enlighten your wonderful brains to continue your marvelous work in this great country. I also pray that God will spare you indefinitely to carry on your great work.

Mr. President, this letter is so sincere from the very bottom of my heart that I regret exceedingly that I cannot have the extreme pleasure of telling it to you in person and shaking your wonderful hand.

I have asked my dear old saintly mother, who is seventy years of age, to pray in union with me and her reply was, "Son, I have done so ever since the first time I heard President Roosevelt speak over the radio. I knew he was a great and grand man and a leader, because he recognized the Supreme Being of mankind--Almighty God."

Mr. President, I have written to the Confraternity of the Precious Blood at Brooklyn, N. Y., a Catholic order to which I have belonged for a number of years, for a bottle of holy water called the "water of Lourdes", from our Lady's Shrine in France, which has cured the blind, the sick and the lame. Every morning and night, I make the sign of the cross on my forehead with this holy water and ask the Almighty God to give me the faculty with

x

which to think and then I make the sign of the cross on my tongue asking Almighty God to strenghten my speech, and I can tell you truthfully, sincerely and modestly that I am extremely successful and the main support of my dear old mother, my three sisters and my little nephew.

This, I attribute to the implicit faith and confidence in my religion and the water of Lourdes. A bottle of this "water of Lourdes", I am forwarding to you, registered, under separate cover.

Wishing you every measure of continued success towards helping the poor people in this great country of ours and with kindest thoughts and best wishes for your and Mrs. Roosevelt, I am

Dear Mr. Early:

*What is
6/27*

We are again writing to you in regard to the possibility of securing a new uncopyrighted portrait negative of the President. Over a year ago you were very kind to have made for us a negative of the President at his desk which we needed in order to furnish pictures to the Governor, Secretary of State, Attorney General and Superintendent of Public Instruction as well as other public officials.

At the 1935 Illinois State Fair we furnished two extremely large portraits, one of the President and one of the Governor, but since the picture of the President was a side view, it was not as effective and did not match as well as it might with the Governor's which was a front view.

This year the Fair officials have asked us to secure a new portrait of the President, particularly a front view, to be used in front of the grandstand where it will be seen by from 400,000 to 500,000 people. We are sending you a print of the President as we have worked it up for a head and shoulder portrait. We are also sending a print of the Governor which is the size and type of portrait we would like of the President.

Last Sunday we were at Vincennes, Ind. dedication of the George Rogers Clark Memorial where we made sound motion pictures of the President, and are sending you an 8x10 photograph for your files.

Trusting that you will be able to accommodate us again, and thanking you in advance for a reply at your convenience, we are

Dear Mr. President;

As your staunch political admirer, I am today sending a sample of my idea, the World Flag Builder. I do this because of the beautiful American flag involved in game, which you, as the nation's executive, so ably represent, and which we democrats know you will continue to represent for another four years.

When your mind is free from care of state, wont you kindly test it? You find it interesting, and when it comes to the making of two flags of different nations simultaneously, it will tax your wits, just as some flags are already trying your patience.

Try making our American flag first, then turn it over, after placing box bottom atop of flag in box lid - and you will smile, Mr. President.

Very respectfully,

Mrs Franklin D. Roosevelt.

The President of the United States. (Personal)

My Dear Mr President.

I am taking the liberty to send for your
entertainment a "work of Art" which will, I believe, be of interest
to you.

The enclosed "picture" is in reality a "mask" over a face you
know, and is designed for possible public interest to "guess"
who's face it is - a new angle of interest-in men of affairs.

If you will take a few seconds to follow instructions on the
back of the "picture" I am sure you will get a genuine surprise
as a face familiar to you will surely appear, as out of nowhere.

To tell you would remove the interesting feature--a guess who it
is.

I am sending a copy to the Hon. James A. Farley your Campaign
manager, hoping of course he can see an interesting method of
public interest in it.

This is sent to you and Mrs Roosevelt so you will have the
pleasure of seeing a phenomenon of the human eyes.

Thank you kindly and trust I am not presuming too much in
taking the liberty of sending you this interesting "work of Art".

You will in all probability hear from your Postmaster General
with reference to this entertaining feature. In any event you
can keep the "picture" for the amusement of your family.

Thank you again for the your courtesy of your attention.

Yours Very Truly. T.H. Gadson
Neurologist.

A SYSTEM OF NATURAL MEDICINE

For convenience and possible error in instructions on the back of the "picture" I add a few here---

You must gaze at the V just above and to the right over the nose as you look at it-for 30 to 50 counts. *The low point of the V*

Hold the card very quiet.

Take the gaze away to a smooth surface-the wall-ceiling-or out of a window at dark.

The wall or space must be white or black to get a good "face"--.

After a few tries the face will come ^{easily} as you will know what to look for--but you must wait a moment or several for the face to appear-it may take several seconds -or it may come very quickly--depends on the kind of eyes you have.

The sharper the eyes-the quicker you will see-let the children have a try.

The "face" will appear more than once if you keep the gaze steady for a 1/2 minute. If it moves off a little let the eyes move with it.

Building Dreams of Steel In San Francisco Bay by C. W. GEIGER

They said it couldn't be done—span the Bay and Golden Gate with bridges, but San Francisco did it. And threw in a great Exposition to boot. This story tells how the impossible is accomplished.

THE intricate and wondrously knit glittering spans of the world's two greatest bridges across the Golden Gate and Oakland Bay, and a magic isle of Atlantis—dripping with all the miracles of an international exposition, is what San Francisco is preparing for your coming in 1938-39.

The site of the Exposition lies in the white-capped San Francisco-Oakland Bay area, midway between the two cities, on shoal land located just north of the adjoining Yerba Buena Island. And this year 385 acres of shoal will be filled in to provide the site for the Exposition. By the end of 1936, when the fill is completed, architectural plans for the buildings will also be finished, so that actual construction will begin with 1937.

A "natural" for an airport, you think. And you are right. When the Exposition closes, San Francisco will erect there the last word in up-to-the-minute flying terminals, all within just a few minutes bridge ride to the downtown district, or to Oakland proper.

The unique position of this site—a deep-water island—makes it possible for the merchant and naval ships of every nation to drop anchors a stone's throw away. Or, for exhibition purposes, to berth at the site's piers.

The San Francisco-Oakland Bay Bridge is 8½ miles long—figuring the east and west approaches. The bridge proper, including the island crossing, is 23,000 feet long—approximately 4½ miles.

World's largest and most magnificent single span suspension bridge over the Golden Gate. It is the first bridge ever to be thrown across a major harbor entrance, and when completed in May, 1937, will form the key link in the proposed All-Pacific Coast Highway System.

The San Francisco-Oakland Bay Bridge spans the largest navigable body of water yet bridged. No other bridge sweeps so high over the ships below. Over eight miles long, the west half of the bridge is in reality two suspension bridges.

My Dear President Roosevelt:

I thought you would be interested in receiving an excellent engraving of Yourself on a penny as well as a photo of the inventor and copy of the story which I have sent out to numerous Magazines.

I am also enclosing some photos showing the completed East Bay Section of the \$77,000,000 San Francisco Oakland Bay Bridge.

I also wish to tell you that San Francisco theatre audiences "almost go wild" with applause and enthusiasm when your pictures are thrown upon the screen. There is only a ripple of applause when Governor Langdon's picture appears and you should hear them "HISS" when H. Hoover's picture appears on the screen. If the applause of San Franciscans is an indication of your popularity in other sections of the country, then you can be sure that you will remain in the Presidential Chair for the next four and I hope for the next eight years.

With very kind regards,

I am, Charles W. Geiger

REMARKABLE LIKENESS OF PRESIDENT FRANKLIN D. ROOSEVELT ENGRAVED ON PENNY BY MACHINE PERFECTED BY BEN WEENTRAUB A SAN FRANCISCO DIE SINKER. THE Machine turns out reproductions of The President, Will Rogers, Golden Gate International Exposition, Golden Gate and San Francisco-Oakland Bay Bridges Cliff House, Alcatraz Island and Old Ironsides, on eight pennies in just one and one half seconds, with one turn of the engraving mechanism. The machine at the same time rolls the pennies out into an oval form 1½ inch long ½ inch wide and 3/32 inch thick. The machine produces a pressure of 60 ton and is operated by hand power. There are two cylinders on which the engravings are sunk by the inventor, and which are revolved during the operation. Accompanying photo shows the inventor with the engraving machine on the San Francisco approach of the Bay Bridge where he operates, turning out souvenirs which are sold to visitors and San Franciscans.

Enclosed you will find two Albanian pistols which I hope you will accept with my compliments. These guns are perhaps a hundred years old and are unique in that they are no longer manufactured, and in this particular case they match. I found them in Scutari, one of the ancient cities of the country. There are only a few pairs to be found in Albania today. Guns of this type were used in the old days very effectively, I understand, by the old chiefs of the mountain clans in Albania.

Dear Mr. Roosevelt:

The July number, special feature issue of "The Police Magazine of Mexico City" published in the interest of the peace officers of that vicinity, contained many laudatory and friendly greetings to the Peace Officers of Los Angeles County, California. Editorials appeared commenting on and outlining the cooperation and fine understanding which exists among the law enforcement bodies of the two countries.

The cover of the magazine displayed the picture of George Washington, First President of the United States. A cut of yourself was featured on the inside.

As Editor of The Guardians of Peace and Property, a magazine of the same intents and purposes printed here in Los Angeles County, I have been asked to return the compliment, simply an international exchange of courtesy, in my forthcoming issue, which I will be pleased to do.

Would it be, Dear Mr. President, within the bonds of propriety, to ask you for a few words of greeting to those Mexican Peace officials, and the men under their command, and your permission to feature Your Words with your photograph in my next issue, now in preparation for the press?

Under separate cover I am mailing you a copy of the Los Angeles publication, the Editor of which, "We" are your staunch supporter and great admirer, though the magazine is non-political and non-partisan.

My dear Mrs. Green:

It was mighty nice of you to send
the President that inscribed copy of your
book "Memoirs of Mary A. Maverick", and he
wants you to know that he greatly appreciates
your kind thoughtfulness.

Very sincerely yours,

To House

M. A. LeHand
