MEMORANDUM FOR MR. MCINTYRE:

Mr. Howard Gillette left the attached book for the President. I am writing him a note of thanks.

He also said he wanted to get word to the President that Mr. Frederick Prince, of Boston, is very anxious to have the President appoint Mr. T. Bentley Mott, the author of this book, Vice Consul at Biarritz. He says this has been approved by the Consul at Bordeaux.

Mr. Gillette further asks that the President stop at the Sea Scout camp and present a flag to the national flagship when he goes to the Scout Camp tomorrow to see the Dutchess County boys. Mr. Gillette says this Sea Scout group is at Hains Point.

Dear President Roosevelt:

Recently I wrote you a letter in which I asked you permission to send you a Scrap Book which I made and took me approximately a year and a half to make and I received an answer from your secretary, Mrs. LeHand acknowledging my request. Mr. Roosevelt the Scrap Book I am talking about is the one I am sending you here. This Scrap Book took me approximately a year and a half to finish it, and it is about your life and part of your family's; interesting things of the United States; and also a few interesting things of Texas, Mexico, and Laredo, Texas (my home town).

Dear President the person who is sending this humble present to you is the one following:

My name is Maximino Galvan and I live at 1918 Lincoln St., Laredo, Texas. I am 17 years old and was born in Waco, Texas in the year 1920.

I am a Junior in the Laredo High School, and my ambition is to graduate and go to college (if I have some money) and become a school teacher. I am a poor Mexican boy and I shine shoes, send for orders of goods and sell them and get a little money, work in groceries stores, sell papers, and other things to get money to buy my school utilities. My mother and father work and we are 6 in the family and I am the oldest and I work hard to help them. Right now I am in vacations, but no vacations for me because since school closed I have been working in carpenter work with a freind of my father who is a contractor and I am getting paid two dallars a week and I work from 8 o'clock to 6 o'clock every day. My father is a carpenter and he gets \$15 dallars a week.

Dear President, the reason I am sending you this Scrap Book is because I like you and you have been doing a lot for the poor people. I mean you are very good and help them all. I wish you would be our President forever and ever. Dear President all I am asking from you is a real photograph of you with you autograph a remembrance I would appreciate the rest of my life, if you can send me this at least send me a letter of recommendation with which I can find work any place. Mr. Roosevelt please don't refuse this to me.

Honorable Franklin D. Roosevelt
President of the United States
At St. Paul, Minnesota

Dear President:

The Great Northern General Committee of the Brotherhood of Railroad Trainmen and their wives wish these flowers to convey to you our undying respect, admiration and gratitude for your achievements in behalf of the farmer, the laborer and for social welfare of all the people of the United States and to assure you of our full support and cooperation in your program thus far so nobly advanced.

We wish also to express our appreciation for your traveling over the Great Northern Railroad, built by another great empire builder; namely, James J. Hill, with which we have for so many years been associated.

Sir:

It is with an appreciation of your genuine interest in the educational progress of the American people that I am sending you herewith a recent publication entitled "Implications of Social-Economic Goals for Education." This report is a publication of the Committee on Social-Economic Goals of America, a committee of the National Education Association of the United States.

The original statement of goals was made by an able committee under the chairmanship of Dr. Fred J. Kelly of the Office of Education. With the help of a number of outstanding men and women the Committee has now presented the significance of American social goals for education. It is this treatise that I am calling to your attention.

It is my prediction that this report will become one of the classics of American education. The realization of the proposed program of education will make challenging demands upon our human and material resources.

Yours respectfully,

Willard E. Givens

Dear Mr. Early:

Under separate cover I am sending you a complimentary copy of our recently published Course Book in Public Speaking for President Roosevelt. I hope that it will be of some interest to him since we have made use of his speech entitled "The Philosophy of Government." You will recall that you sent us the manuscript last summer.

I regret to say that some of the books have been found to be defective. I have asked that all the books be carefully inspected before they are mailed, but if you should happen to receive a defective book, I should appreciate your returning it to the Artcraft Press with a request for another copy.

On page 142 the first resolution near the bottom of the page should read "that the several states should not retain their two-house legislatures." There are probably other errors, in spite of careful proof reading, but I have none to report as yet.

If you care to submit any criticisms, we shall certainly appreciate them, since we hope some day to bring out either a revision of the present work or a textbook which will develop the theory of teaching presented in the Course Book.

Sincerely yours,

Wilbur E. Gilman

Dear Sir:

About six years ago my father was helped by the Relief Organization that you originated. I always saved the wooden boxes in which the groceries came, for my father is a carpenter. He always said that we should be thankful to you for what we received. So one day I told him that I wished I could do something to show you our appreciation and he said, "why don't you build something pretty out of those boxes for him". I started working day by day for one year until I learned how, and then another year to finish what I am sending you (The Chimes of Normandy). This is the best I have ever done in my life. I know that you have many pretty things, but please accept and keep this piece of work from a poor girl.

Mr. Marvin McIntyre,
Secretary to the President,
Washington, D. C.

Dear Mr. McIntyre:

I am sure you do not know me personally and perhaps have never heard of me but I think I know you pretty well. I read a lot and know of your close association with the President, who in my humble judgment is the greatest man our country has ever produced, and thereby I think I know the kind of man you are. One that I hear a lot about I always have a picture of him in my mind and in this way I think I know you.

This is what I wish to say - Last Christmas I sent to the President, Mr. Cummings, Mr. Farley and Mr. Hoover, four very fine turkeys. This year I wish to add a few more to my list, including you, Mr. Quinn, Mr. Steve Earley, Austin Latimer, and two or three others who are as loyal to the President as you think they should be. I will be glad to let you run the list up as high as ten or twelve.

I have a lady careing for one I have selected for the President I think will weigh more than forty pounds. Of course none of the others will weigh anything like that but all will be very fine turkeys. I expect to ship these turkeys between December 15th and 20th, in order that they may reach their destination in ample time to be well prepared for the Christmas Dinner.

I suggest that you let me have the names of the additional ones you feel I should include that I may have this number of turkeys cared for in such a way that they will be in the best shape possible for shipping at this time.

Yours very truly,

Reuben Gosnell

To the President of the United States of America

Dear Sir

I am sending you a book under separate cover, entitled Chimes of Truth. The gentleman through whom this book was written, lost the use of his legs some years ago. A servant of the Infinite whom he knew here^{ed} his own understanding of Truth restored his legs to a normal condition. He walks just the same as any human being, for as you know Mr. President God is no respecter of persons. In conclusion I will say may the Great God above^{ed} around us guide you with his Infinite Wisdom in all your undertakings. With my best wishes to you Sir^{ed} the First Lady of the Land Mrs. Roosevelt^{ed} your Family I have the honor to remain

Yours

Very Sincerely,
Sydney de Gray

My dear President Roosevelt:

You may recall that back in 1933 Henry Epstein
laid before you a plan of mine for dealing
with surplus of basic raw materials and that
you wrote Mr. Epstein briefly about it.

This plan has now been expanded in a book
which was published today under the title of

"Storage and Stability --
A Modern Ever Normal Granary".

I am taking the liberty of forwarding you a
copy of this book in the hope that its
message may prove useful to you in dealing
with the recurring problem of depression
through surplus.

Very respectfully yours,

Dear Mr. President:

I take the liberty of sending you under
separate cover a specially prepared copy of my
"Historical Chart of Mankind". It has won the ap-
proval of many leading educators, historians and
publicists in this country. And only the other day
I received a most gratifying letter about it from
Dr. William E. Dodd, American Ambassador to Germany.

If the perusal of the Chart will give you
a few moments of pleasure I will feel that my two
years' work on it has been amply repaid.

Very respectfully yours,

AG/n
