My dear Mr. Jackson:

The President has noted with a great deal of interest all that you say in your letter of May ninth. He appreciates your courtesy in sending on to him that especially fine salmon, a gift from Honorable A. L. Hager of Vancouver, British Columbia and, in accordance with your request, a note of thanks has been sent to Mr. Hager direct.

The President,

The White House.

My dear Mr. President:

On behalf of the International Pacific Salmon Fisheries Commission I am presenting you herewith some tangible evidence of the fine quality of Fraser River Sockeye Salmon. This sample has been made available through the kindness of Mr. A. L. Hager, Vancouver, B. C., one of the Canadian members of the International Pacific Salmon Fisheries Commission. He is a large fish packer, operating a number of plants in British Columbia, and is associated with the New England Fish Company, which operates several plants in the United States and Alaska.

If the work of the Commission is successful, and we have every reason to believe it will be, this valuable Fraser River Sockeye Salmon may be restored to its former abundance, the largest cycle of which, based on present prices, when restored to its former level will bring to American and Canadian fishermen from thirty to thirty-five million dollars annually. The Commission was established in 1937 and splendid progress has been made up to date.

I shall appreciate it if you will make acknowledgment to Mr. A. L. Hager, Member, International Pacific Salmon Fisheries Commission, Vancouver, British Columbia, Canada.

Sincerely yours,

Chas. E. Jackson

June 16, 1941.

Writes the President that he has been requested by the Hon. Andy L. Fierovich to present the President with an honorary membership certificate making him a member of the Kit Carson Mountain Men of Amador County, California. Says he is also presenting the President with the emblem of the Order, a gold-mounted horse tooth. States the Kit Carson Mountain Men is an organization to preserve the old history of the Mother Lode gold mining section of California and the pioneer spirit of the famous scout, Kit Carson.----Gen. Watson, June 17th, wrote Judge Fierovich saying the President asked the General to thank the Judge for this honor and saying that nothing but the heavy stress of circumstances and pressure on the President's schedule prevents the President from writing personally.--- (Copy of General Watson's letter was sent to Rep. Dear Mr. Hassett:

Senator Austin of Vermont was in our place of business recently and in visiting with him he told me that if I would write you he thought you would get a ham that we wish to send to the President into his hands. We have been under the impression from different articles that we have read in magazines about food items sent as gifts to Mr. Roosevelt that most of them are distributed to charitable institutions. Because we have had the privilege of selling our meat in the past years to Mr. Coolidge and to Mr. Hoover we very much desire to carry on the tradition of serving President Roosevelt with it if it could be, only in the way of a gift. You may be sure that we shall not attempt to solicit the President's business in any way and if you will accommodate us by placing our gift of a ham in the proper hands so that the President will receive it we will very much appreciate the courtesy.

Will you kindly use the enclosed postage to reply to this letter and if our offer meets with your approval, tell us when the best time would be to send our gift?

Thanking you for your kind attention to our request.

Very truly yours,

KEEP YOUR CHIN UP"

Hold your temper - hold your groans,
Hear the tale of 'CASEY JONES';
Though your goods are overdue
For a month or maybe two,
We can't help it, please don't swear,
Labor's scarce and denim's rare;
Can't get buttons - can't get thread,
We've cussed and argued - fought and bled.

Stocks are dropping - buyers cuss,
Salesmen loaf and rave and fuss.
Commercial goods means all to them
But what about the O P M ?
When they say 'Give', we do our stuff;
With Uncle Sam there is no bluff.
The boys in camps must have their clothes
And that's where all the denim goes.

Davey's drafted, so is Ed,
Moe and Danny, Bill and Fred.
So your order, we're afraid,
Is bound to be a bit delayed.
Still you'll get it, don't be vexed,
Maybe this week, maybe next.
Keep on hoping, don't say die,
We'll fill your order bye and bye.

This treacherous war that is going on across the water today is not one that is in the hands of man. Humanity is not waging this war, but Race Spirits are responsible for it. You can read in your Bible about the Race Spirits which Jehovah divided humanity, in the early Atlantean Period, into races and nations, and placed a Race Spirit over each to be its guide. These Defect are a group of astral spirits that are two steps ahead of the human Race-Arch-Angels.

June 28, 1941

To the Honorable President of the United States
The White House
Washington, D. C.

Dear Mr. President:

I have been urged by an invisible force that is not permitting me to rest until I have written you this very unusual letter. Knowing that your time is so limited, and so many duties rest upon one pair of shoulders, I shall make this letter as short as possible, condensing it and then giving a more detailed explanation in a book which I have marked for your perusal, written by my late husband in the year 1908.

I knew before you were elected that you would be in office again the next four years--a Man of Destiny who has a tremendous responsibility. The peace of the world is in your hands. I am not a woman of emotion or one who takes these things lightly. For forty-three years I have been a humanitarian worker and my last thirty-two years have been completely devoted to this work. I have thought over this subject of the European war from the time of its inception and many things have been revealed to me which are not ordinarily given to the masses. My humanitarian work has given me the development which makes it possible for me at times to see into the future.

This tremendous war that is going on across the water today is not one that is in the hands of man. Humanity is not waging this war, but Race Spirits are responsible for it. You can read in your Bible about the Race Spirits when Jehovah divided humanity, in the early Atlantean Period, into races and nations, and placed a Race Spirit over each to be its guide. These Beings are a group of advanced spirits that are two steps ahead of the human race--Arch-Angels.

At present the world is progressing. A tremendous change is pending. A new period is dawning which will bring about the brotherhood of man. In order to inaugurate this brotherhood of man these Race Spirits that have been guiding nations for thousands of years must

now be freed. They, too, are evolving and are desirous of giving up the guidance of these races. Universal Brotherhood is in the ethers, which they are hoping to bring about, if man will permit them to.

A force is behind this waging war which is beyond the comprehension of man, and Dear President, if you will think this over seriously you will not sacrifice our American boys in an effort to try to thwart these Higher Beings and their purpose. Their freedom will permit man to guide himself into a brotherhood, and no longer be under the guidance of the Race Spirits. Only then can universal peace prevail. As long as there are races and nations, wars will continue, but when once the object of the Race Spirits has been accomplished, war and hatred will cease.

I am pleading with you, Dear President, to think over this letter seriously and read the marked sections in the book which I am mailing to you under another cover-- "The Rosicrucian Cosmo-Conception", which was written by my late husband, who was credited with having been the greatest mystic in the Western World--a man who had the true sight to see into the future and the invisible planes.

I hope you will pardon me for taking your valuable time, but I have been haunted for the past week by an invisible force that has been compelling me to reveal these things to you.

Yours most respectfully,

Augusta Foss Heindel

Your action in making known to the President the aims and objectives of the High School Book Club is greatly appreciated. The question as to whether you would publish for High School boys and girls a selection of the President's addresses must be left entirely to your own judgment. I would like, however, to explain to you that ever since the President has been in his present position he has consistently declined to write introductory notes to books or literary works. As he has not deviated from this course, I am sure you will appreciate the difficulty of making an exception in this instance.

Dear Mr. President:

The HIGH SCHOOL BOOK CLUB is a book-of-the-month club designed to enable the boys and girls of this country to obtain good books at the lowest possible price. The Club apparently fills an important need; some 100,000 young people are now participating and are obtaining carefully selected clothbound books at a 22¢ average price. We are the only organization in the country that is publishing books exclusively for high school boys and girls. We are doing this practically at cost to make it possible for non-wage earning youngsters to derive the cultural benefits of book ownership. Enclosed is a mimeographed booklet explaining the Club and a sample of one of our books to show format.

Many of the teacher members have asked whether a one-volume collection of your addresses could not be offered to our high school boys and girls; they feel that such a book is both desirable and important, especially at this time.

Would you be willing to have us publish such a volume for high school boys and girls, perhaps with a short introductory note by you?

Yours respectfully,

HIGH SCHOOL BOOK CLUB
