Dear Mr. President:-

Enclosed you will please find pencil drawing of yourself which was made by me. I am going to the Eighth Grade next term of school, at Junior High School in Farrell, and am 13 years old. I am very much interested in this work and would like to go to school to learn to draw better if I have the opportunity. I hope you will like this drawing and that you will be pleased with it.

Very respectfully yours,

William S. Latsko

My dear Mr. Lummis:

I have received your letter of July twentieth.

The President's time since his return from his vacation on the New England Coast has been so tremendously occupied with the many urgent matters demanding his attention that it was not possible to bring the calendar you were kind enough to send to him, to his attention. I am sure you will understand.

Very sincerely yours,

Dear Mr. President:

Please pardon this presumption in sending you this picture. It is a very common one, just a magazine cover framed by a novice, one of your constituency, in an humble way trying to do his part in restoring times to a normal state.

This picture at a glance has a very insignificant meaning. However, when all this picture stands for is brought out it is significant of all we need at the present time.

It was said some two thousand years ago, 'How can anything good come out of Nazareth?' The same question can be asked by forty seven states and all the territories, "How can anything good come out of Louisiana?" I answer this question in this way: all of Nazareth was not bad. ~~neither is~~ all of Louisiana ~~is~~ bad and if you cannot find space on your walls for this picture send it to the manger or to the garage. 'For verily I say, by their fruits ye shall know them'.

Will say for myself I am 66 years of age, white, a Democrat, a Mason a Methodist, a hard worker, hard hit by the depression. Am hitting on all six, fighting for restoration of times to a normal state.

Most respectfully yours,

William C. Lay

Rec'd

My dear Mr. Howe:

Attached herewith two communications written by Mr. A.D. LaFontzee, 1021 North Logan St. Lansing, Michigan, one of which is addressed to the President, and the other to the Postmaster.

Mr. LaFontzee is the maker of a type of water wing, and he desires that same may be available for the enjoyment of the President. In this I might add his sincerity is unquestionable, proof of which is evidenced in his communication to this office in which he desires that no publicity be made relative to his gift. He simply is a very great admirer of our President, and if he may serve in this way to add to his enjoyment of life, he is content.

This office hesitated, at first, to comply with his request, but he was so sincere and so insistent, we are handling the mailing for him. He was under the impression that if the mailing were made by him direct that same would not come to the attention of the President.

If the device does contribute to the enjoyment of our Chief, we are glad to have acted as agents to that end. However, we are submitting the gift to you for transmission to the President.

Respectfully yours,

Walter G. Rogers

My dear President Roosevelt:

I have thought of sending you two copies of "Recreating Oneself" --the book I have just written--one copy for you to read as it was written, as a Human Being.

This would be Frank's copy.

The other copy would be for President Roosevelt and would be cut a lot--just have a few marked off places in it--little spotlights of Vision on what being President of The United States just now (forty nations sitting on the arms of one's chair) 1933 to 1941--is like.

But you see, you get these two most interesting persons--Frank and President Roosevelt so really mixed in with one another that its hard to tell which one you would want a book of mine sent to, and I am leaving it to you to tell me which to do.

In the meantime I am just sending you with awe (forty nations I realize sitting on the arm of your chair or on your neck, while you read) a mere marked copy--not for Frank at all--just some paragraphs duly marked--for a mere President of The United States.

They express while I smile--while we both smile, the prayer, the challenge the daily gratitude and the daily hope of my heart for yours!

Dear Governor:

Emile Long has been doing Cardinal Hayes's watch and clock work for many years and His Eminence was interested in a remarkable clock Mr Long had in his shop. He asked me to look at the clock, keeping in mind that perhaps it would please you.

Mr Long and his sons wish to present you with this clock, a picture of which is enclosed herewith. The clock is over 100 years old and, as you will notice, King Neptune surmounts the time piece. The ship that you will see in the picture actually rolls as if at sea. The clock itself is solid bronze.

Mr Long would like very much to present this clock to you either at Hyde Park or wherever you designate. Of course, the old gentleman would be most happy if he could make the presentation personally, and I told him I would ask you to let him do so.

I know you are pestered to death

mam

with such things, but since the Cardinal thought the clock was a thing of beauty and since I believe it represents something you have a real interest in, I am taking the liberty to place the matter before you.

If Miss Lehand or Mack will let me know, I shall be happy to produce Mr Long and his clock any time and any place you mention.

With the very best of best wishes, believe me

Mr. Franklin D. Roosevelt,
The President of The United States of America,
Washington, D.C.

Honorable Sir:-

I am sending with this letter a slight token of my appreciation of the wonderful work which you have done in the short time you've been in office. It's heart-warming to know that you are in perfect accord with the common people of America and that each effort you make in overcoming the many obstacles that beset your path is done with only one thought in mind,-To do the greatest good for the most amount of people.

I know of no other way to let you know how I feel than by sending you this gavel which I made of one hundred pieces of wood especially for you, and my only hope is that it will impart to you the feeling that all true Americans are behind you One Hundred Percent in everyone of your attempts to better conditions for us.

Yours most faithfully,

Dear Mr. President:

1.
On account of illness I am obliged
to dictate this letter while in bed,
and to have my nurse do the
writing for me.

2.
As an old resident of your State
who practiced law in the City of

New-York, with my more recent offices
in the Bankers Trust and Equitable
Buildings, I want to congratulate
you most heartily on what you have
accomplished both as Governor of
the State of New-York and as President
of the United States.

3

For several years I have been
working on a "History of the entire
World", which could be published
in a single volume.

4.

This has only recently been
completed, and in it I have devoted
as much space to an accurate
record of your many history-making
achievements as the limits of such
a work would permit of doing.

On the following page of this letter you will see what the Chicago Tribune had to say in its "Review" of this work.

If you would like to have in your private library a complimentary de-luxe copy of this book (one of the first twenty five off the press), autographed by the author, I shall be glad to see that you receive one.

A NINE WORD HISTORY.

Winnetkan Is Elected Member of Institute of American Genealogy

Charles H. Lovett Wins National Recognition for Preparing Ancestral Records

Charles H. Lovett, of 225 Sheridan road, Winnetka, who has won local recognition for his work in genealogical and historical research, has been honored by election to membership in the Institute of American Genealogy of Chicago. The Institute is the largest genealogical society in America and acts as the national clearing house for genealogical information.

Membership in the institute is by election of the council. It includes in its membership the leading professional genealogists in this country and in England, Scotland, Ireland, Wales, Germany, Holland, France, Switzerland, Canada, Austria, Denmark, Finland, Italy, Mexico and Poland, as well as many other persons distinguished in official, educational, scientific and social annals of these countries and throughout the United States, who are interested in the eugenical as well as the historical and patriotic phases of genealogy.

National recognition in this field affords contact with the leading genealogists throughout the United States and many foreign countries, as well as access to the extensive lineage files of the national clearing house for genealogical information, which will enable Mr. Lovett to expand the scope of his work materially.

Result of 30 Years' Work

For more than thirty years Mr. Lovett has been engaged in the preparation of the ancestral records of his branch of the Lovett family, both in America and in England. His first American ancestor was Samuel Lovett, a son of Jonathan Lovett of London, England, who came to this country in the ship, "Kent," and set-

led in Burlington, N. J., in 1677.

The English ancestors of Samuel Lovett were of the historical family of Liscombe Lovetts of Buckinghamshire, England, who could trace their ancestral line back to 1066, when William, the then Duke of Normandy, entered England, where he was afterward known as William the Conqueror, king of England.

A few years ago Mr. Lovett completed an account of the ancestral records of his now deceased wife, Florence Mills Lovett, whose four ancestors, John Alden, and his future wife, Priscilla Mullens, and Priscilla's father and mother, Mr. and Mrs. William Mullens, came from England in the ship, "Mayflower," which landed at Plymouth Rock, Mass., on December 20, 1620.

Prepares History of World

In addition to his genealogical work, Mr. Lovett has been engaged for several years in the preparation of a "History of the Entire World," from the beginning up to the present time, which could be published in a single volume. This work was only recently completed.

For nearly fifty years before moving to Winnetka Mr. Lovett practiced law in New York City.

In spite of some danger from typhoid fever and infantile paralysis, a wave of good health that will reduce sickness to the lowest level of the entire year is now breaking over Illinois according to reports from the State Department of Public Health. my dear Mr. President,

Received

Being interested in
Scouting in a small way in my community and knowing
your interest in Scouting too I am writing this letter to you
for several reasons.

First, under separate cover I am mailing you
a Boy Scout Neckerchief slide, carved by me from a single piece of
stag-horn sumac depicting an N. R. A. Blue Eagle in relief.

Before writing further, I wish to introduce myself;
however you have heard from me before, for during the
Presidential campaign I wrote you a card complimenting you
on several radio addresses and to which, on August 26, 1932
you so graciously found time to answer and that one letter is
my proudest possession. I am Glenn E. La Forge, a fellow
Scouter, finishing my seventeenth year as a member of the Boy
Scout organization here in Tulsa. I am thirty three years old and
was a Boy Scout during the World War, have served as Scoutmaster,
assistant Scoutmaster, Deputy Scout Commissioner; I am now a life
Scout, a 15 year Veteran Scouter, holder of Tulsa County's first
Scouters' Award for Scout Leaders in the five year training course;
I am a member of Nani-Du-Zhu, Tulsa County's Scout Honor group
and I also have two younger brothers who are both Eagle Scouts. At
present I am a Merit Badge Counselor in Forestry, Pioneering and
painting.

I am keenly interested in forestry and woods and on my
home grounds which is just an ordinary city lot I have growing
more than forty varieties of trees. This liking for the woods gives
me the incentive for making many little articles such as slides

and other little nick-nacks, hence the carving of the Blue Eagle slide for you. I heartily agree with you in the measures for re-forestation, ^{and} of placing exuberant youth into our forests in order to make greater contact with our "most useful citizens", for Theodore Roosevelt once said, "Trees are good citizens".

This letter, in second part is to say that in party affiliations I am a young Republican and in the election of last Autumn I fulfilled the prerogative of a good citizen by voting, voting for your pre-decessor but after the elections I forgot party affiliation and of course being a good Scout I owe loyalty to whom loyalty is due. I pledge you my whole hearted support and co-operation to the end of your administration and I wish you well in the great task that still lies ahead of you.

The third and final portion of my letter is in reference to your fine radio talks. I heard all of your radio addresses during the campaign, including your speech of acceptance and have heard all of your radio talks since you became President. However, due to the successful working of N.R.A. on October 2, I was working so of course I did not get to hear all of your address from Chicago during the American Legion Convention! I hope you will always be able to give to our country those brilliantly worded the brief radio talks for which we all so eagerly await.

And so, Mr President, I hope that you will accept in the spirit of Scouting the little Blue Eagle that is speeding to you thru Mr. Farley's mail and I hope you will treasure it as a memento from one who wishes to be a good citizen.

Wishing you and Mrs. Roosevelt, whom I have also heard, my best wishes, I remain,

Scoutingly yours,

Glenn C. La Forge,

Dear President:-

I am enclosing a tiny addition to the gifts you have received from your many admirers. I designed and made this eagle of beads, and what it stands for quite expresses my sentiments.

Do you agree that most of us like to talk about ourselves? I am ninety-three years of age, the oldest woman in the Woman's Club of Denver, spend part of my mornings making bead flowers, and take a long street car ride nearly every day. I feel as young as any of the other "girls" with whom I often play cards, and enjoy a game as much as -- shall I say Culbertson? In fact, I enjoy every moment of my life.

In closing, I'm for you 100%.

My dear Mr. Lambert:

I have your letter of October twenty-second.

Since the beginning of the Administration and in order to conserve the time and energy of the President for his many official duties it has been the custom for me to receive gifts of every nature and description.

I will be very glad to suit the convenience of your three sons with respect to time, and will be only too happy to present the portrait to the President when the opportunity affords.

Sincerely yours,

M. H. McINTYRE

Dear Sir;

My three boys ranging in age from 7 to 13 years,
would like to come to Washington and present President Roosevelt
a portrait that the writer has just completed.

It is a lifelike portrait of the President and has
been on exhibition at the Purnell Art Galleries of this
city. It has received very favorable comment and
is supposed to be a splendid likeness of the President.

Awaiting your reply, I am

Dear Mr. McIntire:

I saw Mr. Dixon Davis, Secretary to the Hon. J. J. McSwain, on the street yesterday and told him that I had a box of South Carolina pecans for the President. I asked him how I might best send them in order to insure their reaching him. He suggested that I send them through you. So when you get the box, take a crack at them yourself and if you think they are good for the President's cold, pass them along to him together with the enclosed note.

Dear Mr. President:-

As we in the South see it, only one thing is lacking in your entire administration - "A New Deal Club and Driver".

By Express today, I am sending you a Club and Driver, (Persimmon head and Hickory shaft.) The "Driver" for the N.R.A., the "Club" for the ten per centers. Guaranteed to crack any and all heads that cannot or will not see the light of your new deal.

Please accept with my compliments.

Truly yours,
