ARTHUR W. LITTLE
425-435 EAST 24TH STREET
NEW YORK

January 2nd, 1941.

dated 3-3 ??3

The President,
The White House,
Washington, D.C.

Sir:

Last Sunday evening I listened with grave interest to your address by radio, which had been announced in advance as a fireside chat, and which you in your opening words, assured us was to be no mere fireside chat such as we Americans had become somewhat accustomed to during the past seven years.

I am a National Guard veteran of a total of about 27 years active service, of approximately two years of United States Army volunteer service, and approximately five years of retirement service with availability of recall to the active list from the so-called supernumerary roll of the New York Adjutant-General's personnel---but I have never lost sight of the sentence accredited to George Washington, which is cut in the proscenium arch erected in honor of the Unknown Soldier at Arlington, which says:

"When we assumed the soldier, we did not lay aside the citizen"

Most respectfully to you, I report myself as ready to support your policies and programs as given last Sunday night by you to the entire country.

I wanted to send you this note the day after your address, but did not feel justified in intruding upon your time until yesterday, when in an informal chat with my old friend, Fiorello LaGuardia, I expressed my feeling, as I have indicated abive, and was urged by the Mayor to go ahead and follow my impulse. The Mayor further said in justifying his advice, that you were acting in accordance with the decision of a momentous sense of duty, and entitled to all the clearly expressed support in the field of international relations that could be tendered in truth, and he hoped I would follow my judgment of non-partisanship in my expression on this issue, just as I had in the reaching of my decision.

In driving down to my office this morning, I gave the substance of this letter to my chauffeur, Joseph McMahon, an Irish veteran of the World War, of more than two years foreign service, and his rejoinder was: "I hope you do write, and if you do, please tell him for me to send a hundred more war ships over there just as fast as he can get them ready."

I am, Sir,

Very Respectfully,

Arthur W. Little
Formerly Colonel,
369th U.S.Infantry

P.S. - I am giving myself the pleasure and honor of mailing you a copy of my book - "FROM HARLEM TO THE RHINE"---the story of New York's negro volunteer infantry soldiers.

To His Excellency,
The Honorable Franklin Delano Roosevelt,
President of the United States,
White House,
Washington, D.C.

Your Excellency:

I note with regret that the same subversive elements, which were so strong in the World War, are now opposing your noble efforts on behalf of suffering humanity.

I refer to the same people who were trying to assist in the Casement conspiracy and the shipment of arms to Ireland.

Under separate cover I am sending you a copy of the fable of "Perseus" or "The Art of Preparation for War." It is an Ancient Greek fable which was old in the time of Homer. In that fable it is stressed that in preparing for war the Commander in Chief must have a sole and absolute command.

Like the mouse in Aesopp's Fable of the Lion and the Mouse I shall continue to gnaw at any net of treason in a quiet and unobtrusive manner for I feel that in the words of Sophocles,

" I deem that man to be of no account,
Who loves a friend more than he loves the State;
It is our Country that preserves us all,
We sail in her,as in a well built ship,
Upon a Sea that may engulf us all."

I am an iconoclast rather than a hero worshipper, but in this I make an exception in favor of your excellency.

Yours very sincerely
Henry B. Lister

On the above date Miss LeHand referred to Mr. Summerlin for acknowledgment a letter from Lawrence I. Becker, 3-3-41, to the President. Mr. Becker is President of the Bahama Products Corp., West Palm Beach, Fla. He sent President Roosevelt 2 dozen Reef Brand Canned Bahama Rock Lobster from their company in Nassau. Says the owner Mr. Wenner-Gren of Sweden is the largest employer in the Island; believes this employment will keep the natives busy and create less fertile ground for agitation. "At a recent Bahamas Fair held in Nassau, Mr. Irwin D. My dear Miss Le Hand:

Attached is a letter addressed to the President of the United States of America and two booklets. These are sent to you, the guardian of his time and privacy, in order that you might determine their fitness and right to be called to the personal attention of The President.

Will you be so kind as to give a small portion of your valuable time to the reading of this booklet? I believe it to be the means of spiritualizing the American people with the meaning and fire of Democracy, and of immense value in the program of defense and national unity.

It is my hope that you will feel the message in your booklet and place the other in the hands of His Excellancy, Franklin D. Roosevelt, The President.

Sincerely,

His Excellency
Honorable Franklin D. Roosevelt
President of the United States
Washington D.C.

My President:

Will you give a few moments of your valuable time to a subject which will profoundly affect the future of the United States of America?

Attached to this letter is a booklet, "A WAY TO AMERICAN SECURITY," and a suggested plan of action to be used thru governmental or civilian agencies, in accordance with your desires.

As Chief Executive of our nation, you are concerned with the future of each American. The purpose of this booklet is to arouse in every individual a personal sense of duty and importance to the general plan of life and democracy.

This booklet fired with American Patriotism -- and developing personal Integrity, complete Unity, willing Service to our nation, should be in the hands of every American Citizen. The tests made on people from every strata of life, have shown that the reading of "A WAY TO AMERICAN SECURITY" has produced an emotional uplift that made them proud to be an American and anxious to render service in the preservation of American ideals.

Your knowledge of changing conditions -- of world affairs -- of things to come; your championship of right and justice has undoubtedly indicated to you that the way to preserve our life and ideals, -- against the forces of destruction sweeping the world -- is through the education of the individual.

This has been written to Americans -- for Americans -- and may I ask this great privilege of you, our leader of Democracy -- to read this booklet? I leave its destiny in your hands.

Your Obedient Servant,

Tom Lamb

The President of the United States

My dear Miss Le Hand:

Thank you very much for your letter of the twelfth instant and for your kindness in placing our patriotic booklet in the hands of the President.

We feel that we should explain our purpose and aims in more detail to you so that you personally may understand the reasons and the hopes behind the scenes of "A WAY TO AMERICAN SECURITY." The booklet has taken several months to compile and a life-time of practical experience is included in its simple message.

Our Democracy depends upon each individual of this nation, and as we strengthen each individual in principles and right living, we strengthen our Democracy. This booklet has been written plainly so as to be understandable to all, but it is profound and many of its sentences are founded deeply in the philosophy of right-thinking men throughout the ages. Already it has aroused enthusiasm among those who have been entrusted with a confidential copy. The booklet does not champion nor condemn, but presents to each person basic principles by the practice of which they may strengthen their lives, communities, societies and their nation.

It does not delve through historic mustiness nor prophesy with any ulterior motive in view. It is repetitious and designedly so, for it is by this repetition that the basic facts and principles are driven home to the ultimate consciousness and memory of all classes whom we hope will read this booklet. The second section is designed to give an outlet through service to the spiritual force and emotional uplift which the reading has engendered.

In the Volunteer Preparedness Plan for civilians, we have felt that this is a matter for the government to decide. Whether a movement of this sort be sponsored by private effort or whether it should be made to fit into the plans which the government now has on hand, this is a matter in which we do not presume to interfere.

We do believe, however, that "A WAY TO AMERICAN SECURITY" should be in the hands of every American citizen, our soldiers, and sailors, and the great mass of people upon whom Democracy depends for service.

We believe that this booklet will stimulate any preparedness or mobilization plan, and would like to cooperate in any manner which the President may desire.

Again thanking you for your kindness and assuring you of our deep sense of loyalty and obedience to your Chief and our Chief, the President, we beg to remain,

Sincerely,

Dear Mr. President:

I came to Washington today, in order to see you and congratulate you on the eighth anniversary of your first inauguration. However, I was deeply sorry to learn that you were laid up with a cold and that I could not see you. I had written to General Watson two days ago, asking for an appointment, but had not yet received a reply.

It would have been a great pleasure to have seen you personally and present the picture that I am now leaving for you. The artist only ~~finished it~~ last night, and therefore, it should be handled carefully, as it is still wet.

I expect to remain in Washington at Hotel Annapolis for the next few days, and would greatly appreciate a line from you, appointing a time when I may see you.

Your Eminence:

It gives me a good deal of pleasure to make this gift of three volumes sent under separate cover.
POETRY--the very spirit of the soul akin to all that is good in mankind, undoubtedly appeals to all both as an avocation and an urge, seeking the development of the art.

As an avocation poets often unobtrusively take the part of the chiding mother without intending to be impudent. POETRY as an urge expresses the beauty of soul in its genuine form often so distinctive that it renders itself important as a document of the times and the living soul that must be preserved in its pure form.
The poet like verdant growth needs FREEDOM OF ACTION unobstructed by obstacles. The literature of a nation as heterogeneous as ours though may be uniform, it still must be diverse expressing the various phases of the nation and its people. Dear Miss LeHand:

In a rotogravure picture of President Roosevelt's desk we notice there was a water carafe on a tray with two glasses.

The attached circular illustrates a desk cabinet paper cup dispenser that was designed to match the regular thermos sets. This convenience is appreciated on the busy desk because it holds a good supply of paper cups and at a meeting or conference, two glasses are hardly enough.

If you will let me know the finish on the bottle, whether it is mahogany - walnut - black or chrome plated, we will gladly send one as a gift. We make them in the standard colors as indicated on the back of the circular.

The Lily Cups can be secured from the Procurement Division who carry them in stock in Washington under a large contract with us.

This desk cabinet dispenser takes up less space than the two glasses and is as tall as the bottle. It fits right on the tray so we will not be taking away any more desk space than now covered by many of the interesting gagets shown in the newspaper picture.

Your Own PRIVATE *Cup Cabinet*

A message to executives:

For a refreshing cup of water.

Pressing business demands that you operate with the maximum efficiency at all times. Therefore, your desk equipment — pen holder — time piece — even your telephone — are more than conveniences . . . they are necessities.

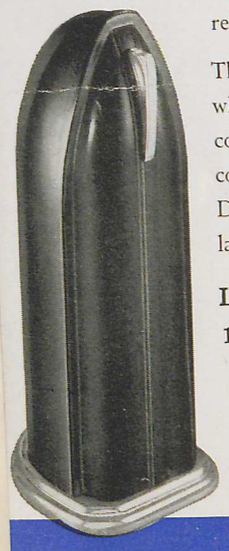

And now — as a fitting companion piece for your water carafe, the Lily-Tulip Cup Corporation has created for you — a modernly designed *Private* Desk Cup Cabinet.

It has many advantages. Just through its convenience, it will help you promote the healthful habit of six cups of water daily. It will eliminate "popping up and down" to the general office cooler. It will hold any size cup from 3½ to 10 ounces. Your secretary need only fill it once, and it will hold more than the day's requirements.

For a friendly cocktail.

The outmoded, exposed glass is a relic. Therefore, whether you are refreshing yourself with clear, cool water . . . enjoying noontime milk . . . or a cocktail with a visitor . . . open your own, private Desk Cup Cabinet, and a stack of fresh, immaculate Lily Cups is yours for the taking.

For noontime beverage.

I regret exceedingly that you did not receive advance notice of the shipment of one mounted antelope head, receipt of which has been acknowledged by your Secretary Mr. LeHand but our local taxidermist made the shipment for me.

This antelope was shot last season in our lower Powder River country in Johnson County, Wyo. and believing this one to be a very fine specimen of the entelope in this section, I took the liberty of having it specially mounted for you with the thought in mind you might find space for it in your study or at your home in Hyde Park,infact any place that you wish to place it.

This is my humble way of showing my appreciation and loyalty to this country of ours and to the man I greatly respect and admire in these trouble-some times and I sincerely hope you can accept same.

Dear Mr. President:-

We have just created two new items, one of our beautiful Capitol and the other of the Supreme Court Building, which in my opinion, exemplifies the glorious feeling every American has about their Country.

Please accept the plaques as a token of friendship and as a compliment to you for your untiring efforts and good judgement in the splendid work you are doing. You may count on my entire organization and myself to be 100% with you.

May you receive Gods most choicest blessings for your efforts to make this World safe for Democracy.

Sir:

The Linen Trade Association, comprising American business concerns engaged in the importation and distribution of linen products, celebrated its 50th Anniversary at a banquet held on May 2, 1941 at the Waldorf-Astoria Hotel, New York City.

For this occasion, there was published a souvenir booklet which contains, in addition to the program of the dinner itself, some interesting historical facts concerning the linen industry. This publication, bound in pure linen, was issued as a limited edition of five hundred copies. Each copy is numbered, and registered by our organization.

On behalf of the members of our Association, I have the honor of presenting to Your Excellency registered copy No. 1 of this booklet with the hope that it may be of interest, and suitable for your library. There is attached a list of the persons to whom the first ten registered copies have been presented.

Respectfully yours,

Dear Mr. President

Lieutenant (j.g.) Winter, a shipmate, recently showed me the volume "Neighbors Henceforth", written by his father about 1920-21. The message of this book, particularly part two and the appendices, will go a long way towards enlightening and crystallizing national thought on the duty which confronts our Country in current and post-war problems.

We present you with a copy of this book, feeling that it substantiates and emphasizes every phase of your program and of your leadership. We are also sending copies to the British Government, Mr. Willkie and Mr. Clapper as a matter of interest.

With our esteem and best wishes,

Dear Mr. President:

Will you do me the honor of accepting the attached copy of the July issue of The Log? This old established marine journal was recently acquired by Captain Miller Freeman, USNR, and has been completely rejuvenated in the interests of stimulating the national defense shipbuilding program and for the purpose of establishing a permanent maritime industry on the Pacific Coast at the end of the present emergency.

If you can find time from the tremendous burden of work now on your shoulders, I shall greatly appreciate receiving from you for publication in the August Log a personal message to the Pacific Coast shipbuilding industry.

Framed on my wall is a letter from you written to me on June 19, 1919 expressing appreciation of the useful work done during the last war by me through the journal Motorship, of which Captain Freeman was the publisher and I was the editor.

Respectfully and sincerely yours,

Dear Mr. President:

I beg to enclose a copy of the August issue of The LOG as I believe you will want to read the following articles of timely and of national importance:

1. When Hitler Laughs.....Page 3
2. Tankers--A Vital Matter on Both Coasts.....Page 5
3. Vexed "No Conversion Work Ruling by Navy Dept.....Page 16
4. First Ship for British Launched.....Page 36

The statement by a British shipping journal that tankers are kept in ports bunkering a vessel here and there until empty is quite a serious matter. This is to be found at the end of the article on Tankers starting on page 5.

The LOG is doing everything it can in a constructive way to expedite rapid construction of ships on the Pacific Coast.

Respectfully yours
