*Kennedy my

Dear Mac:

I ordered some avocados shipped to the President and to you and Steve yesterday. I hope that they will arrive in good order. These are the tail ends of the crop which ripens at this stage of the year; otherwise I would have sent you more of them.

Enclosed is copy of a statement I gave to the press today about the verdict at the polls yesterday.

I am leaving next Wednesday with the Special Senate Committee for the Philippines, but I shall see you when we get to Washington about the beginning of February.

Best regards.

Cordially yours,

McGuinness

WGM/c

November 7, 1934.

The Republican Party is dead.

The overwhelming Democratic victory means the renomination and re-election of President Roosevelt in 1936. The people are back of the New Deal and want the President to have full opportunity to perfect it. Carping critics and small obstructionists had better cooperate, or they will be run over in 1936.

The verdict of the people in the election yesterday undoubtedly means that they want a rational reorganization of our economic and social order, so that every law-abiding and industrious citizen may secure protection against poverty in old age and enjoy employment during the years of useful life. Old age benefits and unemployment insurance are two of the most important things with which the New Congress will deal.

No one can claim that the election of Governor Merriam is a Republican victory. He was elected by Democratic votes and upon his express declaration that he would cooperate with President Roosevelt in carrying out the New Deal. If he responds to the manifest sentiment of the State by giving a progressive administration, he will succeed. If he does not, the people are always here and ready to act. The tremendous vote polled by Sinclair shows the strength of the protest in the State against the reactionary and extravagant and wasteful administration the Republicans have heretofore given the State.

I think that Sinclair would have been elected Governor of California if he had consistently adhered to the Democratic platform adopted at Sacramento. Notwithstanding his defeat, the California verdict is for Roosevelt and the New Deal.

Warm Springs, Georgia,
November 19, 1934.

My dear Senator:

May I take this rather belated opportunity to thank you for the splendid avocados, which you were good enough to have shipped to me.

The whole family is enjoying them very much, and we sincerely appreciate your thought of us.

With kind regards,

Sincerely yours,

Dear President Roosevelt:

I have sent to you, with my compliments, a copy of "Tockwotton Eclectics" by Hugh Macmichael.

After three publishing houses had returned the MSS. I decided to have it printed at my own expense, thus giving at least some work to unemployed printers. Now comes the problem of making the work pay for itself.

However, regardless of whether or not I succeed in getting my money back, if you find a few spare moments in your busy life, turn to the leads on pages 37-64-171-210. What the Commissioners have to say will undoubtedly be of interest to you.

Sincerely yours

My dear President:

Under your guidance our nation and our people have been brought through a period of economic chaos which threatened the foundation of our government. The first year of your administration as President of the United States is outstanding in the annals of American history, and the American people will forever be indebted to you for your remarkable accomplishments in their behalf.

So interested have I been in your administration and realizing that you, as President, came to us as a savior of a people threatened by an unseen foe, I could not refrain from maintaining records of your first year's regime in the White House.

Because of the respect, admiration and esteem for which I entertain for our President, I am making an humble offer to reveal my appreciation of your outstanding accomplishments during your first year as chief executive. The scrap book depicts the first "mile stone" of your career as President which brought to a needy and suffering people, happiness, health and good fortune through your understanding and far vision in the interest of all Americans.

fma

If you will accept this token of my deepest admiration, it will gladden my heart, and it is my sincere hope that some day will bring to you an opportunity to glance through its pages which portray the great achievements of a great man.

My dear Mr. Roosevelt:-

I am enclosing a scrap book of the nine powers of the world today, how they are trying to adjust themselves to the machine age. If you will refer to my letters starting Oct. 14, Oct. 24, Oct. 31, 1932, when Governor of New York, also Nov. 17, 32, Feb. 13, June 13, Sept. 13, Dec. 13, 1933 and May 25, 34, you will find how simple it is to end this man made machine depression that is fool proof to all mankind.

The three great objects that stand before you and this great nation and the world, is MACHINERY, YOUTH and AGE, that we must balance.

Lets not worry about our debts or balancing a budget in this great world. Lets balance the people, and they will balance every known debt or in other words guarantee the man and woman a job over a period of their lives, and your factory wheels will turn forever. The faster that machinery works, that fast the hours must shorten and that fast the wages must increase, so we enjoy the fruits of machinery that is destroying our nation and the world today, that very few people understand. The base of our modern life today must be SALES TAX and Pension to all at the age of 50 years. The percentage base of the Sales Tax on every business will balance the machine, youth, age and every known debt to humanity.

The Sales Tax must be operated exactly like a poker game with a kitty. No matter how much you win, the longer you stay with the game, the kitty will break you. What we want to do is to put every human being in this game and keep them in, regardless of their age, race, color or religion, and Franklin D. Roosevelt must be the kitty, and then distribute it to our 50 year age people, that have done their duty for their family and country, that man forgot to do for himself and neighbor. This 50 year age alone will turn every wheel of industry on a more sound base.

Fear nothing, go forward, we as a nation will stand back of you for justice, to free all mankind in this wonderful country and the world that man will regret to leave this world someday, that he forgot to do not by War to destroy, but with peace to all mankind, I remain
