We are delighted to know that you and Mrs. Roosevelt are enjoying good health and we rejoice in your efforts to return our great Country to prosperity.

We are sending you eight Democratic Congressmen fron Los Angeles County, all that it is possible to send, including our lovable old friend, John Steven McGroarty, who sings your praises in his column in that atrocious paper, the Los Angeles Times.

May you and yours be bountifully blessed with all the good things of life for many future Thanksgivings.

My Medal

'Tis only a scrap of silv'ry ore,
Yet more than treasure trove,
For Mary herself has giv'n to me
Freely this sign of love.
Her image is there with outstretched arms,
Cross and the Hearts Divine,
A Heart that is pierced with sharpest blade,
Thorns do the Other twine.

'Tis only a scrap of silv'ry ore,
Mark of a Mother's care;
And on it she graved in simple words,
Simply a Mother's pray'r:
"O Mary, conceived without a stain,
Void of our sin's decree,
Pray for us now and ever more
Having recourse to thee."

'Tis only a scrap of silv'ry ore
Hanging upon my breast;
But with it come peace and golden joy,
Mercy and final rest.
So leave to the world its tinsel wealth,
Power and groping lore;
But let me retain my tiny scrap,
Scrap of the silv'ry ore.

LIEUT. COMDR. FRANK V. MARTINEK, U. S. N. R.

Called 12-11

December 5, 1934.

The Honorable Franklin D. Roosevelt,
President of the United States,
Washington, D. C.

My dear President:

In 1917 you, as Assistant Secretary of the Navy, called on Admiral Roger Wells, Director of the Office of Naval Intelligence, to have a secret cipher message deciphered. It was turned over to me, in as much as I was head of that department. The message was deciphered in fifteen minutes. When it was turned over to you by Admiral Wells you laughed and made the following observation:

"I just wanted to see how efficiently the Code Section of our Intelligence Department was functioning."

This was an inspiration to me and an experience I will never forget. Since leaving the service I have created the character known as Don Winslow, U. S. N. who is now running in over 50 newspapers in the United States on the comic page.

Don Winslow now appears in the flesh in my first novel, "Don Winslow In Ceylon." Knowing your keen interest in Naval matters and adventure yarns, I hope you will like Don Winslow and trust that it may relieve you of the tension and pressure under which you are laboring. To me you are the modern Moses leading us out of the wilderness. May you be protected and guided by the higher Power, until your miraculous work is finished.

Respectfully yours,

My dear Mr. Roosevelt,

I am sending you a gift, which is in this envelope, for a Christmas present. This is the nicest and the best gift anybody could receive. Please always wear this. It is He who helps us, and protects us from all danger, as when we ask a favor from Him. My five brothers, and two sisters helped me in selecting this gift. I hope you will succeed in your plans, to bring this nation of ours back to prosperity. I also will offer my prayers for you so you may succeed. May God bless you and protect you.

I Wish you a Merry, Merry, Christmas, and a Happy New Year.

My dear President.—

I dont know wether I am breaking any rule of ethics by offering you this humble gift in appreciation for what you are doing for the common man of these United States of America, in an effort to get business to estimate the value of the wage earner with a little more generosity and to establish some security for his family but my heart was full for you and I have taken this method of expressing my gratitude.

Superlatives have little value in expressing my thoughts, suffice to say that the writer is a one hundred per cent Roosevelt man and yet a Republican. However I have come to the conclusion that the Republican party is the Aristocratic party, the rich man's party and any one of the middle class who follow the Republican banner are only fooling themselves. The Democratic party under your leadership Mr. Roosvelt have proven a true friend to the poor and of the wage earner.

For that reason alone, I expect to be listed as a Democrat by 1936.

Keep your chin up in regards to the T.V.A. and keep plugging and never soften. Don't let big business get you down. I know they would love to hang or drown you, but, with an aroused public opinion they don't dare. Regarding troublesome T.A. make it more troublesome if business doesn't cooperate and they most certainly are not. This country could be an Utopia would business cooperate but they wont Mr President. Business is too sick with that human ailment "Greed."

One of the sore spots in the nation is the attitude of Industry to labor but this country has plenty of men with constructive ideas which breed goodwill in place of the usual distrust and one of the foremost in my opinion is Owen D. Young. Then there is Father Coughlin a sincere and zealous champion of the oppressed. This country is most certainly not shy of good sensible intelligence for constructive criticism along these economic lines. Father Coughlin may be too harsh but his fundamentals are excellent and I hope that you steal some of his ideas at least into your designs.

Futhermore President Roosevelt, don't let these Public Utilities cow you. You are doing a wonderful jot, a superhuman jot and I pray God to give you the jphysical, moral, and intellectual power to ever drive foreword. May the strain be not too much for you and God bless you.

I wish you and Mrs Roosevelt a very happy christmas. I realize that many are indebted to you and your administration for the Merry Xmas they are to enjoy this season.

May you have a friendly Congress who will function in the Roosvelt manner without friction and without exacting too much from such a grand and noble President.

With nothing but the best of thoughts for your success

I remain just an ordinary citizen.

Most Sincerely Yours.

Percy M. Moore.

My Dear Mr. President:-

A little gift to you, it's so small, but it is holy. It came out from the ribs of the Ced Ironsides. I am the proud owner of a small block of the precious wood, which was donated to me at my Evanston exhibition. Thought I could spare a little piece of my heart to build the smallest swinging frame. Designing the poste as George Washington monument, with the eagle above your smile. I think so much of the precious ship, that I even enclose the sawdust, and shavings of my chisels in a glass tube at the base of the frame. To express my appreciation, which a single word of yours, carried my model of the Constitution to one of the best parts of the Century of Progress. You may recall my

model at the White House August 1933.
After leaving Washington, I gave
several exhibits, with lectures for
the old ship, thru those lectures I have
met many prominent people, heads
of Board of Education, presidents of
schools, and individuals. They all
think it a fine deed, for a man
to come thousands of miles, to
devote his time, for our Old
Ironsides. Anyway my hopes are
great for my model will save me
someday, like the old ship
saved this country in its most
critical period.

My letter is kind of long,
so kindly overlook it.

Hoping that my gift will
find a warm corner in your heart.

Wishing you a Merry Christmas

Dear Mr. President:

Your very prompt replys to my letter and pictures at hand. Glad to hear you were pleased with the pictures and I can easily realize what the pressure on your time must be.
I am making up an Album of Great Lakes Marine pictures and will mail you one in the near future.

It was a pleasure to read, on the second Anniversary of your Inauguration, a statement for a Merchant Marine Subsidy.

America must keep her place on the "Seven Seas" and not forget the struggels and hardships of they who placed it there.

The American boy when properly trained can hold his aboy with the best.
Graning and Discipline is an absolute necessity as several disasters of late have proved.
Both can be accomplised without the abuses of the past.

The Sea Scout and Coast Guard is a wonderful thing for the American boy, but if only something like the C.C.C. could be worked out for they who wish to follow the Sea.
There are so many Sea-faring men with nothing to do who could train them.

To draw the trade and business one must have as good and better ships than the Competitors in order to hold out.
The same applys to personnel.

Prevention of fire and accidents, also living conditions can always be improved upon.

There is also room for improvement on Waterfront conditions. What is more beautiful than a nice appearing Harbor or River frontage?

Since Congress opened the criticism against you has been raw and unfair. However that is what makes one face forward and fight. They who can do it with a smile will win.
I am sure you can and will!

I think one question that everyone should put to themselves is: Not only what Washington, Jefferson and Lincoln did but also what would they do if confronted with the problems of today.

The outstanding point of all past leaders was a good Character.

I am sure they would not stand with several Would-Be leaders who are working upon the emotions

of the people, causing them to think from the head rather than from the heart.

"Looking Forward", "On Our Way" and the Philosophy of One Man should be given some considerations.

Among some one hundred and thirty million people there is a great deal of common-sense. I am sure the many who will vote for your re-election will prove that.

During the post-War era everything came Easy, for one and all. We let ourselves go enthusiastically beyond the limits of good reasoning, with little or no thought for the future.

Today we need more Constructive and less Destructive Thinking.

As I see it, the people must be helped to help themselves. Leading them to beleive that the world owes them a living, without any effort on their part will make weak men.
During the boom years there were some who had nothing and made no effort for improvement. They must be taught to have courage and push forward doing unto others as tho they were the others.

Boys with no training and an education easily "gotten" were placed ahead of men with experience, good Character and the will to do.
The result was to put a Superiority Complex in one and an Inferiority Complex in the other. Today there is a wall between the two and we have been taught that a house divided between and against each other cannot stand.
Speaking of goverment I have wished there would be a coalition goverment the next time, with you as their Leader. There are good men on both sides

In a country that is the melting pot of the world, too little attention has been paid to the melting and welding process.

Industry has done so much to build up everything except the Character and Welfare of the personnel. Chiselers have gone ahead by cutting down on their fellow-man.

The Leaders of industry today have nearly every race under the sun to contend with plus the actions of each and everyone of us. Some faith should be set other than the radical ideas being taught.

I have passed up my sailing career and will try to put some thing over for an understanding between Labor and Capital.

Will locate here at Lorain and try to take an active part in Sea Scout work. Its an ideal location for it.

Have you had time to read: "Ships and Men They Sailed the Seven Seas" by Van Loon.?

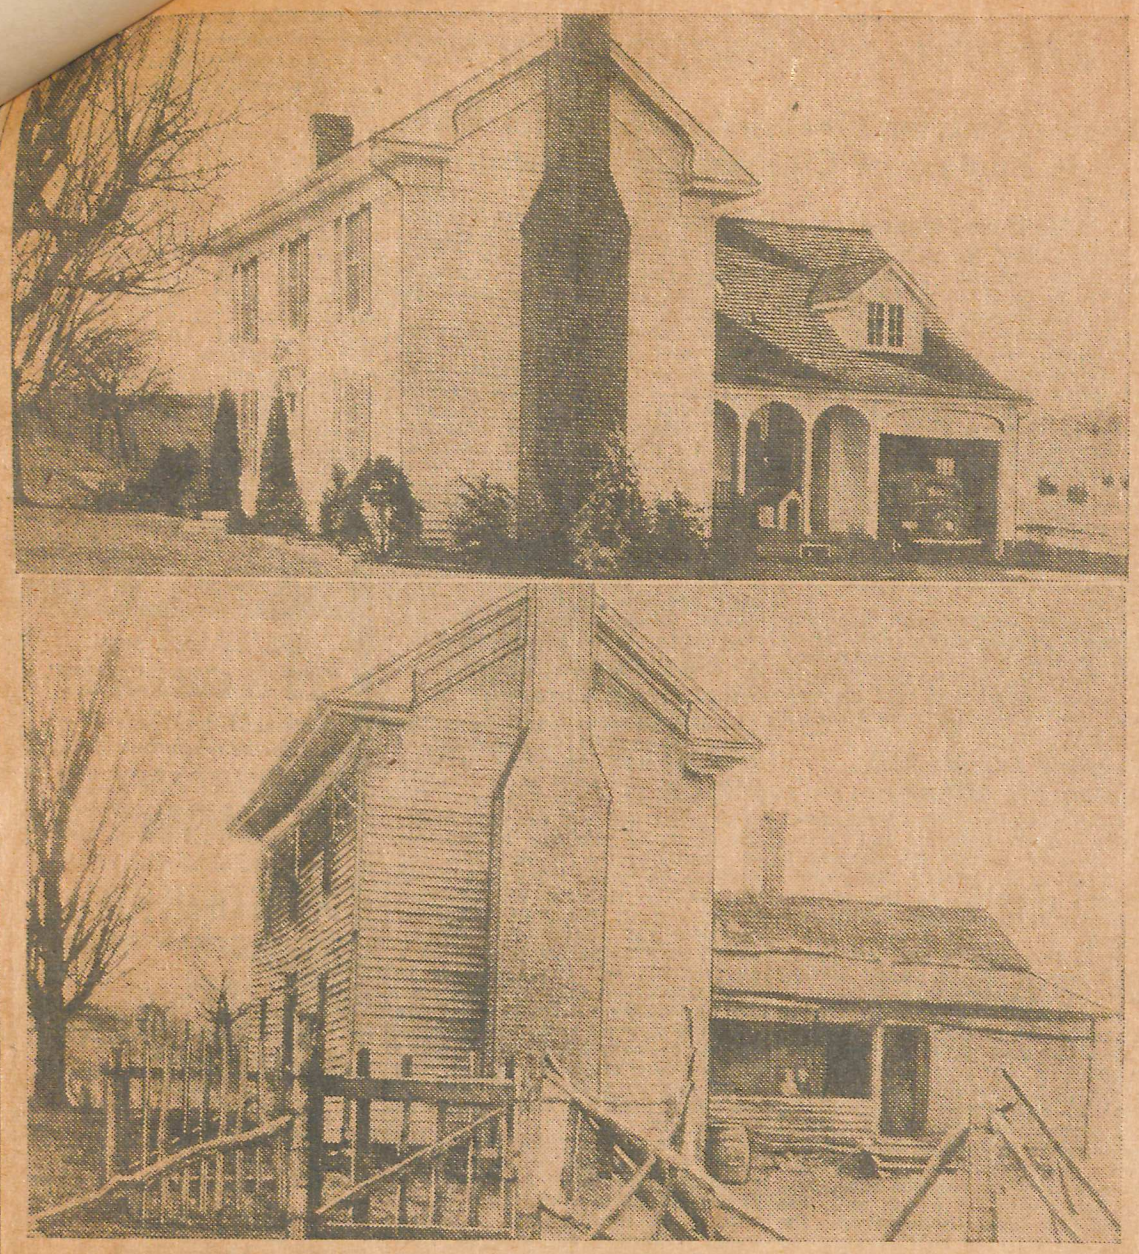

Wishing you every Success and an early vacation from the trying ~~days~~ of the past weeks.

Respectfully and Faithfully

Angus MacLean.

Great Pres. liked pictures - will shortly send album of Great Lakes marine photographs -

Approves merchant marine subsidy - would like organization similar to CCC for boys interested in the sea - advocates harbor improvements to supplement home improvements and fire prevention - stresses need of constructive thinking - Has wished for coalition government with Pres. as leader - Feels need of character-building should be emphasized - Inquires whether "Ships, etc" has been revised -
