Dear Mr. President:—
With our esteem for you, and
as an expression of our confidence
in the New Deal. It has
provided more things to be
thankful for on Thanksgiving;
many more hearts will be
lightened because of it on
Christmas Day; and it
assures a more abundant
life in the New Year.

Dear Mr. President.

In the year of 1932 when you
were on your campaigning tour I had

the medal I stated that you would
positively be elected and I do
say that you will positively be

My dear Miss LeHand:

By this mail a book, "The Conquest of Death", is being sent in your care for the President. You have been kind at other times in having messages reach the President and I feel this is the most important one of all.

The ideal for which the President is fighting, a scientific democracy, is shown in this book to be the next logical step for mankind in conscious evolution. Steinmetz, Edison, and many other scientists have stated that the next startling discovery would be in the mental and spiritual field. I believe this book is a step in that direction.

Sincere good wishes.

Your letter of September fourteenth, addressed to Mr. Howe, has been received. Just now he is under the physician's orders, taking a complete rest. I am glad to be able to tell you his health is improving and we are hoping that in a little while he will be able to assume some additional official duties.

That is a very friendly wish of yours to send the President a buck deer, shot on White Face Mountain. He is just on the eve of departure for an extended trip so cannot use the deer, but you may be assured of his appreciation of your kind thought.

Mr. McIntyre referred for appropriate acknowledgment, letter of Sept. 14, written the President by President Moscicki of Poland, and left by Mr. Adam Koc and the Polish charge d'affaires when they saw the President. President Moscicki writes that Poland takes pride in sending on her maiden voyage to America a new ship, MS PILSUDSKI, built with the aim of fostering relations between the two Republics, and carrying the warm wishes and faith of the Polish Nation. - Attached is a list of water colors, entitled "George Washington and His Times", - 38 illuminated miniatures by Arthur Szyk, depicting incidents of our War for Independence, in which Washington was so generously and ably aided by Kosciuszko and Pulaski. - William Phillips, State Dept., replied Oct. 31, enclosing draft letter, saying if it is returned he shall be glad to forward it to our Ambassador at Warsaw for delivery. - President signed letter Nov. 2, thanking President Moscicki for his wishes and his gifts, saying the MS PILSUDSKI bore on her return voyage to her homeland his hearty greetings, and the earnest hope of the American people for the continued blessing of peace and prosperity for the Polish Nation. This letter was returned to the State Dept. on Nov. 4 for delivery through diplomatic channels.

Sends copy of Gordon Grand's book "Sail Ho" (retained); calls attention to old sailing ships in San Francisco (Alameda harbor) that could be used for taking young boys on cruises. Understands they have been sold to Japan to be reduced to scrap iron; deplores this, for believes they could be put to better use.

My dear Mr. Roosevelt,

In answer to your request — I believe that you are trying to let the counsels of Christ find impact upon the tangled social, economic and political life of this nation — and of the world — Therefore I believe you are ~~are~~ a strong influence for mellowing the threatening earth-wave of revolution into the safer ^{channels and} ~~methods~~ of evolution.

And I so testify freely and insistently in all my political contacts and discussions as a citizen.

How much and how far "social" objectives should be countenanced by "government" I am not prepared to say. No one is. The event will have to prove — and justify — itself.

P.H. I have recently received two books from Licenciado Don Carlos Trejo Lazo de Tejada from Mexico City. One Educacion Socialista & the other "Norte Centro Sur"

The latter is a tremendous indictment of Wall St. I feel that you would be interested in the Latin American viewpoint. I am writing you to send you these books.

His work as Gov of Baja Calif reminds me much of your own in dealing with social problems. Don Carlos is the act standing intellectual of Mexico City, Hon Minister of Education under Huerta, Embassador to several countries & the outstanding Governor of Baja Calif. I feel that you two have much in common in the mapping out of a social course for the two Republics.

My dear President Roosevelt:

December 2, 1936.

Together with a few letters I am sending to you
a picture of my Unofficial Project which awaits your Personal
Inspection- time-one-hour.

In creating the original I was directed by "A Still Small Voice"
whispering in my ear; telling me to search the Scriptures; in
doing this I learned The Truth concerning many things- a few are
illustrated in the Miracle Quilt.

^{Mrs. Carr B. McClenny,}

Should you find my tribute to democracy worthy I will be more
than pleased and the people will be given something worthwhile
to think about. ^{Mrs. McClenny:-}

Thanking you for the opportunity of bringing to you this "Needle-
Picture" and tell to you the story in as few words as possible,
I am, sincerely your co-worker in making a better and safer
abiding place for our people,

In his official position our President
has had the opportunity of seeing the efforts of many men and many women. I am sure that he,
too, will be impressed by the evidence of skillful craftsmanship
gone into this splendid piece of work, which is the
product of your hands.

MACCLENNY.

My dear Mr. President:

I take the liberty of sending you under separate cover an autographed copy of Carter H. Harrison's autobiography "Stormy Years", which interestingly and truthfully depicts the political history of Chicago during the five terms he was Mayor of our city. Mayor Harrison is, as you know, now Collector of Internal Revenue for this district.

I enjoyed seeing and hearing you on your recent flying visit to Chicago.

Very sincerely yours,

"Mr. & Mrs. President,"

Please except this patch quilt, as a "Christmas" present. and as a token of gratitude. We most certainly appreciate the good you have done for our country, and for us. If you care to read on. I will try to introduce my-self, and Wife, My Wife Mrs. Thursa Majors, made this quilt, by hand, and alone. And possible you can use same. in your servant's quarters at least. and my purpose of an introduction is, I don't want you to think that I belong in this strong Republican, strong-hold. of Philadelphia Penna. My-self wife, and family are all ardent "Democrats." I have always been a "Democrat," not over have I ever voted any other ticket. even though I have been given a dirty deal "here," by a "Republican" Magistrate, Not that I was arrested for any offence. just a little nabor-hood quarrel, among our children, I was ordered by Magistrate to vacate my residence before November 1st this year. I did not bow out. and my land-lord was a Republican also. and he informed me. he could do nothing, in my favor I had to change my residence, and I am aware of the fact. I lost my vote in our last November

action, it was done all for a political purpose
I am sure. Mr. "President," I am four years older
than you. My Wife is exactly your age. We are the
Parents of thirteen "children." We were both orphans
at the age of nine years old. And neither received
an education. and Please my poor writing and also
poor grammar, We have always been very poor, financially.
I have raised my family, by day labor, and that
is all I have been able to accomplish. I have
never possessed one hundred Dollars at any one time
in my life. I have been on the relief here, for almost
the past three years, I have a "Son," at home with me,
who is just 19 years old. He, is now employed on a
P.W.A. job. WE receive no more relief. excepting his
wage \$60⁵⁰ per month. I am registered as a Carpenter
I haven't received a call, there can only one of each
family receive work, and possibly my age hinders
me. And this is the reason I have no more to offer
for a present, My gift would have to be something
home made. And hoping you and Mr. Roosevelt will
except same. As well as our many Wishes for you
and Family a Very Very Merry Christmas and Happy
New Year. And here is hoping you are successful
in this coming year.

Dear Mr. President;-

I am sending you by parcels post today, a waste basket that has been made for you by a negro man on St. Helena Island S. C., this he is sending with the seasons compliments.

The basket is made from reeds that grow in the edge of the salt water marshes, and the split heart of palmetto leaves. This man is the foreman of a group of old women and men who make them under your Relief program, and they work very happily at their task.

David Moultrie, Frogmore, S.C. is the address of the doner.

I assure you of my appreciation of the work I have received as Sewing Room Supervisor for Beaufort County, S.C., and wish you every success in your administration.

With best wishes of the season, I remain,

Very respectfully.
