The white is Hickory.  
The stock is walnut.  
I hope that you will let

Dear Mr. President:

Miscell

In connection with your present proposals for national defense, I beg to suggest that, should there be any question of the right of the United States to fortify the Panama Canal, the "Isthmian Highway" (by the undersigned) fully discusses the subject. I quote the author's conclusion on the subject from page 164, referring to the changes made in the Clayton Bulwer Treaty, by the Second Hay Poncefote Treaty, as follows: (quote)

"The changes here, insofar as they are of substance, consist of two omissions. First, the words "in time of peace" have disappeared from Section I. This means that, if there were war, the United States, at its discretion, might close the canal.

Secondly, the words, "no fortifications shall be erected commanding the canal or the waters adjacent," have been eliminated. The United States has the right to erect such fortifications."

You probably have a copy of the "Isthmian Highway" in the White House library, though as a close student of such matters you are, I am sure, fully familiar with the entire subject. I am not being so presumptuous as to try to inform you of something you already know, but to suggest that the rest of the canal bonds, amounting to several hundred millions of dollars, be now sold and the money used to erect these now absolutely necessary fortifications and in the language of the treaty to "protect" the Canal.

I would be glad to talk this matter over with you some time but have long since given up all hope of ever getting an interview. I am proud to say I have been able to interview every President since McKinley, and it never took six years. I am afraid I am on a black list at the White House.

Very sincerely,

Hugh Gordon Miller

FEDERAL BAR ASSOCIATION

RESOLUTION CONDEMNING THE PERSECUTION OF THE JEWS IN GERMANY,  
offered by Hugh Gordon Miller and unanimously adopted at the  
Federal Court House, New York City, November 18, 1938.

WHEREAS, We a free people are here peaceably assembled at an  
Aeronautical Law Symposium being conducted by the  
Committee on Aeronautical Law of the Federal Bar  
Association of ~~NY~~ New York, New Jersey and Connecticut,  
and,

WHEREAS, We are all grateful to be in this land of freedom and  
opportunity, and

WHEREAS, We are shocked and grief-stricken over the ~~cruel~~,  
barbaric and inhuman treatment being accorded to the  
unfortunate Jewish people by the German government  
in Germany.  
Now, therefore, be it

RESOLVED, That we strongly and bitterly condemn such ruthless  
action by the German government and further, that  
we heartily approve the action of President  
Roosevelt in voicing officially and in behalf of  
all our people of every racial extraction, and  
every religion, and all political parties, the  
horror and indignation of the American people  
at such unspeakably inhuman and barbarian conduct  
of a government claiming to be civilized, and urge  
~~the government~~ that unless these undenied abuses  
and persecutions are halted and corrected and indemnified,  
this nation sever all diplomatic, economic and professional  
relations with Germany and do the same to any other  
country which copies such barbaric conduct. That we  
condemn also the persecutions by the German gov't of  
the members of the Christian religion in Germany. Our  
condemnation is directed against the Nazi government  
and not the German people.

RESOLVED, That a copy of this resolution be sent to the President  
of the United States, the United States Department  
of State, and the American Jewish Congress.

About that schooner - I am not

up the letter I forwarded you, and  
built up the story from it.  
I was assured by Pina Chelalier  
that we would go ahead, and

my idea was to create a beautiful  
little schooner for President  
Roosevelt - When the Press  
said Mr. Pina Cavalieri, he  
said - the story was without

he said in his letter.

I am very sorry it all happened

Will you please return the letter

A Most Amazing Book!

# THE HISTORY OF THE ORIGIN OF ALL THINGS

Being

"A Spiritual History of Mankind"

Eighty-four years ago in the city of Poughkeepsie, N. Y., a manufacturer and business man named Arnold, a member of the Society of Friends, received through the inspiration of the Holy Spirit a series of writings which in 1852 he published under the title, "The History of the Origin of All Things."

Both this and a second edition of 1883 are now out of print. Recently a copy of this second edition, perhaps the only remaining one, came into the hands of the present editors, who, being greatly impressed with its value and of the urgent need of humanity for the teachings and revelations contained therein, are issuing and making available in two volumes a revised edition of this unique work.

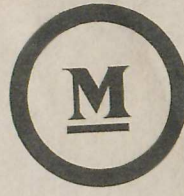

A striking feature of the book is the prophetic statements concerning the future destiny of the United States—prophecies which are even now being fulfilled.

*A Few Representative Quotations*

**REVELATION**

"I desire to have all men seek to know God and Me, His Son the Lord Jesus Christ, by prayer and by receiving in answer a revelation of truth. I desire to have you seek for this revelation each for himself and each in his own heart. For if God has power to speak to man, He will exercise it under such circumstances. Many of you believe or profess to believe that revelation ceased long since, but you cannot find any authority for such a belief in the Bible. You judge rather from the fact that it did not come with outward signs as formerly. But the power of God is no less, and however long the rain may be withheld it comes at last and is received by the parched ground joyfully, and a return at once is made by the springing up of plants in places barren before. Thus it should be with men spiritually. There has been a drought of revelation. For a long time it has been restricted, not by the will of God but by the perverseness of men. What men did not desire was not given . . . This book is revelation."

**PROPHECY**

"No spirit, not even God Himself, knows what any man in the body will do, because man possesses free-will. But inasmuch as God and His high spirits know what has been, can see and know what is, and can perceive all the causes now existing which might influence the future, a judgment nearly sure may be formed as to what any man will do throughout all his life. And as God and His high spirits further have power and will to affect man's reason and urge his passions or propensities or incite his aspirations, they can secure such outward results as it may please God to resolve to have occur. So far we go and so far God goes, not because of the impossibility for Him to go further, but because His will is that He will not and that we shall not go further."

**HISTORY and NATURAL LAW**

"When matter was chaos, a state to which it had progressed from nothing, it continued to progress into order. Order established the foundations of the astronomical systems, and in order they continued to progress or develop. From one confused chaos, pervading infinite space, there resulted heavenly systems of universe, systems of suns, systems of planets, primary and secondary. These various innumerable bodies all experience the Divine care and partake of the Divine love . . . All are habitable, and all are inhabited—some by beings higher than man, some by lower orders only. Does God, then, reserve man, or that family of men placed on this earth, as the only order of beings worthy of His care? Is it for man that all the starry globes, twinkling from afar, exist? Does man require that God should Himself descend from the seat of His power and the home of His love; from pervading the whole universe of universes, illimitable, incomprehensible by man, to dwell in one body, to concentrate Himself to one soul and that the soul of a man? What must be the presumption of a being like man to require this?"

**MORALS**

"You may think that if a man does good it is of no consequence what his motive is. So it is to the recipient, but to the doer it is of great consequence, for he reaps as he sows. If he sows for men's approval, he may get it, and that is his sole reward. If he acts for God's glory he receives a return from God, proportionate not to the good performed, but to the intention to do good. So you can see again how much surer is a man's reward who works for God than if he worked for men. For men always give the glory in proportion to success; God gives it in proportion to intended accomplishment. In the one case the man is rewarded according to his desire if he succeeds; in the other, whether or not he succeeds, his reward is the same. Here is another great inducement to choose God for your Guide and Counselor and King."

SECTION 562, P. L. & R.

It is one of the out  
of print editions  
which was brought  
to me in a most  
mysterious way,  
about two years  
before Mr. R. L.  
Newcomb republi-  
shed the revised edition.  
I however, received only a  
loan of it. When it was taken  
from me, I had bookhunters  
in search for it. It took them  
a year to locate a copy, and  
the price was very high for  
my financial circumstances.  
But I sacrificed other necessities.  
As perhaps, I would never  
be able to find or buy one of  
these old copies, I cling to it.  
Respectfully yours  
R. A. Linden
