January 6, 1942

To the President of the United States of America:

I am sending to you, under separate cover, our 1942 calendar, and find genuine pleasure in being able to do this hoping you will accept the calendar with my compliments.

This year's subject, "The Minute Man", was selected as a constant reminder of his sacrifice in the past and his contribution to Today's Defense Program. It is a faithful reproduction from a photograph of the original statue by Daniel Chester French. The monument stands in Concord, Massachusetts.

A work from you advising of the safe arrival of the calendar will be appreciated.

Sincerely yours,

Carl W. Moebius

My dear Mr. Camerlin:

Your letter of January twenty-sixth to Miss LeHand has been received and I want to thank you, in the President's behalf, for your kind thought in writing and sending him the card of birthday greetings and the medal which you enclosed. I know he would want me to extend to you his very best wishes for your birthday, which you also celebrate on the thirtieth.

I am indeed sorry that we are unable to meet your wishes for the President's signature. Because of the tremendous pressure upon his time it simply is impossible for him to comply with the many requests of this kind which are being received.

Hon. Franklyn D. Roosevelt,
President of the United States,
Washington, D. C.

My dear Mr. President:

The parcel to which this letter is attached contains a hand crocheted American Flag and a hand crocheted streamer with the closing words of your war message to Congress, " So Help Us God ----- President Roosevelt's War Message."

Mrs. James Macaluse, 73 Hopkin Street, Mount Morris, N. Y.

wants to present these to you with the humble hope that they will strengthen your belief that all Nationalities pray for you and trust in you in your role as President of the United States and the defender of the democracies of the World.

Mrs. Macaluse, the mother of five children, arrived in this Country when she was less than two years of age. She is highly respected in our Community. Not being able to read or write she often wondered, while her children were studying their lessons at home, just what she could do to show her appreciation of the benefits that her adopted Country had given to herself and her family. Being handy with the needle she wondered if she could crochet the Flag. Not being able to read or write presented difficulties that were soon surmounted when she outlined a Flag with red and white kidney beans and so obtained the proper proportions. Since her first venture she has crocheted many articles of a patriotic nature obtaining her ideas from pictures in the papers.

(2)

Since war has been declared she has invested the money that
formerly went for sewing material into United States Savings Stamps.

Mrs. Macaluso and I both hope and pray that God will help
and bless you.

Very sincerely yours,

Dear Mr President,

Enclosed you will find
one of the two (2) Flags that was the first
to Fly the Atlantic Ocean.

As you was in charge of Aviation
during the first world war, I thought you
would like to have this to put in your
Museum, at Hyde Park.

I was in the U.S. N. Air Service during the
war and in 1919 was ordered to duty forth
N.C. Flight, was at Trepassy Bay New-Jersey
and Plymouth where the Plane was Disma
and returned to U.S. in the U.S.S. Argosy, and
this is where I found this Flag with one
other, and who has it I do not know.

I am offering you this for you can take
care of it, where I have no way to preserve it.

Hope you will accept this as a little
Birthday Token, from me than send with
you in 17+18 and 33 to date,
yours very truly

My dear Mr. McKee:

The President has noted with a great deal of interest all that you say in your letter of January twenty-seventh. He is more than pleased to have the flag of the NC-4, as well as the photograph and leaflet, and wants you to know how much he appreciates your friendly thought in sending these mementos to him as a birthday remembrance.

Very sincerely yours,

GRACE G. TULLY

Washington, D.C.

Dear Sir:

Under separate cover we are mailing you with our compliments, a sample of Iowa's newest dairy product, Maytag Blue Cheese.

Although 100% American and not an imitation of any other cheese, Maytag Blue Cheese rivals in flavor and texture some of the highly prized imported varieties now cut off by the hostilities. Credit for the process of manufacture belongs to the Iowa State College. Its research department has long contended that Cheese of superior quality can be made in Iowa from Iowa products.

The process, which is patented by Iowa State College and licensed to us, is carried out in a new plant especially built for the purpose and staffed by men trained by the College. The name is derived from the edible Blue mold (penicillium roqueforti) with which the cheese is cultured before being ripened in cool caves at our home farm.

Maytag Blue Cheese will henceforth share our efforts with our purebred Holstein herd which has been exhibited throughout the United States and Canada and from which breeding stock has gone to most parts of the World. We pledge our friends the same careful attention to our new product as has been accorded the "Maytag Dairy Herd", in the past.

We hope you will like Maytag Blue Cheese and will appreciate any comment it may inspire.

Respectfully,

MAYTAG DAIRY FARMS INC.

My dear Mr. Campbell:

It was kind of you to send the President the cheese to which you refer in your letter of January twenty-seventh. You may be sure he will appreciate your courtesy.

I am sorry to have to advise you that the President is unable to make any comments such as you request in the last paragraph of your communication.

Very sincerely yours,
