9-M

Wrote to Miss Tully referring to their correspondence on Apr. 10th wherein he stated he would send the President two volumes "Tales of a Grandfather," both of which carry the inscription "Edward Delano from his affectionate brother Franklin, 1934." Writer finds it possible to get away for a few days and would like to present these volumes to the President personally. Further states that his friend Mr. Charles McCoy has completed his work which he calls "Blueprints for Freedom" which is a complete set of blueprints for the Post War World. Mr. McCoy would also like to present this to the President at the same time. The writer would like to know a convient time to come to Hyde Park and also when Mrs. Roosevelt will be there as his wife would like to meet her too. - -Letter to Miss Tully dated Aug.8, 1944, from Mr. Alden S. Condict wherein he further states that Mr. McCoy's sister and brother-in-law would like to accompany them to Hyde Park to present the gifts to the President and Mrs. Roosevelt. - - Miss Tully on Aug. 24, 1944 replied stating that the President is most appreciative of his offer to present him with the two copies of the book containing the inscription "Edward Delano, from his affectionate brother Frank, 1834," and he would be delighted to have the other items "Blueprints for Freedom" which Mr. McCoy has offered him. Further states that the President wishes it were possible to arrange to have Mr. Condict present them personally but because of the accumulated work in his absence from Washington it is not possible to make any appointments except those that are strictly official. Miss Tully states that in view of this, that perhaps Mr. Condict would be willing to forward the items to the President.

Dear Captain McCoy:

May I, in the President's absence, thank you for your generous gift to him. As you have seen by the newspapers, the President is now away from Washington.

When he returns, the President will be delighted to find the water colors of Bob Bartlett's old salt banker "Effie Morrisey" and the racing schooner, "Gertrude L. Thebaud". I am sure, also, that nothing would give him greater pleasure than to take the helm of Bob Bartlett's old ship as you suggest.

Dear Mr. President.

Will you please accept the two water colors I sent by mail.

Bob Barletts old salt banker the "Effie Morrisey" is fitting out for her cruise to the far North - while the racing schomer - "Gertrude L. Thebaud" will soon leave for West Indian frighting trade.

Dom there she will meet her old rival the "Bluenose".

Perhaps there will be a real race - vessels loaded with

shouting Negro plantation help-
Bunches of bannans in the
rigging- calms smelling of
sweet sugar cane, These two
crack fisheman will go tearing
thru the islands, driven by
the steady trade winds.

—

Wish you could take the helm of
Bob Barletts "Morisey" - and feel
the pull of her main sheet as
she dives - to the Northern crisp
air, and live the life you love -
And then for your "tuck at the Wheel"
on your next voyege in our "Ship of State".

July 24th, 1944.

Dear Grace:

I spent the week of the 9th of July on the Chat River, Quebec, salmon fishing, and got the thrill of my life, in my seventy-fifth year, killing my first salmon. I had the proverbial luck of the beginner. There were only nine fish killed in that week, and I accounted for seven of them, averaging over twenty pounds, one of which was sent to the President at the white House, and you were telegraphed advising of its impending arrival. I am wondering whether you were there at the time of its arrival, as I have learned since my return that the President had gone to the Pacific Coast?

Will you please, if I am not too badly in the dog house, prepare a letter for the President to sign and send to my host, who is, among other things, the owner of a Racing Stable, somewhat along the lines of the enclosed? Also please convey to the President, from one who I suppose should have no feelings upon the subject, how delighted and gratified I was at his practically unanimous re-nomination for a fourth term, together with my best wishes for his success.

I was also delighted to see that he had appointed Basil O'Connor President of the American Red Cross. I have the honour of being a Vice-President of the Canadian Red Cross, in which I am very much interested and have done much to bring about the co-operation of the Red Cross Societies in both Countries.

Pearson, of our Embassy, has now been made an Envoy Extraordinary and Minister Plenipotentiary, so I do not feel so much of a truant while I am away, and do not expect to return to Washington until the middle or end of September, unless the Powers that be decree otherwise.

With kindest regards,

Faithfully yours,

Dear Mr. President:

The Milwaukee Council of American-Soviet Friendship takes great pleasure in sending to you an illuminated scroll expressing Wisconsin's appreciation of your wise and far-sighted leadership of our country. We are particularly grateful for your magnificent guidance in international affairs and for the fact that throughout our country, you are continually building understanding that a responsible and cooperative attitude towards all peoples of the world is the wisest and most beneficial course for our own country.

Our local Council, on the occasion of the 10th anniversary of American-Soviet relations, felt it appropriate to express our appreciation of the debt we owe you and to former Ambassador Joseph E. Davies in this message. It was joined in by Governor Goodland, Chief Justice Rosenberry, President Dykstra of the University of Wisconsin, our Mayors and many of Wisconsin's leading citizens. We were physically able to reach a limited number of people during the time we had for the project last fall, but we found great appreciation, support and understanding of the contribution you and Mr. Davies have made in building friendship between our country and the Soviet Union and in fostering recognition of the courage and sacrifice that the Soviet Union has made towards winning the war and making possible a decent and peaceful world.

You may be interested to know that Miss Hazel Larsen, a brilliant young art student at Milwaukee State Teachers College who drew the scroll, was particularly anxious to participate in the project and considered it an opportunity to show her admiration for you. She is a very lovely young woman who has had infantile paralysis and has done a magnificent job in building her personal life.

The scroll was formally presented at our 10th anniversary celebration last November. It was, thereafter, to be completed with the signers' names attached in similar script and sent to you immediately, but an error in handling caused this to be delayed for several months. Our office, which has been overloaded with work and greatly understaffed, feels responsible, is terribly sorry, and can only offer its sincere apologies. We hope that you will accept them.

We want you to know that the Council is continually appreciative of your leadership of the nation and that we are giving you all the support we can in building genuine understanding of the need of international cooperation as absolutely assential to the safety of our country, to victory and to the building of a lasting and prosperous peace.

Respectfully yours

The Hon. Franklin D. Roosevelt,

Washington, D.C.

Dear Mr. President:

On or about April 20, 1944, I sent you an ivory cigarette holder, approximately 8 inches long, bearing the great seal of the United States on one side and your initials "FDR" on the other, as a token of affection of personal nature. I refrained from sending any letter with the gift assuming that someone at the White House would acknowledge receipt, since the package did contain my return address.

I am now wondering if the said cigarette holder reached the White House, inasmuch as I delivered the package to the Theater Censor for further disposition through the APO.

Very respectfully yours,

(C.G. Muradian).

My dear Mr. Matheny:

Secretary Early has handed me your letter of August eighth and I want to assure you and your associates that your courtesy in sending the President a copy of your yearbook, THE WILDCAT, is much appreciated.

I am sorry indeed, however, to have to disappoint you. During these extremely busy days it simply is impossible for the President to comply with the many, many requests to sign books, manuscripts and the like that are constantly being received. Therefore, the one copy of your yearbook is being returned to you under separate cover.

Very sincerely yours,

Dear Sir:

We at Springfield High School, Springfield Ohio, think that we have something really worthwhile in our senior high school yearbook, "The Wildcat", this year. We have taken President Roosevelt's "Four Freedoms" and used it as a theme for the book.

We want the president to have a personal copy and we would like to have him autograph one copy and return to us.

Our portrayal of the "Four Freedoms" is from the high school point of view. We do all our own work in the high school with exception of the color work and the engravings.

Last year our book achieved national honors when the two scholastic press associations awarded us the highest honors, "All American". We feel that we have a better book this year than we had in 1943.

Thank you for the trouble and I am sure that we will treasure the president's autograph for years to come.

Very truly yours,

My Dear Mr. President:

For many years we have heard, on apochryphal authority, that one of your favorite tunes is "Home on the Range". The spirit of the Old West has nowhere, in our opinion, been better depicted than in a painting bearing the same title.

We have had this painting reproduced, with some changes, and it is being shipped to you.

The Montgomery Ward catalog shown in the picture is a prophetic indicia of the sole usefulness of that firm in time of war.

Governor Robert S. Kerr was born near Ada. We think his speech before the Democratic Convention epitomized the spirit of the New West. We believe that this painting and his address accurately presents the panorama of a glorious past and the hope of a better future.

Sincerely yours

Though only a trivial expression, it is sent in deep sincerety.

My son, Master Sargent John A. McQuarie won high honors somewhere in Africa.

My daughter Ellen McQuarie teaches French & Spanish in Franklin College, Franklin, Indiana. She is Associate Professor, speaks a beautiful clear French as she studied four and one-half years in France before the war broke out.

We are proud of Our President and wish him every thing good in all his efforts, good health and happiness.

Very Sincerely yours
Mrs Bertha McQuarie

He is my brother-in-law and 72 years old.

Knowing the President loves deep-sea fishing and would appreciate such a rod. I decided to purchase it and send to him.

The rod is made of seasoned elm, the handle of solid black walnut and the brass trim was made from scrap.

In use, if the elm rod becomes bent, it can easily be straightened by running the warm hand slowly over it.

Still-not is best to polish the brass trim.

I doubt if the last instructions are necessary to an old and very experienced fisherman.

However my brother-in-law wished me to give these instructions.

Mr. Franklin Delano Roosevelt
President of the United States
White House
Washington, D. C.

To my dear President:

On July 6th I was a much provoked citizen and business man -- the reason follows, and for which I think you can assist in correcting and do me a strictly business favor and save me time, money and red-tape.

My business and that of my family for three generations representing a total of 175 years is that of coffee and tea. My own of 54 years, calling and contacting the Hotel Trade.

On Wednesday June 28th I called on the management of The Mount Washington Bretton Woods, where I had sold them coffee and tea from the day Mr. Stickney built it for many years. The present management was delighted to know the story and wished me to call the following week, the confusion in getting ready for the Monetary Conference the reason, and present needs sufficient.

On Thursday July 6th I made a fifty mile auto trip to see the management as requested and at the grounds entrance a U.S. Government M.P. stopped me, a fine fellow, and was about to find some way to get me there, when a superior officer in charge came along and told him, "No!" Well, in spite of that superior officer I guess that I could have succeeded because I, as a guest for years of Anderson & Price, the original managers of the Mt. Washington for years and years had me come there to lay trail etc., in fact I had a definite interest in the first auto climbs to Mt. Washington some forty years ago, and other affairs, as you can see by the enclosed circular which bears my name.

Now, you as Commander-in-Chief of the Army and Navy could, if you would, issue me a pass that would allow me access for the tea and coffee business with Government Institutions as come in my line. I have many of such government institutions, but the red-tape getting these passes causes tremendous delay, consequently valuable time, patience and

money. Moreover, I should be very very proud of such a pass--by you, my President.

Just to show you how fine a coffee our family puts out, I am sending by parcel post a Percolator Grind for Percolator or Pot, and a Drip Grind for any Drip or Glass(Silex) Make for whichever your Chef makes your coffee in.

Never received!!

Mr President -

Is the war being won by the powerful (on track with you) Wm Draper - Douglas political nuts?..

or by the Nelsons - Jeppers - Wilsons etc who are leaving Wash. because of the striping of your democratic friends?

The tradegy is that your political fortunes are permitted to intrude and prolong the war.

For a change why not crush the fascists with a bit of understanding - ideal friendly & honestly with the situation.

We all know Nelson is there in W.P.B. You only fool yourself with the moves made.

Dear Miss Tully:

Attached is original letter dated August 29 addressed to me by my good and honorable friend, Charles Madsen of Kodiak, Alaska, together with copy of letter dated August 12 which he has written the President.

In the midst of the million or so things which press for attention every day, I am wondering if it would be possible to strengthen and hearten our Kodiak friends by writing the kind of letter that Mr. Madsen so ardently desires thanking the people of Kodiak, as well as himself, for the bear pelt which they sent the President.

If it would be possible to have the President sign such a letter himself, the joy of the people of Kodiak would be boundless. The men and women of this frontier town I know are loyal and patriotic and devoted beyond the ordinary, and they have that precious gift of charity which Saint Paul tells us is beyond all other things, and yet they would deeply treasure something to show that even for a split-second the President had thought of them.

August 29th,1944.

Hon.Anthony J.Dimond,
House of Representatives,
Washington,D.C.

Dear Mr.Dimond:

When President Roosevelt drove through town,on August 7th,it occurred to me that it would be nice if we could give him something in memory of his visit to Kodiak,but WHAT COULD WE GIVE HIM?

It so happened that I had just received a nine and a half foot Kodiak Bear skin rug,which I had sent to the taxidermists for mounting,and it was a beautiful skin with an enormous head,which was mounted with open mouth. I immediately phoned to the Navy Base and asked commander Benson what he thought of presenting the rug to the President,and he took it up with the commandant at the base for his opinion. Both of them thought it would be a very nice thing to give the President and,certainly,very appropriate and representative of KODIAK. They immediately sent a boat to town for the rug but Mr. Roosevelt had already boarded the destroyer and gone out to the big cruiser in Wood Island Strait,so,of course,it arrived too late for delivery there. Several secret service men were still at the base and,after getting my life's history through Paul Herring,they decided to take the rug to Washington by plane the following day.

With the rug,I sent a short note to the President, wherein I asked him to accept the rug in memory of his visit to our little island metropolis FROM THE PEOPLE OF KODIAK,but,of course, had to sign the letter myself. A couple days later I was informed that the skin had not been delivered to him here but was flown to Washington by the secret service men,and my short note along with it. I then decided to write the President a letter,on August 12th,and am herewith attaching a copy of same for you to read. I had been looking forward to the receipt of a letter which could be published in our local newspaper but today I received the following PERSONAL letter from his secretary:

THE WHITE HOUSE
WASHINGTON
August 19,1944.

My dear Mr.Madsen:

The President is delighted to have that Kodiak Bear rug which you were good enough to present to him while he was in Alaska recently and he has asked me to express his sincerest thanks to you. He wants you to know also that he especially appreciates the friendliness which promted this very kind gesture.

Very sincerely,
Grace G.Tully
Private Secretary.

That letter is,of course,okeh as an acknowledgement of receipt of the rug BUT it is not the kind of a letter which I would ask our local paper to print as an acknowledgement FROM THE PEOPLE OF KODIAK. It is simply a PERSONAL letter and that is just what I asked NOT TO GET.

As a Rotarian,I am a great beleiver in"SERVICE ABOVE SELF," which is one of our mottoes,and just because I was fortunate enough to have the rug which made the gift possible,I am not selfish enough to want the personal credit for the gesture. I would like to have the honor divided with my towns people.

I am now coming to the point to ask you if it is COSTUMARY for the President to have his secretary acknowledge a gift,or does he, personally,dictate a letter occassionally? The letter from his secretary does not seem to be,in any way,a reply to my letter of August 12, which is herewith attached,and I am wondering if she will write some other letter which I could hand to our local paper,to show that it was accepted as a gift from the PEOPLE OF KODIAK and NOT from Chas.Madsen.

It is still possible that I may get a letter in reply to mine of August 12th but when I received the letter today I was so terribly disappointed that I thought it best to drop you a line NOW and you may know Miss Tully personally so you can explain to her.

Had the pleasure of meeting "Bob" Bartlett here and took him out in my car,and up to my house,to help break the monotony while waiting for an outgoing plane.

With kindest regards from my family and myself,I remain,

Most sincerely yours,

Chas. Madsen

However,we were informed that the rug would be delivered to you in Washington and hope you will accept it in memory of your visit to Kodiak,FROM THE PEOPLE OF OUR LITTLE ISLAND TOWN, because every man,woman and child of this community feel just as happy and honored,as I do myself,that you are the first President of the United States to set foot on Kodiak soil.

We could think of nothing more appropriate,and representative,of KODIAK to give you than a Genuine Kodiak Bear, which,as you know,is the world's largest carnivorous animal,and trust you will find a place for it in your home at Hyde Park.

If you should acknowledge receipt of the rug, at some future date,I would greatly appreciate you mentioning the PEOPLE OF KODIAK,as I would like to have the population of town share the honor with me by having your letter printed in our local paper,so it will not look so selfish just because I happened to be fortunate enough to have the rug which made the gift possible.

Dear Madam:

THANK YOU SO MUCH for your letter of August 19th,acknowledging receipt of the Kodiak Bear-skin rug.

I am wondering,however,if your letter could by any chance also be acknowledgement of receipt of my letter of August 12th,of which a copy is herewith attached.

Your letter is,of course,to me personally and would not be suitable to have printed in our local paper and that is exactly what I asked NOT TO GET,in my letter of August 12th.

Would it be too much for me to ask you to send me a letter wherein the President acknowledges receipt of the rug from THE PEOPLE OF KODIAK,as set forth in the attached letter? THANK YOU!

Most sincerely,

Chas. Madsen

Dear Mr.President:

We were,indeed,sorry to learn that the Kodiak Bearskin rug had not been presented to you before boarding the cruiser,on the evening of August 7th, but due to the fact that your visit here was kept an utmost secret until you drove through town we did not have much time to get word to the commandant at the Navy base to send a boat to town for the rug.

However,we were informed that the rug would be delivered to you in Washington and hope you will accept it in memory of your visit to KODIAK,from THE PEOPLE OF OUR LITTLE ISLAND TOWN, because every man,woman and child of this community feel as happy and honored,as I do myself,that you are the first President of the United States to set foot on Kodiak soil.

Dear "Pa":

The enclosed letter is from a violently enthusiastic Frenchwoman, whose husband has done a swell job for our government on war production, and I know her well. She is terribly anxious to see that her letter is not lost in the shuffle, and as a matter of fact, I think the President might want to see it.

I am taking the liberty of sending it to you with the request that if possible, she might have some sort of a brief reply.

Mr. President:

Thank you for having given us back our France, and for having returned it to us in such a gracious and elegant way!!

Your being willing to let Paris retake Paris ahead of your sublime troops, is the consummation of the superhuman effort that you have made for four years and that was carried out by your political genius together with your heart - which has understood everything!

It is also your political genius that has created those miraculous factories and which led your young America toward this glory that has been won so magnificently. The dawn of happiness is reappearing on this earth...and the world will owe that also to you!

I offer a prayer of respect, admiration and gratitude with all the fervor of my soul for America in the hope that God will hear it.

Thanks to the bravery of your soldiers and the admirable strategy of the Invasion, Alsace also, which you promised us in the darkest days, will soon greet America deliriously. My heart filled with joy and eternal gratitude is ready to break.

My husband, Emile Mathis of Strasbourg, a manufacturer of automobiles bearing this name, has accomplished a great deal in the last four years thanks to the liberty of your country of which you are the apostle.

Beginning with five machines he created an armament factory on Long Island - Matam - which today is making one fifth of all the shells in the United States, which has earned him the E pennant and 4 stars, among the first to receive them.

Please accept, Mr. President, the assurance of my highest consideration.

September 30, 1944

My dear Mr. Morris:

It was nice of you to remember the President's coming birthday with that smoking stand and also the card of greeting which accompanied your note of September eighteenth. In his behalf, I wish to assure you that your friendly thought of him is appreciated.

Very sincerely yours,

Grace G. Tully
Private Secretary
