Dear Mr. Roosevelt

I will write you tonight praising you for all you have done since you have been in power. I certainly think you have done a wonderful work for our country. I feel like you were a God send to save our country from complete destruction. May God strengthen you for the task that is confronting you. And by the Grace of God you will be the means of placing our country upon a firm foundation.

The Honble. Franklin D. Roosevelt,
President, United States of America,
The White House, Washington, D. C.

My Dear Mr President:

Under separate cover I am sending you a small book which is considered one of the gems of the Theosophical literature. It is very many years since I first read it but the strength and calm which came to me through a study of its pages has remained with me through the years of travail of the past couple of decades.

Your efforts are bearing fruit, the first fruit to ripen being the restoration of confidence to a shattered mental fabric and we look to you, with God's aid, to guide the ship of State to a more sheltered harbour.

In appreciation of your courage and honesty of purpose I send you this trivial gift which I hope you will accept from a very sincere admirer.

Have you seen or read - THE TRUTH ABOUT THE SLUMP - by A. N. Field of Nelson, New Zealand ? If you have not done so, I am sure you should do so as it will throw much light upon your present banking problem. Whether or not you approve of this work, it should be on your shelves for reference. It is certainly a valuable contribution to a study of the world's economics. P L E A S E, read it.

Very faithfully yours,

Tyson A. Pearson.

Mr. President:

Do you find a resemblance? The small picture is one taken from a local newspaper "The Bay City Daily Times". The large one is the work of a lad, fourteen years of age. It was sketched without the aid of a sketching pencil, on the contrary with only the help of a penny pencil.

I am sending this unknown to the lad, who is my nephew. He is the type that is too, shy and too humble to ask a word of praise from anyone.

His birthday is the twenty-first of April, so if there is any way of sending him, just one word of encouragement, I think he would accept it, as, a suitable gift and honor for a school-boy.

Hoping you do not find this to simple, according to your other large and difficult tasks,

Sir:

As an American citizen and former resident of Troy, N. Y., may I be favored in acceptance by my President of the first perfect model of the improved Finger-wheel for the Dial telephone. For the past fifteen years I have leaned towards invention and among of my latest ideas this new wheel was one.

I tried to have the American Telephone & Telegraph Company adopt same but up to now with no avail. I believe it to do the job better than the one now in use, and shall make it available to the public. With six others we have formed the above Corperation for the purpose. Our President Mr. Thomas J. Lane, has authorized me to give away the first two hundred to Liberty loving Americans. Yours is number one.

This new Finger-wheel has been made to provide new jobs. The manufacturers who made our first order have done there part, marketing same will provide the others.

Under seperate cover you will receive this new Finger-wheel. We will call it SANI-DIAL as you will see by its container, taken from the word sanitary because it does help maintain the dial in a sanitary condition with little effort.

After you have tried it and you have seen its advantage, let me know if you will permit me to send you as many as will be needed to equip all of the Dial Telephones in your two homes. This is a personal offer allowed me, and will not be used for advertisement of any form. It is an incentive to keep going. It is my ambition to make as many new jobs as I can for others, for I know too well what it is to be out of work. I hope to succeed in this new Company so that income will permit me to make available my other ideas.

Thanking you,

Very truly yours,

Joseph A. Petnel.

My dear Colonel:

Mr. Nathan P. Pechin, the Chairman of the Democratic County Committee of this, Delaware County, has appealed to me to do a favor for him. Why Mr. Pechin should have adopted this course is a mystery to me, but he is such a fine fellow and has been so friendly towards me that I must make some effort to comply with his request.

Mr. Pechin has had made a small gavel from the wood of a tree from Valley Forge. This tree was brought from Mt. Vernon and seems to have some historical significance. Mr. Pechin desires that his great hero, the President, accept this small token of his esteem.

Do you suppose the President would be willing to receive Mr. Pechin and his gavel or would it be more to the President's liking to ship him the gavel by mail or express. My friend is a very meek, self-effacing citizen and is most desirous that the President have this keep-sake with as little annoyance in the presentation as possible.

If you can find time and would be good enough to drop Mr. Pechin of 118 Walnut Avenue, Wayne, Pennsylvania a note, telling him what to do, you will be making a 'red letter day' in his life.

If you have an opportunity, I wish you would present my respectful compliments to the President and tell him that throughout the three or four States I have covered since his Inauguration, the people are behind him to a man and are amazed at the wonders he is working.

Dear Mr. President:

May I have the honor of presenting to you the first copy of the Forestry Almanac for 1933, which is just off the press.

It appears, most appropriately, at a time when the country is witnessing with deep interest and thorough approval, the placing, by your orders, of thousands of unemployed on jobs in the forests and other conservation projects which will, in time, return to the pbulic proper dividends upon the public money and public effort expended in the work.

That all success may attend this broadminded and constructive program is the wish I know, of many millions of Americans beside myself.

Dear President Roosevelt;
I have mailed you a gift and would like to know if you have received it. It parcel included the following:- a flower basket canae, cup, saucer and a table center piece which are all hand cracheted. I'm very sorry that I did not complete the basket with flowers as it should of been as I could not afford it. I have five children and the past depression put me back, but I'm sure will appreciate it very much as it is.

I am very glad you had the honor of being president of our Country and I'm sure you will bring prosperity and make this the most progressive Country as I see you have already made a great change. I wish you a successfulterm.

I am anxious to hear if
the parcel was received perfect
and hoad much you like it.

Sincerely Yours
Mrs Salvatore Potenza

Dear Mr. President:

It has given me a great deal of pleasure to send you and Mrs. Roosevelt some crystal beer glasses, which I hope you will grant me the honor to accept with my sincere admiration and respect.

I wish it were possible for me to send you some beer to drink from them on April seventh, but, being a law abiding citizen, I cannot ship it to you in time to reach you on that day. As soon as it is possible to make shipments of beer, I shall see to it that a package of Blue Ribbon is sent to you and I sincerely trust that you and your family will enjoy it.

Mr. President,

Please excuse my forwardness, as I would like to express my happiness over your victory for the President of the United States. Now, I realize I worked and casted my first vote to a man with such ability and entitled for such a high position.

I thought as my Dad manufactures all kind of Concrete garden furniture, that I would take the liberty to present you with a Jar by express, which you can have filled with flowers. I hope this Jar will please you and Mrs. Roosevelt very much.

At any time you see this Jar, you may remember me as your helper.

I congradulate you on the great progress you have conquered while in office, as it has been only a short while.

I prefer that this letter be confidential, please.
