Lexington, Kentucky.

Dear Madam:

Receipt is acknowledged of the questionnaire, completed by you, which indicates that you stood in loco parentis to your brother, the late Private Harry W. Cunningham.

It has been held that in order for a woman to have stood in loco parentis to a deceased veteran, she must have provided for him as a lawful father, namely, providing food, shelter and clothing.

In order to satisfy the legal requirements, it will be necessary for you to furnish as proof of the relationship, in loco parentis, the affidavits of at least two persons not related to you.

In the event you believe yourself eligible, under the terms of section 4 (a) of the Act of March 2, 1929, as amended May 15, 1930, to make a pilgrimage, it is requested that the enclosed forms be completed and returned to this office, in order that your eligibility, under the Act, may be determined. Under paragraphs 1 (c) and 1 (d), sufficient information should be included to permit an intelligible decision as to eligibility.

INSTRUCTIONS FOR THE PROPER COMPLETION OF G. R. S. FORM NO. 16-A

Enter information, as noted below, on reverse side of sheet in the *corresponding numbered space*. This form is supplemental to and is to be forwarded with G. R. S. Form 1-a, reporting reburial locations. To be used in answer to Question 26, Form 114, in case no means of identification on body.

1. Show soldier's name, serial number, rank and organization, and by whom disinterred and reburied.
2. Give date and accurate information as to location from which the body was disinterred and the group and unit which made disinterment.
3. Give date and accurate information as to location of reburial and the group and unit which made reburial, and how reburial was made—in casket, wooden box, etc.
4. State to what degree decomposition has progressed, whether recognition is possible, and how the body was originally buried—in a casket, box, burlap, etc. This statement should be as complete as possible.
5. (a) State whether identification tags were found buried with body and on grave marker by reporting "Yes" or "No".
 (b) State whether or not body appears to have been a hospital case. Were any identifying articles found in or on body or grave? Items (e) and (f) under the body description are very important and should be very complete. The dental chart is also very important and should be filled in with great care. Beginning at the middle line in both upper and lower jaws, the teeth are arranged symmetrically on either side and classed as incisors (cutting teeth), cuspids or canines (tearing teeth), bicuspid (chewing teeth), and molars (principal chewing teeth). An examination should be made and findings charted to cover the following basic conditions: Lost teeth, crowned teeth, bridge work, fillings, caries (cavities of decay), dentures (plates), and any deformity of jaws found.

<p>MISSING TEETH.....All teeth missing through previous extraction (not those fractured or displaced by recent wounds) should be scratched out, thus :</p>
