
TABLE OF CONTENTS

Chapter 1: Forecasting Prerequisites	1
An Overview of the Forecasting Process	1
More on the Forecasting Process	2
Budgets Versus Forecasted Financial Statements	3
Financial Planning Prerequisites	4
Corporate Growth	5
Value of a Company	5
Chapter 1: Test Your Knowledge	7
Chapter 1: Solution and Suggested Responses	9
Chapter 2: Using the Basic Forecasting Model	11
Making Assumptions	11
Percent of Sales and Sales Forecasts	11
The Basic Forecasting Model	12
Explanation of the Basic Model	14
Identification of Spontaneous and Quasi-spontaneous Accounts	14
The Basic Model: An Example	16
Using the Basic Model for Planning	18
The Basic Model: Sensitivity Analysis	18
The Zeta Company Case Study	20
The Balance Sheet: Percent of Sales Method	22
Forecasting the Balance Sheet: An Example	23
Using the Projected Balance Sheet for Decision Making: Capital Structure Decision	25
Methods of Financing EFN	25
Using the Projected Balance Sheet for Decision Making: Working Capital Decisions	25
Using the Projected Balance Sheet for Decision Making: Retention Decisions	27
Problems and Limitations Associated with the Basic Model	28
Case Study	29
Chapter 2: Test Your Knowledge	33
Chapter 2: Solution and Suggested Responses	35
Chapter 3: Management Uses of the Forecasting Technique: A Case Analysis on Working Capital Planning	37
The Davidson Toy Company	37
Chapter 3: Test Your Knowledge	47
Chapter 4: Using Forecasting to Plan the Company's Capital Structure	49
Value of the Firm	49
The Effect of Debt on the Cost of Capital	50
Other Factors: Bankruptcy Costs	52
Financing the Expected Funds Needed (EFN): Capital Structure Theory	53
Relation of Cost of Capital and Value to Debt Ratio	54
Optimal Capital Structure	54

Factors Influencing Debt Usage	55
Short Versus Long-Term Debt	56
Case Studies	57
Chapter 4: Test Your Knowledge	65
Chapter 4: Solutions and Suggested Responses	67
Chapter 5: Forecasting the Balance Sheet: Statistical Procedures	69
Statistical Procedure Regression	69
Advantages of Regression Analysis	70
Finding a Trend Line with Two Data Points	70
Regression Analysis	72
Using Regression: An Example	72
Regression and Forecasting the Balance Sheet: An Example	74
Using Regression to Forecast the Income Statement	76
Chapter 5: Test Your Knowledge	77
Chapter 5: Solution and Suggested Responses	79
Chapter 6: Forecasting the Income Statement	81
How Expenses Vary with Sales Changes	81
The Income Statement Percent of Sales Method	82
Finding Fixed and Variable Expenses Graphically	82
Using Regression to Determine Fixed and Variable Expenses	84
Example of Using Regression to Determine Expense Components	85
Forecasting the Income Statement	85
Case Study	86
Chapter 6: Test Your Knowledge	91
Chapter 6: Solution and Suggested Responses	93
Chapter 7: Reconciling the Income Statement and Balance Sheet	95
Why There Must Be a Reconciliation	95
Reconciliation of the Income Statement and the Balance Sheet	96
Reconciliation: A Complete Example	98
Forecasting and Reconciling the Income Statement: An Example	99
Reconciliation: An Example	101
Reconciliation: A Second Example	103
Case Study	105
Chapter 7: Test Your Knowledge	111
Chapter 7: Solution and Suggested Responses	113
Chapter 8: Evidence of Growth Mismanagement	115
Evidence of Growth Mismanagement	115
Fixed Assets to Net Worth	116
Net Sales to Net Worth: The Trading Ratio	117
The Trading Ratio of Company A: An Example	118
Other Important Ratios to Monitor During Periods of Growth	122
Case Study	123

Chapter 8: Test Your Knowledge	133
Chapter 8: Solution and Suggested Responses	135
Chapter 9: Maximum Sustainable Growth	137
The Basic Model: Maximum Sustainable Growth	137
The Sustainable Growth Model	138
Maximum Sustainable Growth: An Example	138
Maximum Sustainable Growth: A Second Example	139
Improving Sustainable Growth	140
Case Study	142
Sustainable Growth: Available External Equity	143
Sustainable Growth with Regression	144
Chapter 9: Test Your Knowledge	145
Chapter 9: Solution and Suggested Responses	147
Chapter 10: Forecasting Sales	149
Forecasting Sales: Sales Goal	149
The Best Guess Forecast: Bottom-up	150
Compound Growth: An Example of Forecasting Sales	151
Fluctuating or Cyclical Sales	155
Using Regression to Predict Sales	156
Forecasting Sales: Regression Approach	157
Quick Mart Lumber Company	158
Case Study	159
Chapter 10: Test Your Knowledge	161
Chapter 10: Solutions and Suggested Responses	163
Chapter 11: Integrating the Percent of Sales with a Shorter-Term Forecast of Cash Needs	165
Shorter-Term Cash Needs	165
Chapter 11: Test Your Knowledge	169
Appendix: The Basic Forecasting Model	171
Appendix: Test Your Knowledge	185
Appendix: Solution and Suggested Responses	187
Glossary	189
Index	190
Final Exam Copy	191
