# Guided Bus Trip

**Friday, February 27, 2026, 10am-12:30pm**

**Spanel Planetarium at WWU**

Explore local transportation options and the skies in one fantastic adventure. Smart Trips will lead you by WTA bus to the WWU planetarium.

"WWU's Spanel Planetarium will provide an overview of the many objects and motions in our dynamic and ever changing sky! We'll pick out constellations, stars, planets, and deep space objects you can find on a clear night. We'll also see how the Sun & Moon move through our sky and align to produce eclipses, just in time to appreciate the Lunar Eclipse that will occur a week later."

Meet in the lobby at the BSAC Central 10am sharp! Dress for a short walk and wait at the bus stop. WTA passes will be provided if needed, bring a gold card if you have one. The group will return by 12:30pm.

SPACE IS LIMITED. RSVP or ask for more info at 360-756-TRIP (8747) or [info@WhatcomSmartTrips.org](mailto:info@WhatcomSmartTrips.org).
