

# Automation Anywhere

(v2)

**Click here to submit your bots**

Name: Prakash Thangavel

Score: 100%

Passmark: 75%

Attempted: Tuesday, August 31, 2021

Attempt Number: 2

Locked: No

	<b>This is the final stage where you are required to appear in virtual-face to face viva/interview to be scheduled and conducted by a proctor from Automation Anywhere. The viva/interview would be conducted online over a Ring Central/Skype meeting session, in which are required to demonstrate the Bots developed during the exam.</b>
Answer Comments	Business Use Case 1 - Using REST API extract data from xml and store on the excel Business Use Case 2 - Calculate the weight fee based on Vehicle type for Garbage disposable company and specific criteria for disposing the garbage in a landfillBusiness Use Case 3 - Build a Bot for training organization and extract the data from multiple training application based on specific criteria and update on attendance sheet
