This program may be modified, suspended, or discontinued at any time without notice. Indexed Universal Life (IUL) insurance is not suitable for all individuals. The main purpose of the IUL is to provide a death benefit. It is not a short-term savings vehicle nor is it ideal for short-term insurance needs. Recommendations should be based on the client's need for life insurance protection, objectives, risk tolerance, and overall circumstances, and should be made only when there is a reasonable basis for believing the recommendation is suitable and in the client's best interest. Guarantees are backed by the financial strength and claims-paying ability of the issuing insurance company.
