BIO

Eric Denham is a leader in the development of innovative insurance products and business development strategy. As a captivating speaker, he shares his expertise on market trends and insurance solutions at industry events, and his ability to simplify complex concepts makes his talks essential for financial professionals.

Eric's career spans more than 30 years at firms like Wells Fargo Securities and Merrill Lynch. He is the current EVP of Product & Business Development at Annexus, where he has been instrumental in expanding the company to five carriers and securing over \$10 billion in premium. Eric is renowned for inspiring audiences toward progressive strategies for client success.

EXPERTISE

- Retirement planning solutions, product innovation and development
- Generating lifetime income
- The evolution of annuities, trends and opportunities
- Strategic business development in the financial sector
- Annuities as a new asset class
