

Glad to be your neighbor in Raleigh—and beyond.

You're closer to better performance than you think.

Crown Castle's broad portfolio of network solutions is available in **Raleigh and beyond**—where we're working with customers to design solutions that meet unique privacy and security requirements to support their organizations today—and into the future. With more than 25 years of experience designing and maintaining custom fiber solutions across every vertical, we're committed to being a dependable partner for you.

Secure and reliable

Our high bandwidth, low-latency networks are built over dedicated fiber, giving you the highest levels of security and performance, with best-in-class SLAs.

Local support

Fast, responsive local service teams are backed by our around-the-clock Network Operations Center—staffed by full-time employees, never outsourced, and available to take your call without long wait times.

[Schedule a meeting](#) today to discuss how we can work together to design the best solution for your needs.
