

# We say fiber, you say “tell me more!”

Tackle the demands of business faster and boost productivity with AT&T Business Fiber.

- **What is AT&T Business Fiber?**

It's an ultra-fast (speeds up to 1Gbps) and highly secure network solution that delivers 99% reliability via the AT&T IP backbone network.

- **So, what does that mean for your business?**

It means your employees can be more productive with significantly higher bandwidth than broadband, and speeds that support critical business applications.

- **To get started, contact your AT&T Business Expert:**
