COLUMN PANELS

3D-formed Acoustic Panels

Standing 9 feet tall, Column is a floor-to-ceiling acoustic wall panel with a formed 3D surface inspired by the repeated lines and symmetry of classical architecture. Designed by Woven Image and distributed by Kirei, the panel's peaks and valleys create deeper air gaps behind the surface, improving acoustic performance in direct-mount wall applications.

Specs

Style	Standard (LxH)	Panel Thickness	Weight	SF/Panel
Panel	39.17" x 110.24"	2.76"	16.76lbs/unit	29.99ft ²

All specs refer to singular products and not multiples unless specified. Due to the nature of the material, cutting and fabrication process, minor dimensional variances may occur.

Designer Woven Image

Material 100% PET (51% post-consumer recycled content)

Fire Rating ASTM E84 Class A

VOC Emissions CDPH (CA 01350) Compliant
TVOC: 0.010 mg/m³

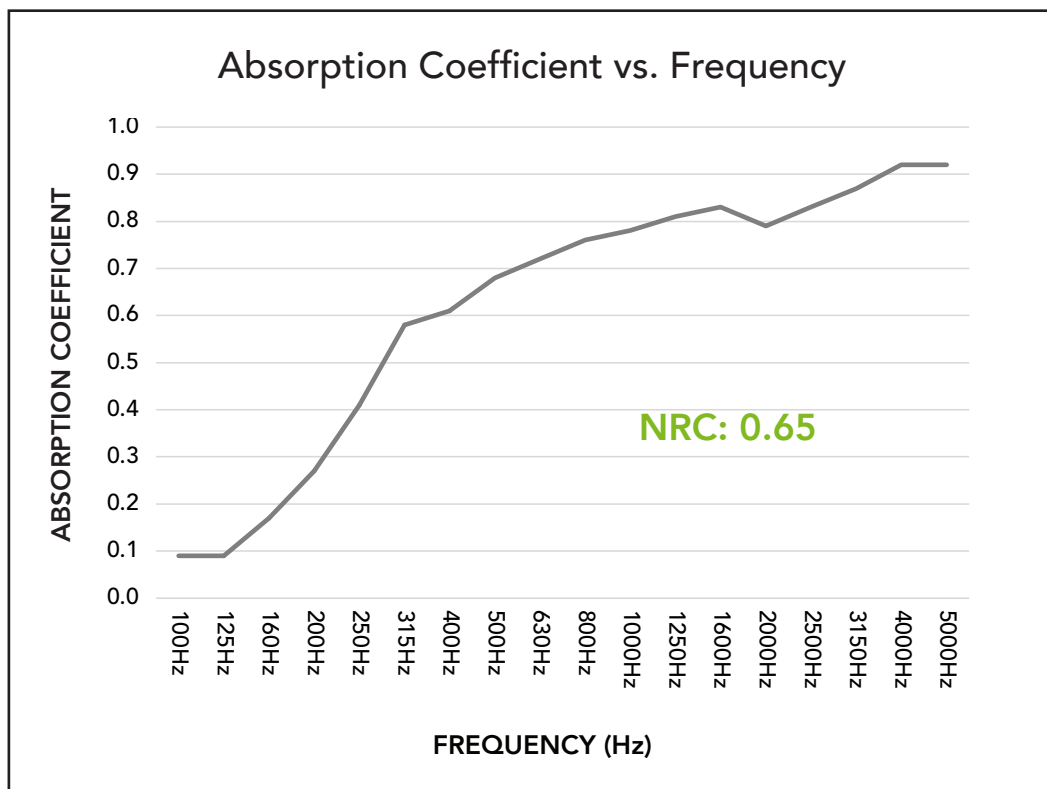

Acoustic Data

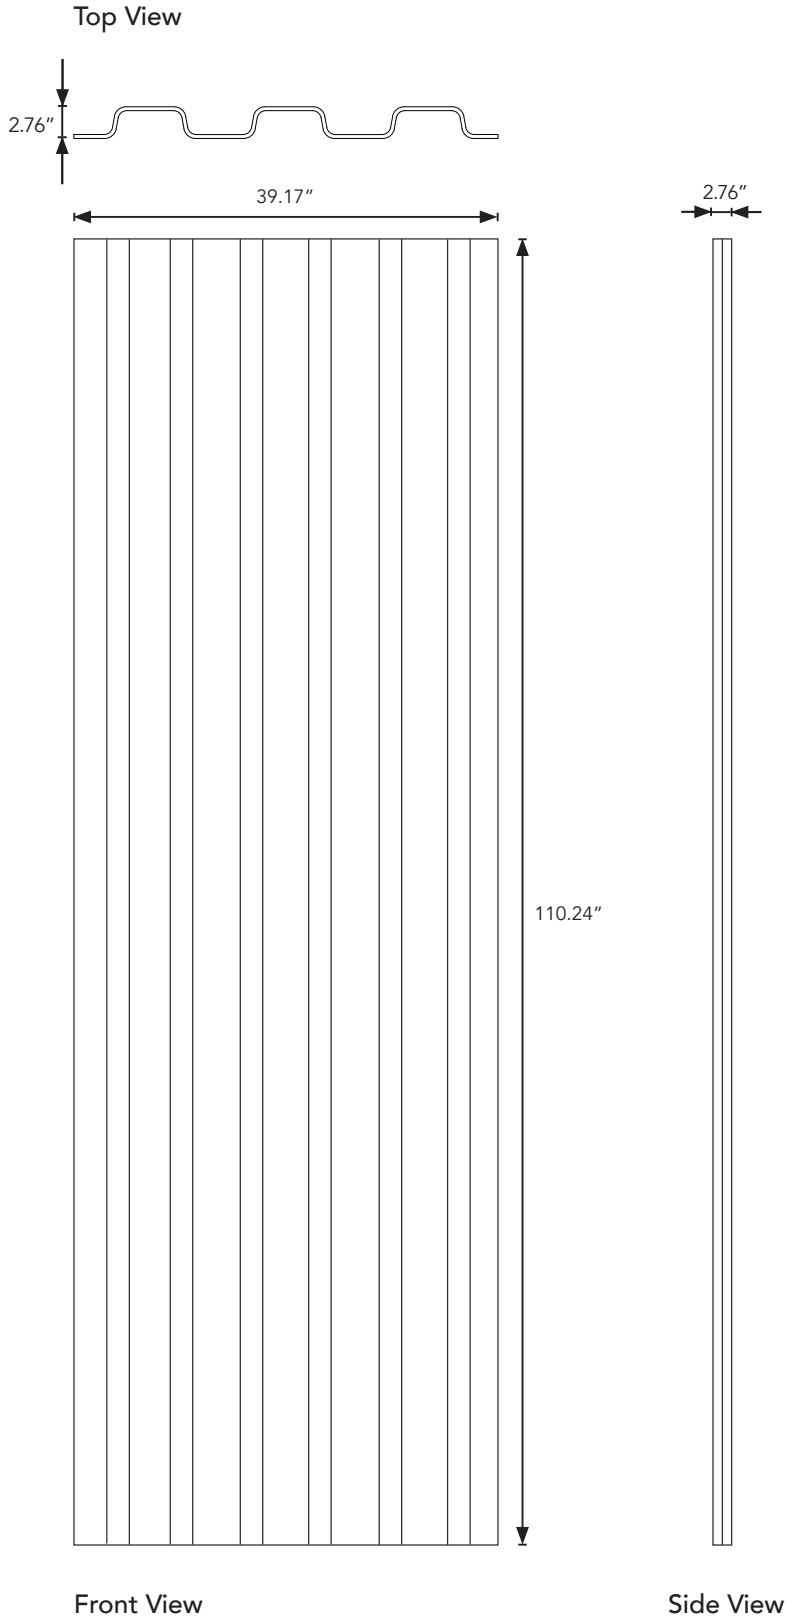

Column Panel Sound Absorption

Frequency	125Hz	250Hz	500Hz	1000Hz	2000Hz	4000Hz	NRC	SAA
Abs. Coeff (No Air Gap)	0.10	0.40	0.65	0.80	0.80	0.90	0.65	0.67

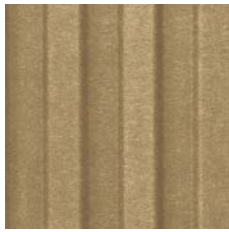

Acoustic data is measured in Absorption Coefficient per square foot of material. For more information, see the [full acoustic test](#).

Product Dimensions

Available Colors

Nutmeg 047

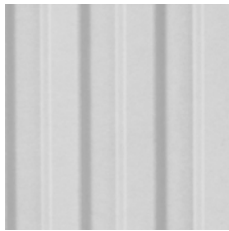

Dusk 032

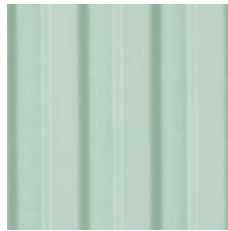

Cream 048

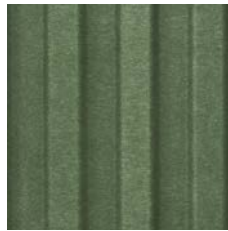

Mushroom 026

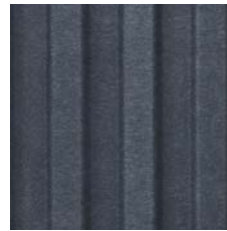

Frost 001

Mint 038

Vineyard 017

Navy 019

Color variation between dye lots is a natural characteristic of recycled PET felt due to fiber mix and manufacturing variation. Slight differences between samples and finished products may occur, and exact color matching between dye lots/batches cannot be guaranteed.

Installation

Curtain installs directly to the wall using standard construction adhesives. Optional panel joiners and edge trims are available to finish seams and exposed edges, providing flexibility across a range of installation conditions. For more information, see the [3D Formed Panels Installation Guide](#).
