SUBWAY PANELS

Etched Acoustic Panels

Energize spaces with dynamic lines that are going places. Subway Panel's simple, consistent groove pattern adds subtle or striking dimension to wall or ceiling surfaces. Easy to install, Subway Panel's controlled playfulness is linear design that fixes acoustic imbalances for happier, healthier occupants.

Color variation between dye lots is a natural characteristic of recycled PET felt due to the manufacturing process. Slight differences between samples and finished product may occur.

Installation

When mounting, use standard construction adhesives (e.g. Liquid Nails/Titebond - NOT PVA glue). Clean and prepare surface per adhesive guidelines. Spread adhesive evenly on panel back, leaving 2" space at edges. Adhere to wall surface, providing bracing to hold material against surface per adhesive open time/instructions. For more information, see the [EchoLine Panels Installation Guide](#).
