VEE TILES

Acoustic Tiles

Vee Tiles are a modular acoustic tile with a distinct v-cut groove patterning. The CNC-cut notch styling links together across tiles and can be oriented in a variety of directions to create multiple looks. Mix and match colors or use large color zones to boldly define spaces and control sound.

Product shown: Vee Tiles in Colors 381 (Lime Splice), 442 (Grey), 444 (Smoke), & 551 (Duck Egg)

Color variation between dye lots is a natural characteristic of recycled PET felt due to the manufacturing process. Slight differences between samples and finished product may occur.

Installation

When mounting, use standard construction adhesives (e.g. Liquid Nails/Titebond - NOT PVA glue). Clean and prepare surface per adhesive guidelines. Spread adhesive evenly on panel back, leaving 2" space at edges. Adhere to wall surface, providing bracing to hold material against surface per adhesive open time/instructions. For more information, see the [Vee Tiles Installation Guide](#).

Custom Printing with Kirei Ink
