Rev-A-Shelf® Unveils Redesigned 448CC Series Walnut Base Cabinet Pullout in the Elegant 2026 Craftsman Collection

Rev-A-Shelf® is proud to introduce the newly redesigned 448CC Series Walnut Base Cabinet Pullout, part of the highly anticipated Craftsman Collection debuting in 2026. This refined kitchen organizer blends timeless craftsmanship with modern functionality, offering homeowners a stylish and efficient solution for maximizing cabinet space.

The 448CC Series is thoughtfully designed to elevate kitchen organization while maintaining a sophisticated aesthetic. Featuring furniture-grade soft edges, solid wood construction, and recessed black wire accents, the pullout adds a modern touch to any kitchen while preserving the elegance and durability that Rev-A-Shelf® is known for.

Designed for use in 9" and 12" base cabinets, this pullout includes a fixed top and bottom shelf for stable storage, while an adjustable middle shelf offers the flexibility to accommodate a variety of kitchen essentials. The curved details incorporated into the design not only enhance its visual appeal but also improve accessibility and functionality.

Equipped with BLUM MOVENTO soft-close slides, the pullout ensures smooth and quiet operation, making daily use effortless. The addition of patented door-mount brackets (US Patent No. 8,388,076) further simplifies installation and adds to the unit's durability and stability.

About Rev-A-Shelf® LLC.

Established in 1984 as a division of the family-owned Jones Plastic & Engineering, Rev-A-Shelf® LLC initially specialized in crafting metal and polymer Lazy Susan components for prominent U.S. cabinet manufacturers, distributors, fabricators, and retailers. Over time, it has transformed into the market leader, offering innovative residential cabinet storage solutions, high-quality wood components, high performance shelving hardware, and cutting-edge L.E.D. cabinet lighting.

Located in Louisville, KY., Rev-A-Shelf® is renowned for manufacturing thousands of innovative kitchen, bath, and closet accessories. Its reputation for superior craftsmanship extends to a diverse range of products produced under its Omega National Products by Rev-A-Shelf® subsidiary, including range hoods and floating shelves, as well as high-performance InnoShelf® floating shelf brackets. Additionally, Rev-A-Shelf® offers a comprehensive selection of L.E.D. lighting options for residential cabinetry and commercial display fixtures under the Tresco Lighting® brand.

Rev-A-Shelf® caters to primary markets, serving cabinet hardware distributors, major O.E.M. cabinet manufacturers, leading big box retailers, and a wide array of online web resellers.
