Rev-A-Shelf® Introduces 448KBCC Craftsman Collection Walnut Knife Block Base Cabinet Pullout – A Perfect Blend of Style and Functionality

Rev-A-Shelf® is excited to unveil the 448KBCC Craftsman Collection Walnut Knife Block Base Cabinet Pullout, part of the newly introduced Craftsman Collection for 2026. Designed to combine timeless style with exceptional functionality, this innovative pullout organizer provides a practical solution for safely storing kitchen knives, shears, meat thermometers, and more.

The 448KBCC showcases an elegant design that seamlessly blends form and function. Its solid wood construction is complemented by furniture-grade soft edges and distinctive curved black wire accents, giving the pullout a refined, cohesive look. Decorative details are thoughtfully designed to echo the graceful curves at the top of the pullout, resulting in a sophisticated aesthetic that enhances any kitchen decor.

Beyond its beautiful design, the 448KBCC is built for practicality and convenience. It includes up to two knife block inserts equipped with flex rod technology to securely hold knives of varying sizes, ensuring they remain organized and easily accessible. A removable wire utensil bin adds further versatility, while an antimicrobial, dishwasher-safe cutting board offers a hygienic, durable workspace.

Engineered for smooth operation and lasting durability, the 448KBCC is designed for 9" and 12" base cabinets and features BLUM MOVENTO soft-close slides, providing seamless and quiet movement. Concealed rear stops offer added safety and stability, and patented door mount brackets (US Patent No. 8,388,076) ensure a secure fit while simplifying the installation process.

Designed to meet the needs of both home cooks and professional chefs, the 448KBCC Craftsman Collection Walnut Knife Block Base Cabinet Pullout is a must-have addition to any kitchen focused on efficiency, safety, and style.

About Rev-A-Shelf® LLC.

Established in 1984 as a division of the family-owned Jones Plastic & Engineering, Rev-A-Shelf® LLC initially specialized in crafting metal and polymer Lazy Susan components for prominent U.S. cabinet manufacturers, distributors, fabricators, and retailers. Over time, it has transformed into the market leader, offering innovative residential cabinet storage solutions, high-quality wood components, high performance shelving hardware, and cutting-edge L.E.D. cabinet lighting.

Located in Louisville, KY., Rev-A-Shelf® is renowned for manufacturing thousands of innovative kitchen, bath, and closet accessories. Its reputation for superior craftsmanship extends to a diverse range of products produced under its Omega National Products by Rev-A-Shelf® subsidiary, including range hoods and floating shelves, as well as high-performance InnoVaShelf® floating shelf brackets. Additionally, Rev-A-Shelf® offers a comprehensive selection of L.E.D. lighting options for residential cabinetry and commercial display fixtures under the Tresco Lighting® brand.

Rev-A-Shelf® caters to primary markets, serving cabinet hardware distributors, major O.E.M. cabinet manufacturers, leading big box retailers, and a wide array of online web resellers.
