Rev-A-Shelf® Unveils the 448UTCC Craftsman Collection Walnut Utensil Base Cabinet Pullout at KBIS 2026

Rev-A-Shelf® proudly introduces the 448UTCC Craftsman Collection Walnut Utensil Base Cabinet Pullout, one of the most exciting new launches for KBIS 2026. This innovative kitchen organizer is thoughtfully designed to complement the entire Craftsman Collection, seamlessly blending timeless elegance with modern functionality to elevate kitchen organization.

Crafted from solid walnut with furniture-grade soft edges, the 448UTCC is accented by recessed black wire detailing, bringing an understated yet sophisticated look to any kitchen. This sleek design ensures that form and function go hand in hand, offering a refined aesthetic while addressing everyday kitchen storage needs.

The 448UTCC is available in two sizes, tailored for 9" and 12" base cabinets, ensuring a perfect fit for a variety of kitchen layouts. The pullout features a fixed top shelf equipped with up to four minimalist open-wire designed bins, offering convenient access to utensils and cooking tools. A sturdy bottom shelf provides additional storage space, keeping items organized and within easy reach.

Functionality is at the core of this design, with the pullout gliding smoothly on BLUM MOVENTO soft-close slides that ensure quiet and reliable operation. Concealed rear stops add an extra layer of safety and stability, preventing overextension, while patented black door-mount brackets (US Patent No. 8,388,076) simplify the installation process, making it easy to integrate the pullout into existing cabinetry.

Perfect for homeowners looking to optimize their kitchen storage while maintaining a cohesive and elegant design, the 448UTCC is set to become a standout at KBIS 2026.

About Rev-A-Shelf® LLC.

Established in 1984 as a division of the family-owned Jones Plastic & Engineering, Rev-A-Shelf® LLC initially specialized in crafting metal and polymer Lazy Susan components for prominent U.S. cabinet manufacturers, distributors, fabricators, and retailers. Over time, it has transformed into the market leader, offering innovative residential cabinet storage solutions, high-quality wood components, high performance shelving hardware, and cutting-edge L.E.D. cabinet lighting.

Located in Louisville, KY., Rev-A-Shelf® is renowned for manufacturing thousands of innovative kitchen, bath, and closet accessories. Its reputation for superior craftsmanship extends to a diverse range of products produced under its Omega National Products by Rev-A-Shelf® subsidiary, including range hoods and floating shelves, as well as high-performance InnovaShelf® floating shelf brackets. Additionally, Rev-A-Shelf® offers a comprehensive selection of L.E.D. lighting options for residential cabinetry and commercial display fixtures under the Tresco Lighting® brand.

Rev-A-Shelf® caters to primary markets, serving cabinet hardware distributors, major O.E.M. cabinet manufacturers, leading big box retailers, and a wide array of online web resellers.
