## For Immediate Release

February 17, 2026

### Rev-A-Shelf® Introduces the 4WCCC Series Craftsman Collection Walnut Bottom Mount Waste Container – A Luxurious Take on Trash Storage

Rev-A-Shelf® is redefining waste storage with the launch of the 4WCCC Series Craftsman Collection Bottom Mount Waste Container, an elegant and functional solution that brings refined craftsmanship to everyday organization. As part of the 2026 Craftsman Collection, this one-of-a-kind pullout waste container is designed to enhance kitchen spaces with premium materials, sleek design, and seamless functionality.

Built for both style and durability, this waste container features solid wood construction, ensuring strength and longevity in high-use kitchen environments. The recessed matte black wire accents provide a sophisticated touch, seamlessly coordinating with the Craftsman Collection's signature aesthetic. The furniture-grade soft edges elevate the overall design, making this pullout not just a utility, but a statement piece in any kitchen.

Designed to fit 15", 18", and 24" base cabinets, this unit offers versatile installation options to accommodate different kitchen layouts. The decorative radius on either side of the pullout is specifically engineered to securely hold the BPA-free black polypropylene waste containers, ensuring they remain in place during use.

For a clean and modern look, the black door-mount brackets are seamlessly integrated into the frame, eliminating bulky hardware and enhancing the streamlined aesthetic. Gliding on BLUM MOVENTO soft-close slides, this waste container moves with effortless precision, delivering a smooth, quiet, and controlled closing motion every time.

#### About Rev-A-Shelf® LLC.

Established in 1984 as a division of the family-owned Jones Plastic & Engineering, Rev-A-Shelf® LLC initially specialized in crafting metal and polymer Lazy Susan components for prominent U.S. cabinet manufacturers, distributors, fabricators, and retailers. Over time, it has transformed into the market leader, offering innovative residential cabinet storage solutions, high-quality wood components, high performance shelving hardware, and cutting-edge L.E.D. cabinet lighting.

Located in Louisville, KY., Rev-A-Shelf® is renowned for manufacturing thousands of innovative kitchen, bath, and closet accessories. Its reputation for superior craftsmanship extends to a diverse range of products produced under its Omega National Products by Rev-A-Shelf® subsidiary, including range hoods and floating shelves, as well as high-performance InnovaShelf® floating shelf brackets. Additionally, Rev-A-Shelf® offers a comprehensive selection of L.E.D. lighting options for residential cabinetry and commercial display fixtures under the Tresco Lighting® brand.

Rev-A-Shelf® caters to primary markets, serving cabinet hardware distributors, major O.E.M. cabinet manufacturers, leading big box retailers, and a wide array of online web resellers.
