Rev-A-Shelf® Submits 4WCCC Walnut Craftsman Collection Pullout Waste Container for Best of KBIS 2026

Rev-A-Shelf® proudly announces its submission of the 4WCCC-WN-1850DM-218MB Walnut Craftsman Collection Pullout Waste Container for the 2026 Best of KBIS Awards. Blending refined craftsmanship with forward-thinking engineering, this newest addition to the Craftsman Collection elevates waste storage into a true design feature.

Constructed from solid wood, the 4WCCC features the signature elements of the Craftsman Collection—including clean, furniture-grade lines, soft edges, and recessed black wire accents. The premium wood construction conceals and frames the waste container system, delivering a polished, built-in aesthetic that complements today's high-end cabinetry.

At the core of its innovation is Rev-A-Shelf's newly engineered streamlined 50-quart waste container. With a reduced-width profile that maintains capacity while optimizing space, the redesigned can allows this pullout system to fit inside a full-height 18" base cabinet, expanding application possibilities without sacrificing performance.

The 4WCCC also features Rev-A-Shelf's patented bi-directional lid, engineered to open front-to-back or side-to-side. This flexible design adapts to installer preference and cabinet configuration and can be adjusted without tools for seamless integration.

Equipped with premium BLUM MOVENTO soft-close slides for smooth, consistent operation, the 4WCCC-WN-1850DM-218MB demonstrates how even utilitarian storage can be elevated through thoughtful design and material selection.

For more information on the 4WCCC-WN-1850DM-218MB Walnut Craftsman Collection Pullout Waste Container, visit rev-a-shelf.com.

About Rev-A-Shelf® LLC.

Established in 1984 as a division of the family-owned Jones Plastic & Engineering, Rev-A-Shelf® LLC initially specialized in crafting metal and polymer Lazy Susan components for prominent U.S. cabinet manufacturers, distributors, fabricators, and retailers. Over time, it has transformed into the market leader, offering innovative residential cabinet storage solutions, high-quality wood components, high performance shelving hardware, and cutting-edge L.E.D. cabinet lighting.

Located in Louisville, KY., Rev-A-Shelf® is renowned for manufacturing thousands of innovative kitchen, bath, and closet accessories. Its reputation for superior craftsmanship extends to a diverse range of products produced under its Omega National Products by Rev-A-Shelf® subsidiary, including range hoods and floating shelves, as well as high-performance InnovaShelf® floating shelf brackets. Additionally, Rev-A-Shelf® offers a comprehensive selection of L.E.D. lighting options for residential cabinetry and commercial display fixtures under the Tresco Lighting® brand.

Rev-A-Shelf® caters to primary markets, serving cabinet hardware distributors, major O.E.M. cabinet manufacturers, leading big box retailers, and a wide array of online web resellers.
