Rev-A-Shelf® Introduces the RV-3550 Bi-Directional Polymer Lid — One Lid, Two Sizes, Tool-Free Versatility

Rev-A-Shelf® announces the launch of the RV-3550 Polymer Lid, an innovative bi-directional solution designed to bring flexibility, simplicity, and streamlined inventory management to pullout waste systems. Engineered to fit both Rev-A-Shelf's 35-quart and redesigned 50-quart (V2) waste containers, the RV-3550 delivers maximum adaptability with a single SKU.

The standout feature of the RV-3550 is its bi-directional opening capability. Installers can easily configure the lid to open either front-to-back or side-to-side, without tools. This no-tool adjustability allows the lid orientation to be changed quickly to accommodate cabinet layout, door configuration, or installer preference, ensuring optimal performance in any application.

Manufactured in the USA from durable polymer, the RV-3550 is designed for long-lasting performance in everyday kitchen environments. By utilizing one lid platform for both 35-quart and 50-quart (V2) containers, Rev-A-Shelf® simplifies purchasing, stocking, and specification, reducing complexity while maintaining design consistency.

The RV-3550 Polymer Lid is available in multiple color options, including select recyclable color choices, allowing designers and homeowners to coordinate seamlessly with waste container finishes and cabinetry interiors.

With its universal fit, bi-directional function, and streamlined design, the RV-3550 represents the next evolution in flexible waste management accessories.

About Rev-A-Shelf® LLC.

Established in 1984 as a division of the family-owned Jones Plastic & Engineering, Rev-A-Shelf® LLC initially specialized in crafting metal and polymer Lazy Susan components for prominent U.S. cabinet manufacturers, distributors, fabricators, and retailers. Over time, it has transformed into the market leader, offering innovative residential cabinet storage solutions, high-quality wood components, high performance shelving hardware, and cutting-edge L.E.D. cabinet lighting.

Located in Louisville, KY., Rev-A-Shelf® is renowned for manufacturing thousands of innovative kitchen, bath, and closet accessories. Its reputation for superior craftsmanship extends to a diverse range of products produced under its Omega National Products by Rev-A-Shelf® subsidiary, including range hoods and floating shelves, as well as high-performance InnovaShelf® floating shelf brackets. Additionally, Rev-A-Shelf® offers a comprehensive selection of L.E.D. lighting options for residential cabinetry and commercial display fixtures under the Tresco Lighting® brand.

Rev-A-Shelf® caters to primary markets, serving cabinet hardware distributors, major O.E.M. cabinet manufacturers, leading big box retailers, and a wide array of online web resellers.
