

Course Description: Like semester A, semester B consists of integrated modules centered on a theme or mode of study. Literature study in semester B focuses on the analysis of different forms of literature and on comparative studies of literature delivered in different media. Writing and informational text lessons guide students through the stages of research and demonstrate how to evaluate, integrate, and share the information gathered during research. Students are required to share their ideas and analysis using several different modes, including oral and multimedia presentations.

Module	Lesson Title	Objectives
Module 7: Common Knowledge	Learn the Process	<ul style="list-style-type: none"> Describe a process or completing a research project that will result in a report or presentation. Generate an effective research question for a research project.
	Make a Plan	<ul style="list-style-type: none"> Identify strategies for finding sources of information about a topic or issue. Create a plan for researching a topic or issue.
	Gather Information	<ul style="list-style-type: none"> Evaluate sources located for a research report. Select useful and relevant sources for a research report.
	Keep It Honest	<ul style="list-style-type: none"> Define and identify examples of plagiarism. Describe the consequences of plagiarism. Explain how a researcher can avoid plagiarism.
	Take Note	<ul style="list-style-type: none"> Take notes to use in writing a research report. Identify source information to record while preparing to write a research report.
	State a Claim	<ul style="list-style-type: none"> Distinguish between claims and other kinds of statements. Explain the role of a thesis statement in a research report. Generate a claim based on research results.
	Build a Case	<ul style="list-style-type: none"> Organize notes for a research project, selecting information that supports a thesis statement. Construct an argument based on reasons and evidence.

Module	Lesson Title	Objectives
	Organize Ideas	<ul style="list-style-type: none"> Describe the essential parts of a research report, including the purpose of each part. Identify the key parts and features of an outline. Create an outline for a research report that supports a claim.
Module 8: Show What You Know	Put It Together	<ul style="list-style-type: none"> Distinguish between paraphrasing and summarizing. Identify examples of effective paraphrasing. Explain when to include a direct quote instead of paraphrasing or summarizing. Draft a research report that incorporates information from multiple sources.
	Let the Experts Speak	<ul style="list-style-type: none"> Identify situations in which a direct quote is the best way to incorporate information from a source. Apply rules for integrating direct quotes. Revise a research report incorporating direct quotes.
	Cite Your Sources	<ul style="list-style-type: none"> Explain why it's important to cite sources of information correctly. Distinguish between footnotes, endnotes, and internal citations. Correctly add source information to a research report.
