

**SPECIALTY EQUIPMENT BARE RENTALS**

Deep South has a large inventory of specialized equipment designed to solve the complex challenges presented by today's heavy construction projects. The following items are available for bare rental.

For more information, please call 877-490-4371 or visit us at: [deepsouthcrane.com/equipment/specialty](https://deepsouthcrane.com/equipment/specialty)

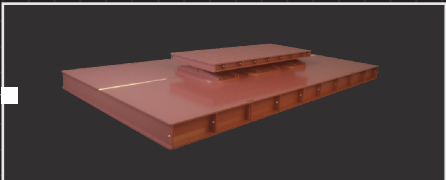

STEEL TRACK MATS

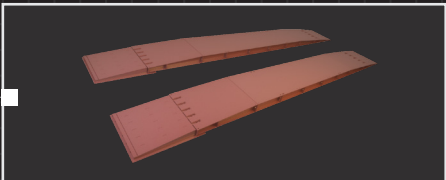

MOMENT CONNECTION BRIDGE RAMPS

TEMPORARY BRIDGES

BOLSTERS

BARGE RAMPS

## STEEL TRACK MATS

Sized for cranes from 100T – 1,600T

Sizes include:

20' x 4'

25' x 4'

25' x 8'

30' x 8'

35' x 4'

Over 2x stronger than a standard wooden mat in bending

Reduced freight cost (One mat does the work of two in many situations)

Integrated forklift pockets and recessed lift rings

## MOMENT CONNECTION BRIDGE RAMPS

Sizes include:

40' x 6'

50' x 6'

60' x 6'

Pin connection for easy assembly

Increased load distribution for crawler cranes

Designed to mitigate low ground bearing pressure areas

Can be used in conjunction with steel track mats for extremely low ground bearing pressure areas

## TEMPORARY BRIDGE SYSTEMS

Sizes include:

130', 100', 80', 60', 50', 40', 30' & 20' in widths up to 32'

Possible applications include:

Temporary site access

Over the road transport bridge jumper

100' and 80' bridges can be deployed without the use of assist cranes

Industry-leading strength; designed for rigors of heavy transport use

## ROCKING BOLSTERS

Sizes include:

100T, 200T, 300T, 500T, 600T & 1,000T

Flat bolsters are also available for low clearance situations

Designed to mitigate tight turns and inclines on transport routes

Large bases for increased distribution to trailer deck

## BARGE RAMPS

Sizes include:

30' & 40' in widths up to 42'

Designed with T plates and wedges for easy transitions
