REPORT

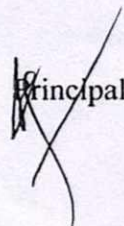

A Seminar on “Emerging Trend on research in the area of Design engineering” was conducted by the Mechanical Engineering Department on 27/07/2017. The resource person was Mr. Ambrish Chaturvedi Business Development Manager, ABSOLUTE Motion Pvt. Ltd., Maharashtra, India. Entrepreneurship is the art of starting a business, basically a start-up company offering a creative product, process or service. Helping re-engineer lighter and better designed versions of existing parts Being cost-effective for design changes and design solutions for complex engineering problems. Allowing low-risk manufacturing for market testing, 3D printing can help your business with prototyping or low-volume manufacturing. It also has applications in design, biomedical devices and mechanical parts. Total 98 students have participated.

Program Outcome-

In this program we covered PO3 which focuses on Design/development of solutions. Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental consideration.
