

# 9.10 Release Notes

## Table of Contents

Front Office.....	2
Accountability .....	2
Family Hub .....	2

**Accountability**

- **Edit Check Report Updates for CACFP and CEP/P2**

We have added support for CACFP on the Edit Check Report.

We have also made some changes to how the Edit Check Report interacts with CEP/Provision 2 sites. Only the meal Total columns will be flagged for potential edit checks, not the individual free/reduced/paid columns. This change was made based on customer feedback, given how we use Claiming Percentages to adjust meal counts in these reports.

*Accountability > Reports > Edit Check*

**Family Hub**

- **Hide CEP Sites from a Meal Application**

We fixed an issue where applicants with all students from CEP sites could potentially be directed to the standard school meal application (not an Income Survey). See the 'Hide Meal App if Site is CEP' setting in the Manage Settings page.

*Family Hub > Configuration > Manage Settings*
