Account Management

- **Middle Eastern or North African (MENA) and South Asian Racial Identities Now Supported**

Two new options, **Middle Eastern or North African (MENA)** and **South Asian**, have been added in the Racial Identity field of an account's details. These options will also be available within applications, in the family portal, and as a potential field in person imports soon.

- **Improved Display of Weekly Checkbox Options**

Now, the **Weekly Checkbox** column option, which shows checkboxes that are useful for creating a POS Roster, has an improved display. This carries over to the Excel export, which now displays actual checkboxes next to each day of the week for each account.
