

# GET EVERYONE ON THE SAME PAGE

A large team means a variety of needs and ideas. Our flexible intranet solution lets you reach everybody, on their terms and yours.

With MangoApps Intranet, employees get a customizable widget-based dashboard that serves as a single source of truth. Our product works for teams of all sizes across a broad array of industries, and has all the security features needed to deploy at enterprise scale.

Too many organizations today rely on outdated intranet tools, and lose time and information to the black hole that is the email inbox. MangoApps gives you the unique opportunity to connect your desk and deskless workers into one central hub that keeps them all in the loop and at the top of their game.

*"I don't think we could have picked a better vendor. Never in my time here have I seen something launch with so much positivity around it—people love it."*

**-Vikki Nye, Superdrug  
Internal Communications Manager**

Your team might not even realize that MangoApps is an external tool—white-labeled with your company brand, it feels like a natural part of their day and workflow.

## Increase Company-Wide Alignment & Awareness

Most workers (especially deskless) feel that they are missing out on information. Reach every employee with the information they need to succeed.

## Increase efficiency & productivity at all levels

Bring all of your tools and information into one centralized hub to improve employee experience and save valuable time spent searching everyday.

## Build a culture of trust, inclusiveness & self-service

Empower employees to embody your company values and establish a continuous dialogue of feedback, ideas, and insights.

### The Ultimate Dashboard

Each user sees their job-critical tools and news, front and center. No irrelevant updates.

### User-friendly Experience

Modern and intuitive, so every employee can jump right in and contribute to the company brain.

### Smart Search Features

Quickly locate key information and find matching documents with powerful predictive search.

### Unparalleled Organization

Department spaces keep teams organized and friendly, and show project status at a glance.

### Easy Deployment

MangoApps adapts to your workflow with quick, seamless deployment. No headache, we promise.

### Trusted Security

Our robust, enterprise-level security will meet your needs, whether you're a fledgling enterprise or a massive government contractor.

# USE CASES

Here are some of the ways our customers use MangoApps to improve their employee experience.

## Distributing High-Level Updates

Getting information out to your employees can be a challenge. MangoApps make it easy to ensure that updates go to the right people, on a platform where they can engage in a way that fits their work style. Less clutter, less confusion, and more clarity.

## Information Org

Legacy intranets have a way of turning useless over time, as clutter accumulates and resources become difficult to find. With MangoApps, a proper, modern system of file organization and sharing with a powerful search engine ensures that everything you need lives exactly where you'd expect, and is up to date.

## Employee Resources

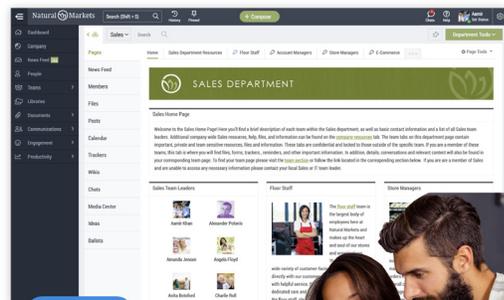

Your employees need certain forms and information. Without a clear system in place where these resources can be found, IT and HR staff can get bogged down by repetitive requests. Arm your team with access and save everyone time.

## Knowledge Management

Employees accumulate knowledge on the job. If they work in silos, that knowledge doesn't transfer to colleagues and is lost when they leave the company. Setting up a strong knowledge base ensures that everyone benefits from each other's successes.

## Employee Voice

Employees who feel valued do the best work. Give your team a voice, and the company will benefit from new ideas and more engaged workers.

## MANGOAPPS PLATFORM FEATURES

These features are built into every MangoApps product. Our enterprise-scale security and administration tools make your admins' lives easier, and our user-friendly platform ensures quick adoption from all of your employees, no matter their devices or tech literacy.

# WHY MANGOAPPS?

Our modern intranet feature set, modular approach, and pricing give you an easy way to meet your employees where they are, with a unified employee experience.

## EXPERTISE

There are a lot of modern intranet providers, but few of them have been doing it as long as we have. The result is that our product does everything you would need, and does them all well.

## AFFORDABLE

We keep our prices low and deliver outsized value. The amount of functionality we bring to the table vastly outweighs what you would expect to get at our price points.

## FLEXIBILITY

With MangoApps' modular approach, you can get the narrow functionality you need right now, and only pay for that piece of the product. Down the road, when you have another need to address, we'll be here with a ready solution.

## ONE SYSTEM

We give your corporate and frontline workers a unified experience. MangoApps is designed to act as a bridge between teams, and we integrate with all the tools both your frontline and office workers are already using.
