

RXD SUPPRESSORS

Dead Air Silencers and Ruger® Firearms are two of the most respected names in the shooting sports industry. These great brands came together to offer an entirely new and exciting product line: RXD Suppressors. Dead Air developed this line of performance-driven suppressors and accessories to complement Ruger's innovative firearms designs. RXD products are not reskins - they represent a new standard for suppressor design, performance, and maintainability.

RXD30Ti

The RXD30Ti combines the two-industry leading patented baffle technologies, Triskelion™ and Nomad™; delivering an ultralight suppressor that has integrated porting to drastically reduce felt recoil. The RXD30Ti was specifically designed for small to large game hunting and precision rifle shooting. It ships with the new Direct Thread Brake Mount and RXD flash hiding front cap that helps reduce blast baffle erosion and muzzle flash, respectively.
