General Technical Proposal

1. Clearly identify the geographic area and/or communities that the request for funds will impact, including the population of the proposed service area, the poverty level of the service area.
2. Describe any existing efforts (either provided by your organization or others in the community) and provide an explanation of how this new effort will not be duplicative or will substantially expand existing efforts.
3. Please provide a description of any existing budget, funding or resources that you have received, including dollar amounts that support the foundation of the proposed project and/or are being leveraged to support the proposed project.

Name	Position	Annual Salary	Level of Effort	Charged to Award

Budget Resources			
Item	Purpose	Calculation	Charged to Award

****Add additional Core Abatement Strategy/Approved Uses as needed****

For Continuation Applicants Only:

- Estimated carryover amount and strategy for the application period 1/1/26-12/31/26
- Estimated interest earned on carryover amount

Core Abatement Strategy/Approved Use

- Core Abatement Strategy/Approved Use: Identify the Abatement Strategy/Approved Use that will be implemented. Include both the Category and the Strategy/Use

- Application Type: ☐ Initial: (organization has not received previous SCORF funding from Florence County for this project) ☐ Continuation: (organization has received previous SCORF funding from Florence County for this project)
- Total Budget for Strategy/Approved Use: Total requested for strategy/approved use.
- Budget Narrative: Explains and justifies the projected costs attributed to each line item or category within the budget and ties the budget to the proposed deliverables and statement of work. The narrative should clarify the connection between the anticipated expenses and the proposed project's implementation plan. The budget narrative must be concrete and specific, provide a justification for the basis of each proposed cost, and an explanation for how that cost was calculated. Examples to consider when justifying the basis of your estimates can be ongoing activities, market rates, quotations received from vendors, or historical records. The narrative must demonstrate that costs are allowable. Costs must be necessary and reasonable for the performance of the project
- Implementation Plan: Describes the necessary steps for the execution of the project. Implementation plans break down the implementation process by defining the timeline, the teams and the resources needed. It also outlines how the project will be executed, monitored and completed. An implementation is showing the necessary steps to reach the goals and deliverables within a specified timeframe and budget.
- Process Measures: A measure that focuses on steps that should be followed to achieve goals of project. The process, when executed well, will increase the probability of achieving a desired outcome.
- Outcome Measures: The measures chosen to assess the impact of the interventions. Outcome measures determine and evaluate results of an action, or program and their comparison with the intended or projected results.
