Project Overview

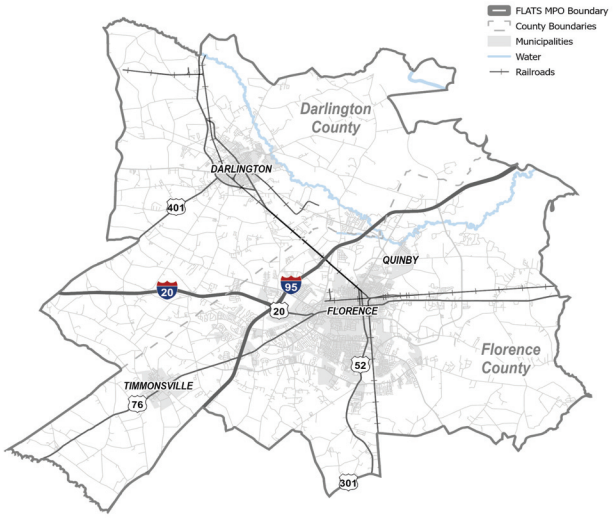

FLATS METROPOLITAN TRANSPORTATION PLAN

The FLATS 2055 Metropolitan Transportation Plan (MTP) will guide transportation investments across the region, whether you drive, walk, bike, or ride transit!

What is a Metropolitan Transportation Plan?

The **FLATS 2055 MTP** is the region's long-range transportation plan. It looks at how we travel today, identifies future needs, and recommends improvements that keep **people**, **businesses**, and **communities** connected for decades to come.

What is the Study Area?

Why it Matters?

Transportation plays a role in nearly every part of daily life. **The MTP helps the region:**

- **Decide where to invest in transportation**
- **Connect communities to jobs, schools, and services**
- **Plan ahead for growth and change**
- **Improve safety for everyone on the road**
- **Support a strong local economy**

2055 MTP PROJECT TIMELINE

- **Project Kickoff**
- **Existing Conditions**
- **Phase 1 Engagement**
- **Project Recommendations**
- **Financial Plan**
- **Draft MTP Development**
- **Public & Committee Review**
- **Final Adoption**
  July 2027

A Vision Shaped by You!

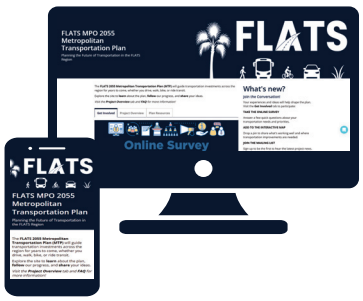

Throughout the planning process, residents, businesses, community groups, local governments, and transportation partners will have opportunities to identify transportation needs, share priorities, and review draft recommendations.

These experiences and ideas will help guide decisions and shape a transportation system that reflects the region's values and works for today and future generations.

Share your thoughts!

Visit the project website to take the survey, add to the online map, keep up-to-date on progress, check out upcoming engagement events, and to receive updates.
