## AltRider SYNCH Dry Bags: 14 liter, 25 liter, and 38 liter

### Product Overview:

#### Bag Features:

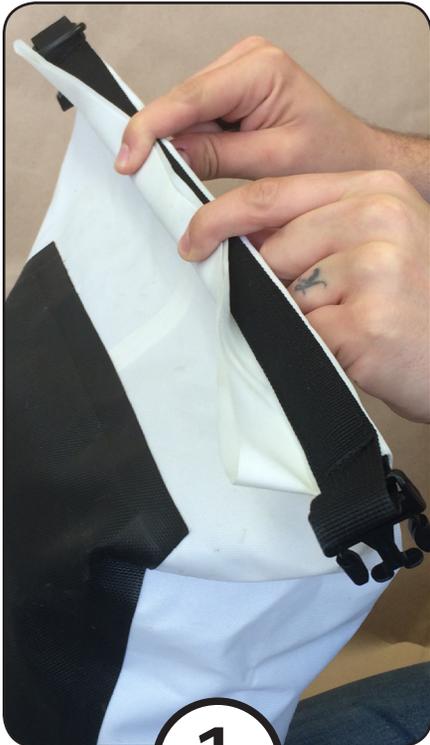

- ① Dry bag
- ② Daisy chain
- ③ Carry handles
- ④ D-rings
- ⑤ Waterproof roll-down openings
- ⑥ (2 qty) Tie-down straps

## Proper Closing and Waterproof Seal

When packing, always pack soft items like clothing on the bottom of the bag, and then hard items on top. The SYNCH dry bags utilize roll-down openings with cinching straps. When used properly, this creates a waterproof seal.

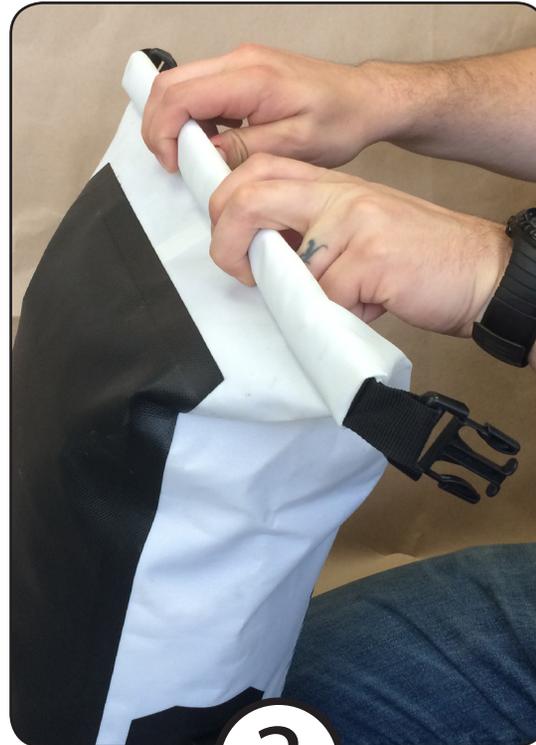

- ① The first roll is the most critical. Turn the 1" strip of fabric which protrudes past the webbing closure "up" (toward you).
- ② Now turn the roll in your hands "down" (away from you).
- ③ Continue rolling the fabric and webbing roll "down" and hold it tightly, it is important for "training" the fabric to hold this shape in the future.
- ④ Now roll "down" one more turn so that the d-ring on one side of the closure is facing out. Clip the side release buckles together and cinch the straps down and your bag is sealed. Once this has been done a couple of times, the end of the fabric which protrudes past the webbing will hold this form for a long time and make it easier the next time you use the closure.

## Use of Tie-Down Straps

Each SYNCH Dry Bag comes with two tie-down straps to secure the dry bag to the motorcycle. Here are a few tips for using the tie-downs:

- ① Start off by finding a secure spot to mount the looped end of the strap. This could be to the frame, luggage rack, pannier rack, etc. To attach the strap, insert the clip end of the strap through the loop and pull tight.
- ② For securing the bag, you have many options on how to run the straps. Cross strapping as shown is one of the most secure methods. Experiment with running the straps through the daisy chain, under the side release buckles etc to achieve your ideal setup.
- ③ All straps come with an elastic keeper to secure the excess.

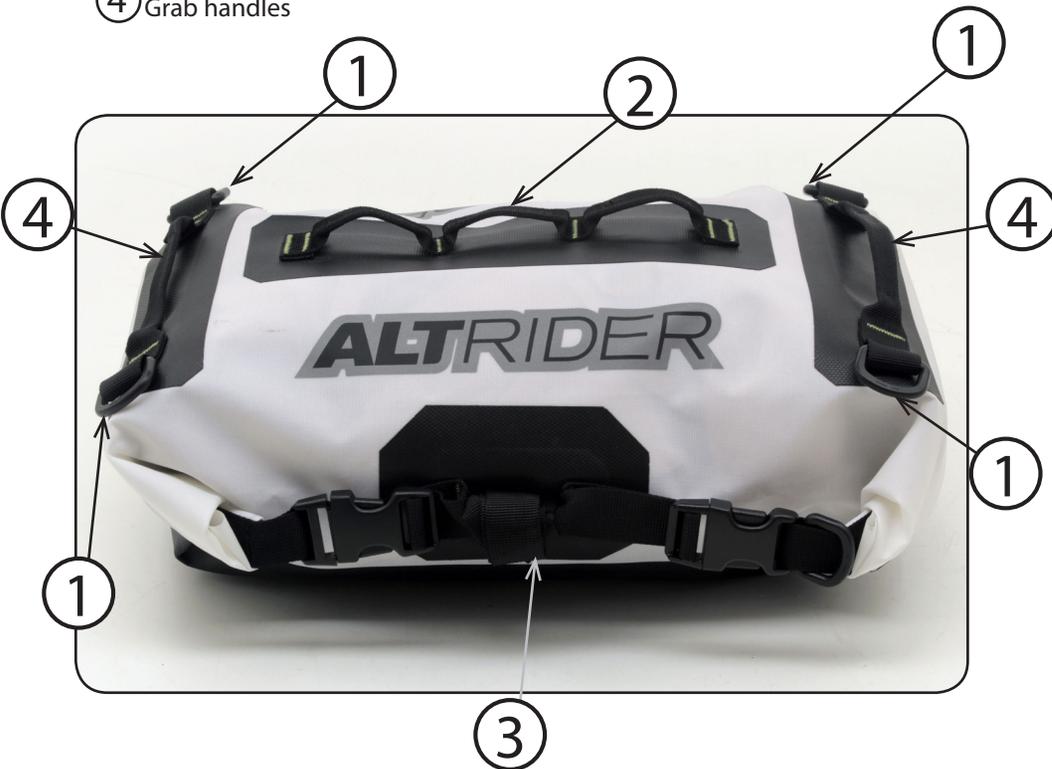

## Stacking Bags

The SYNCH Dry Bags offer several attachment points each, meaning there are many variations that can be used when utilizing the stacking straps. It is important to always keep in mind you want a properly secure system when stacking items.

The available D-rings are a great starting point for figuring out how to stack items to the dry bags.

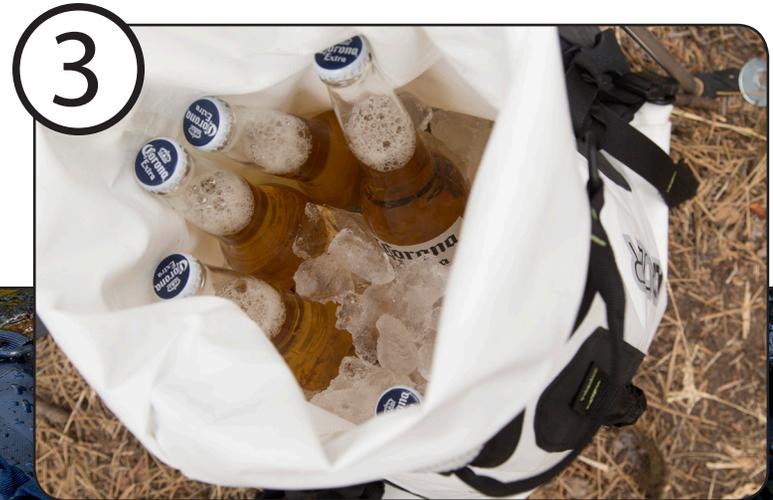

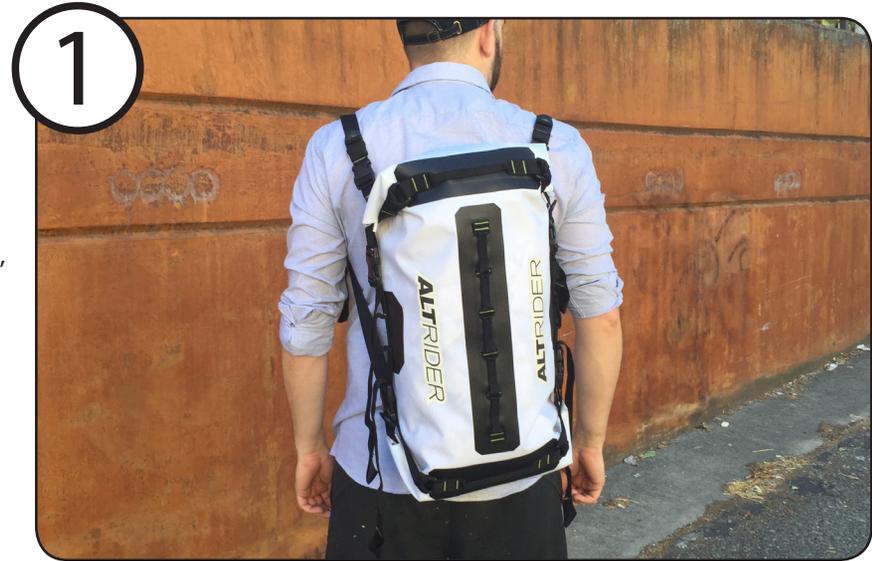

- ① Nylon D-rings
- ② Daisy chain
- ③ Anchor patch
- ④ Grab handles

## Endless Possibilities

The SYNCH Dry Bags offer endless possibilities for your travel and general use.

- ① Tie-Down straps can be used as over-the-shoulder or backpack straps.
- ② If you run out of room in the dry bags, you can strap sleeping bags, tents, and various gear to the top of the dry bags as well.
- ③ You can even use them as a cooler!

## CONGRATULATIONS!
