

AUERdev rapidly converts PDFs to PDF/A with Syncfusion .NET PDF Library

Effortless integration

Extensive PDF Library
capabilities

In-depth documentation

Introduction

With a passion for Java and C# development, Sven Auer founded AUERdev. Based in Baden-Württemberg, Germany, AUERdev offers ready-made and client-specific software solutions to help users achieve their project goals.

Problem Summary

AUERdev's web application required PDFs in an ISO-standardized archival format, but Sven found it challenging to edit and convert PDFs into PDF/As.

"[You should] use it. The instructions are excellent, and the quality of Syncfusion's solution is one of the best on the market."

– **Sven Auer**, Founder

Use Case

AUERdev used Syncfusion's .NET PDF Library to transform ordinary PDFs into high-quality PDF/As efficiently, bringing its web application one step closer to deployment.

Founder

BEFORE SYNCFUSION

Challenges

- ❌ Struggled to edit and convert regular PDFs into an ISO-standardized archival format.
- ❌ Needed PDFs that preserve content for a prolonged period of time.

AFTER SYNCFUSION

Solutions

- ✅ Syncfusion's React DOCX Editor SDK enables dynamic template creation, reducing maintenance burden.
- ✅ Leveraged Syncfusion's "PDF to PDF/A" converter to create specialized PDFs for long-term archiving.

Implementation

AUERdev seamlessly incorporated Syncfusion's .NET PDF Library into its technology stack. "The integration was very easy," Sven said. "I'm using it to convert PDF to PDF/A for an application that's currently under development."

Results

- Obtained a Syncfusion Community License
- Accessed Syncfusion's .NET PDF Library for free
- Simplified PDF processing, including PDF-to-PDF/A conversion
- Produced high-quality PDF/As for long-term archiving
- Expanded web application functionality

Future Plans

While no explicit projects have been outlined, AUERdev feels confident that Syncfusion will continue to be an asset to future development. "[Nothing is] planned yet, but it will certainly happen since Syncfusion has excellent products," Sven said.

Conclusion

Using Syncfusion's .NET PDF Library, AUERdev successfully edited and transformed PDFs into PDF/As. The library's comprehensive PDF processing capabilities, paired with the Syncfusion Community License, empower Sven to preserve PDF content in the long term without taking on additional expenses.
