

## Introduction

Firstsource Solutions Pvt. Ltd., an RP-Sanjiv Goenka Group company, is a well-established business process management partner that operates out of 10 different countries. Since 2001, the company has interacted with over 200 million customers, performed 2 billion back-office transactions, and partnered with well-known business leaders in various industries—such as banking, technology, broadcasting, and healthcare.

## Challenges

When Rohini Kumar, the Software Manager at Firstsource Solutions, realized her team's current means of manipulating PDFs reduced their system's efficiency, she began to troubleshoot. They needed a tool that simplified their PDF splitting and merging process while optimizing their program's performance, so they turned to Essential Studio®.

## Solution

Rohini and her team now use Essential Studio's ASP.NET Core UI controls library to manipulate PDFs. They were thrilled that the ASP.NET Core controls suite was easily integrated into their existing system and quickly enhanced its efficiency. "We use the ASP.NET Core controls library to split and merge PDFs," she said. "It's improved our performance."

At Essential Studio®, we care about the user experience, so we only design tools that are built for performance. Our ASP.NET Core controls suite is not only lightweight, but it also features 140+ modular components that are designed for efficiency.

Want to try the ASP.NET Core controls library yourself? Start your 30-day free trial today!
