

## Syncfusion® makes working with PDFs easy and affordable

### Challenge

While developing a PDF-signing application on Windows Forms, Sushil integrated the iText PDF library to support signing and other document manipulation features. Unfortunately, he found that the library output documents with excessive file sizes.

### Solution

Sushil found Syncfusion after searching for an alternative PDF library that would make file compression a more accessible feature. The Syncfusion PDF Library met this need, supported digital signing, and provided a plethora of further PDF document handling features.

### Result

Since making the switch, Sushil has been able to achieve 50% smaller file sizes in his application. Beyond the app, Sushil has greatly benefited from two things: he has found a trusted partner in the Syncfusion support team, which has been there to help him when any questions or issues arise; . and And with simple, straightforward licensing terms, that don'the's never surprised him withby hidden fees.

With Syncfusion, Sushil has acquired an excellent tool that meets the needs of his clients while being affordable and easy to get started with.

### Pull Quote

"I would surely say it's a very good tool."

—Sushil Agarwal, founder and owner of Bansal ERP
