| Portable Docking Station | Mac & Windows | 4K/30Hz | 3.5mm Audio Jack | PD18W |

Model No FlexPort mini-I | flykantech.com/products/flexport-mini-i

Version v1.0

The flykantech.com FlexPort mini-I is a practical and cost-effective **4-in-1 portable USB-C docking station**. It features a durable metal casing that combines excellent durability with a sleek, minimalist design. Its compact and lightweight design allows for easy portability, enabling you to enhance your productivity and connect more devices on the go. Equipped with four efficient ports, this docking station provides versatile functionality for professionals. The **3.5mm audio jack** allows easy connection to headphones or speakers, ensuring clear sound for meetings, video calls, or entertainment. The **HDMI 4K/30Hz** output supports external displays or TVs, offering high-quality resolution for presentations, remote work, or movie watching, boosting both productivity and work experience. The **USB 3.0 Type-A** port enables fast data transfer, making it ideal for connecting USB drives, external hard drives, and other peripherals, enabling quick file access and efficient work. The **18W USB-C PD** port supports device charging, ensuring your tablet or USB-C laptop stays powered during long hours of use without the worry of running out of battery.
