

NOTE: The Wastewater Plant Energy Assessment is only available for Municipal Wastewater Plants. Contact **800.762.7077** or **business@focusonenergy.com** for questions related to eligibility.

WASTEWATER PLANT ENERGY ASSESSMENT

Identify energy efficiency opportunities for your wastewater plant with the Wastewater Plant Energy Assessment (WWPEA). Qualified Wastewater Service Providers (WSPs) will evaluate your existing infrastructure, determine your baseline energy use, and provide a list of no-cost/low-cost and capital improvement opportunities for your plant. This is a great first step if you do not have a capital improvement plan or if your current plan needs updating.

By working with a WSP, you will receive a report detailing the following:

- Energy use analysis comparing current usage and historical Compliance Maintenance Annual Report (CMAR) data.
- Current processes and problems the facility is experiencing.
- No-cost/low-cost and capital improvement recommendations.
- Existing infrastructure describing the overall plant performance and equipment operation.

Choosing a Wastewater Service Provider

Specialized Trade Allies called Wastewater Service Providers (WSPs) are experienced in the wastewater industry and can provide you with a quality Wastewater Plant Energy Assessment. Find a registered WSP by visiting focusonenergy.com/assessments.

Enrollment Process

1. Choose a registered Wastewater Service Provider.
2. Complete the 2023 Wastewater Energy Assessment Application and submit the proposal from the WSP, including the cost of completing the assessment. (*Fill in the Incentive Calculation box (on the next page) when submitting application for pre-approval.)
3. FOCUS ON ENERGY® reviews the application and confirms enrollment. Customer will sign and return an incentive agreement.
4. WSP completes the assessment.
5. WSP submits the final assessment report and invoice to Focus on Energy.
6. Focus on Energy reviews and approves the final report. The incentive payment is sent to the WSP upon receiving signed assessment completion notice from the customer.

REDUCING ENERGY WASTE ACROSS WISCONSIN

Focus on Energy, Wisconsin utilities' statewide program for energy efficiency and renewable energy, helps eligible residents and businesses save energy and money while protecting the environment. Focus on Energy information, resources, and financial incentives help to implement energy efficiency and renewable energy projects that otherwise would not be completed.
